HOW YOU WILL RECEIVE NOTICES IN THE BEAR RIVER BASIN WATER SYSTEM ADJUDICATION

All documents filed in the Bear River Basin Water System Adjudication, other than notices of claim, are filed with the court. Notices of claim to water rights filed in the Bear River Basin Water System Adjudication are filed with the Idaho Department of Water Resources (IDWR). Copies of all documents filed in the Bear River Basin Water System Adjudication will not be mailed to all parties (claimants) in the adjudication. Any document filed with the court will be mailed only to those parties who may be directly affected by it.

A monthly docket sheet is prepared by the court, which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Bear River Basin Water System Adjudication. Copies of a monthly docket sheet may be obtained from any of the offices of IDWR; a small fee may be charged to cover the cost of mailing and/or copying. If you wish to receive an annual subscription of the docket sheet printed each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee by the court to cover the cost of copying and mailing. The docket sheet is also available on the court's web site at:

<http://www.srba.idaho.gov/BRBA20.HTM>

Copies of any document listed on the docket sheet may be obtained from any of the IDWR offices or the court and a small fee may be charged to cover the cost of mailing and/or copying the document.

Copies of all notices of claim filed with IDWR will be available for inspection at all IDWR offices. You may also obtain copies of the notices of claim filed by other claimants, but you may be charged for the cost of copying and mailing. A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.

After the notices of claim have been reviewed, the director will prepare and file a Director's report with the court that will contain the Director's recommendations as to each water right claimed under state law and a copy of each federal reserved water right claimed. A Director's report will be prepared for all claims filed in the Bear River Basin Water System Adjudication. When this report is filed with the court, you will be mailed a notice informing you that the report has been filed. The notice will be sent to the most recent address shown by IDWR's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way another claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection.

It is very important that you inform IDWR in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by IDWR or the court.

If you are acquiring property with water rights within the boundaries of the Bear River Basin Water System Adjudication in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of IDWR whether a notice of claim has been filed. If you fail to file a required notice of claim for a water right, that water right may be determined to no longer exist.

If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with IDWR. You may contact IDWR regional offices or the IDWR web site <http://www.idwr.idaho.gov/> for change of ownership forms. The notice of change in ownership form must be accompanied by evidence of the ownership of the property. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by IDWR or the court.

Description of Existing Diversion Works

Points of Diversion

1. Control house with a metal slide gate that is controlled with hydraulics located in the cinder block shed at the bottom of the dam. A measuring gauge is located in the cement structure coming out of the dam.
2. Electric pump.
3. Head gate with a metal slide that goes into a pipe that feeds an electric pump.
4. Metal head gate with a metal slide installed in a cement structure.
5. Metal wall with a waterman screw headgate going into a pipe that feeds a diesel pump.
6. Diesel pump.
7. Metal headgate feeding a diesel pump.
8. Metal headgate installed in gravel with a metal slide.
9. Cement structure with waterman screw headgate. In this structure there is a gauge on the wall that correlated with Parshall Flume measurements. It feeds the north canal that goes around the east side of Montpelier above the golf course and cemetery. It supplies water to the northern shareholders and the emergency drain canal on the northern side of Montpelier that is used for flood diversion in the spring if needed.
10. Cement structure using boards. It diverts water into what is referred to as the Burgoyne Ditch and the South Ditch. Burgoyne ditch supplies water to shareholders within the city of Montpelier and the central part of the company. South ditch takes water south on the eastern side of town to the shareholders in the southern part of the Company.
11. Cement structure using boards to send water to shareholders below the UPRR tracks.
12. Metal structure used to supply water to diesel pump.

**Re: Montpelier Irrigation Company
Notices of Claims to Water Rights
Bear River Basin Adjudication**

Dear Brian:

This letter responds to your February 26, 2026, correspondence regarding the water right claims filed on behalf of Montpelier Irrigation Company ("Company") in the Bear River Basin Adjudication.

Response to Issues No. 1 and No. 2

In response to Issues No. 1 and No. 2 identified in your letter, the Company has determined that the claimed place of use (POU), source, and point of diversion (POD) located above the Montpelier Reservoir can be removed from the claims filed previously. Accordingly, the Company is amending those claims, as discussed below.

The diversion and use above Montpelier Reservoir is associated with a separate water right (11-2115) owned by the Company. Enclosed herewith is a notice of claim for water right no. 11-2115 and a check in the amount of \$78 (\$50 flat fee + \$1.00 per acre x 28 additional acres = \$78) for the filing fee.

Response to Issues No. 3 and No. 4

In response to Issues No. 3 and No. 4, the Company is filing amended claims for the following water rights: 11-1015, 11-1018, 11-1019, 11-1020, 11-1021, 11-1022, 11-1023, 11-1024, 11-1025, 11-1034, 11-1036, 11-1037, 11-1038, 11-1039, 11-1040, 11-9319, 11-9321, 11-9328, 11-9329, 11-9342, and 11-2159.

These amended claims make the following corrections and clarifications:

1. The claimed POD and POU located above Montpelier Reservoir have been removed from each claim, as discussed above.
2. The POD located at the south end of the Montpelier Reservoir in T12S, R45E, Section 27 has been added to the supplemental point of diversion sheet. This POD was shown on the map but inadvertently omitted from the supplemental POD sheet in the original claims.

3. The location of the two PODs in T13S, R44E, Section 2 has been corrected to SENE, which matches the location identified in attached POD description and map. The original claims inadvertently identified these PODs as being in the NESE.
4. The total irrigated acres of the Company have also been corrected to remove the acreage located in the POU above Montpelier Reservoir.

The Company believes these amendments resolve the concerns identified in your letter. Please let us know if the Department has any questions or requires any additional information or clarification.

Sincerely,

T. J. BUDGE
