(Split into 43-286 E and **43-13922**),

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Benny Walker
Senior Water Resource Agent,

Hello Denise, During my transaction I let Jody know that there may need some additional documentation for the Water Rights. Ill forward this email to him and see what he can get worked out.

Thank you for the heads up,

Hi Kortney,

I hope all is well with you and your family. I am working on the water right ownership change for Jody Barnes and it looks like this water right needs to be split. The deed submitted only conveys ground in Section 27, however the water right covers ground in Section 22 also (to the Northeast). Unless I am missing something or there is another deed out there; I think this water right needs to be split.

That being said, it also looks like the ground in Section 22 is owned by Donald Woodland. If that is correct – Mr. Woodland will need to update his portion as well. It might be an option for Jody Barnes and Mr. Woodland to share the fees to split the water right. I can always send Mr. Woodland a letter as well, letting him know that he needs to split &/or update his portion of this water right. If we collect the split fees from Jody Barnes, then Mr. Woodland would only pay \$25 to update his portion in the future (if he files on it). There are a few options on moving forward, but I wanted to reach out to you first.

Bottom line.... If this water right needs split, we need an additional \$75 to do so. If it is not intended to be split, we need additional documentation showing that.

Please reach out if you have any questions. Happy Friday! ☺
