DEPARTMENT OF WATER RESOURCES
STATEMENT OF COMPLETION
FOR SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY

Amt. of Fee \$ 50.00Receipt No. C124978Received By KWDate Received 2-17-26

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

- Permit No. 65-23621 Name of Permit Holder(s) ALYSON HODGES, MARC HODGES
Telephone No. (208) 800 1205 Email MARC@RISENHOMEBUILDERS.COM
Mailing Address 14115 RUSKA RD City MCCALL State ID Zip 83638
- Source of Water GROUND SEEPAGE If Ground Water (well), Date Drilled mo. DNA yr.
Drilling Permit/Tag No. DNA Drilling Company's Name DNA
- Extent of use(s) completed as authorized by the water right permit:
Domestic (No. households) DNA Irrigation (No. acres) DNA Stockwater (No. and stock type) 5 SHEEP TO 36 COW/CALF PAIRS
Other FIRE PROTECTION
- Total diversion rate or volume (storage only) for which proof is submitted DNA cfs OR 5 af
If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.
- Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)
POND FILLS BY SEEPAGE FROM GROUND. STOCK HAVE DIRECT ACCESS.
FIRE PROTECTION BY MOBILE PUMP AND BY FIRE RESPONSE VEHICLES/AIRCRAFT
- Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:
Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 65-23621

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above-mentioned permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

Jean Hersley

Re: Permit No. 65-23621, Statement of Completion

Thank you for your letter of December 31, 2025 requesting the Statement of Completion for Permit No. 65-23621. The requested Statement is attached.

Please note regarding the permit:

- 1. The Permit was originally issued for a single stock/fire protection pond with a total annual storage volume of 10 acre-feet of water (8 acre-feet of initial filling and 2 acre-feet for loss to evapotranspiration). Stock useage is for the stock equivalent of 16 yaks.
- 2. The Permit was amended on 06/28/24 to allow for construction of 2 ponds which together total the above volume and not to exceed 1 acre in extent.
- 3. The original first pond is complete and at full spring volume measures approximately 0.2 acre in extent and averages about 4 feet deep for a maximum volume of about 0.8 acre feet when full. The second pond is under construction and currently measures about .06 acre in extent and 6 feet deep for a full spring volume of about .38 acre-feet when full.
- It is my understanding that this second pond enjoys a 5 year construction period beginning from the date of approval of 06/28/24. I expect to submit a separate Statement of Completion for this second pond at a later date. *A map showing both ponds is attached.* Both ponds are fed by groundwater seepage.
- 4. The enclosed Statement of Completion is addressed to the first pond only. In this Statement, the permitted water volume and uses are based half of the annual 10 acre feet approved. Accordingly, the enclosed Statement of Completion is for an annual 5 acre-feet of water (4 for initial filling and 1 for evapotranspiration) for fire protection, and a stock equivalent of 8 yaks.

Please note regarding the first pond:

- Fire protection capacity is complete. Water access is via firefighter response pumper vehicles and rotary aircraft from offsite, as well as via onsite pump (currently Honda WT30 317 gal/min gasonline pump). At this pump rate, the pond when full would provide 13 hours of firefighting.

Large vehicle-based pumps such as those on first responder vehicles, and aircraft buckets, will deplete this capacity more quickly. Pond recharge rate from groundwater seepage is unknown but will be less than this pump rate.

- Actual stock water support from the first pond varies by year and season and ranges from 5 sheep to 36 cow/calf cattle pairs.

Please also note that a separate permit application was submitted on 05/23/25 to use both ponds for irrigation. The enclosed Statement of Completion does not address this separate permit application.

Please let me know if my understanding of the permits and their associated conditions/procedures is incorrect.

Thank you for your assistance in this matter.

PROOF DEFICIENCY LETTER

RE: Permit No. 65-23621

Dear Permit Holder(s):

The Department received the proof of beneficial use (proof) form submitted for the above referenced permit. The proof is not acceptable without the correct fee. A copy of the form is enclosed for your reference.

A license examination fee was not submitted with the proof form. This permit authorizes a diversion rate of 10.0 af (acre-feet) requiring a license examination fee of \$50.00. It was stated on the form that the total diversion volume developed is 5 af requiring a license examination fee of \$50.00. Please submit the \$50.00 required fee.

Regarding the amendment adding a second pond to permit 65-23621, proof of beneficial use (proof due) is due for both ponds by March 01, 2026. A separate proof due date **was not** established for the second pond.

Please submit the required fees at your earliest convenience before the proof due date of **March 01, 2026** to avoid the possibility of your permit lapsing. If you have any questions concerning this matter, please contact me at (208) 287-4945.

Sincerely,

A handwritten signature in blue ink that reads "Julie Adams".

Re: Permit No. 65-23621, Statement of Completion

Thank you for your letter of January 27, 2006 regarding the receipt of the Statement of Completion for Permit No. 65-23621.

Per your letter, I now understand that both stock ponds are to be completed in this current Statement of Completion process. My January 20, 2026, letter to your office describes the current size and locations of both ponds constructed under this permit. Please use these figures for both ponds in this Statement of Completion process. I've enclosed an amended Statement of Completion to reflect these two ponds together totalling no more than 10 acre feet per the original permit specification. I will trust to the inspection process to determine the final quantities of beneficial use per this permit.

Per your letter, please also find enclosed a check for \$50.00.

Thank you for your assistance in this matter.

Peace be with you,

Marc Hodges
