**Re: Class 2 Modification to RCRA Permit IDD000602631
PacifiCorp's Idaho Falls Pole Yard – Hazardous Waste Management Facility**

This letter is to inform you that PacifiCorp recently submitted to the Idaho Department of Environmental Quality (IDEQ), a Class 2 Permit Modification. This modification request has been made in accordance with the requirements of IDAPA 58.01.05.012 [40 CFR Part 270.42].

Modifications are proposed to change the wells to be monitored; revise the schedule for groundwater monitoring, readiness testing, and reporting; identify chemical / site specific concentration thresholds; clarify statistical methods to be used; eliminate the requirement to calculate the groundwater flow rate in each aquifer; update the toxicity factors used when calculating the groundwater protective standards; update required tables, figures, and forms; document changes to variable frequency drives, submersible pumps, and smoke detector systems, streamline the process for submittals, and to make other minor formatting corrections.

A 60-day comment period begins on March 6, 2026. Comments may be addressed to: Mr. Andrew Ramsey at 1410 North Hilton, Boise, ID 83706. If you have any additional questions regarding this Permit Modification, please feel free to contact me at (801) 220-2427, or Andrew Ramsey of the IDEQ at (208) 373-0163.

There will be a Public Meeting on April 1 at 7:00 pm at the Holiday Inn (3005 South Fork Boulevard, Idaho Falls, ID) to discuss the proposed modifications. This meeting will be open to the public.
