WATER SUPPLY BANK LEASE CONTRACT No. 2121

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Water right 37-2557R when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
13. Right Nos. 37-2557R, 37-21858, 37-21875, 37-21892, 37-21909 and 37-21926 are limited to the irrigation of a combined total of 5 acres in a single irrigation season.
14. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
15. Property is also known as Lot 6, Blk 4, Bellevue Farms Subdivision.
16. Point of diversion described above is the headgate for District 45 canal.
17. A portion of this right provides conveyance for other right holders in the shared delivery of water through the Wood River Irrigation District #45 canal. To prevent injury to other water right holders, the watermaster shall deliver 20% or 0.07 cfs of the leased portion of this right into the Wood River Irrigation District #45 Canal whether it is rented or not.

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2030**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

MEMORANDUM FOR LEASE APPLICATION # 3347

To: Water Right No(s). 37-2557R, 37-21858, 37-21875, 37-21892, 37-21909, and 37-21926

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 3347 was sent in by Russell Dion and received by the Idaho Dept. of Water Resources on November 10th, 2025, with the correct fee payment received the same date. The applicant proposes to lease the entirety of Water Right Nos. (WR) 37-2557R, 37-21858, 37-21875, 37-21892, 37-21909, and 37-21926 into the Water Supply Bank (WSB) from 2026-2030. The proposed point of diversion (POD) is within the Snake River Basin and Big Wood River Moratorium Area, Big Wood River Groundwater Management Area, Galena Groundwater District, and Trust Water Area. This application is intended as a renewal of lease contract 1396 which expired on December 31st, 2025.

AUTHORITY TO FILE:

Russell Dion signed the application. Mr. Dion has the authority to sign the application because a designated lessor form was attached to the application in which all owners of the WR, according to Department records, signed. The proposed WR's divert from a canal system operated by the Triangle Irrigation District and Wood River Valley Irrigation District #45. Consent from both canal companies was attached with the application.

WATER RIGHT VALIDITY:

All of the proposed WR's were decreed by the SRBA court in 2010. The WR's have been leased into the WSB from 2016-December 31st, 2025. According to Idaho Code §42-1764 if a WR is leased into the WSB the forfeiture clock resets once the lease expires. Therefore, there is enough information available to the bank to conclude WR's 37-557R, 37-21858, 37-21875, 37-21892, 37-21909, and 37-21926 are likely not lost to forfeiture and can be leased into the WSB.

ENLARGEMENT OF USE:

The proposed WR's are limited when combined to the irrigation of 5 acres. If the WR's are leased and rented separately more acres would be irrigated than was historically causing an enlargement. Therefore, these WR's will be leased and made rentable together. There are no other WR's overlapping the proposed POU. The proposed POD is within a canal system operated by the Triangle Irrigation District and Wood River Valley Irrigation District #45. Both canal companies requested a conveyance holdback of 20%. Therefore, the authorized diversion rate for each surface water right will be reduced by 20%. 37-2557R authorizes diversion from groundwater and would not be subject to conveyance. A condition will also be added to the lease contract noting conveyance losses. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Accepting valid rights into the water supply bank to provide water for new and supplemental uses is in the local public interest.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The proposed POD is located within Administrative Basin 37 and Water District 37. A request for comment was sent to the Watermaster and IDWR Southern Regional Manager on February 11th, 2026. No comments were received.
