McKenna,

I talked with Kristal and Mark today about water rights 27-12225 and 27-12227. Mark indicated that there has never been any surface water right associated with or delivered to NWNW of Section 17 T02S R 37E.

I called and talked with the Idaho Irrigation District a few weeks ago and they also indicated that no surface water rights are assigned or delivered to the NWNW of Section 17 T02S R 37E.

Good morning,

I wanted to check in and see if you have any updates regarding if 27-12225 and 27-12227 are stacked with surface water rights from that irrigation district. Before we can continue processing this application, we will need to know what the situation is with that.

Best Regards

Subject: CVRH Farms LLC Transfer

Good morning,

I'm reviewing the CVRH Farm LLC Transfer and just had a question. It looks like the Idaho Irrigation District covers the area where the 10.2 acres were moved from, but the area that those acres are being moved to is not covered by the irrigation district.

Is that NWNW $\frac{1}{4}$ $\frac{1}{4}$, where the rights are proposed to be moved from, currently covered by water from the Idaho Irrigation District, or was it petitioned to be removed? We are trying to determine if 27-12225 and 27-12227 are stacked with surface water rights from that irrigation district.

Best Regards
