Place of use (POU) was determined using parcel information and Mineral Survey 2256 of the Colonel and Robert Slee Lode Mining claims. Parcel information noted Mr. Farley as the owner of tax lot numbers 8 and 9, parcel ID RP26N06E235435. Aerial imagery shows a cabin on the parcel's border in the SE corner, though this is not the applicant's cabin. Domestic use supplies an RV that is on the property seasonally as communicated by the applicant in an email correspondence on March 19th, 2020 (see attachment A).

The point of diversion is described as a collection box from a spring that is then piped to the POU. Mr. Farley provided a receipt recording excavation of the POD on July 30th, 1996 for work done the prior summer.

The legal description of the POU in the permit describes the quarter-quarter as SW $\frac{1}{4}$ SW $\frac{1}{4}$; however, aerial imagery and survey information show the quarter-quarter as NW $\frac{1}{4}$ SW $\frac{1}{4}$. The area has no PLSS survey and publically available GIS tools were uncommon during the time of application. Considering this, IDWR's delay in licensing, and the fact that the applicant provided the mineral survey to the department in the original application, I believe the need for an amendment should be waived. Foregoing an amendment was discussed with administrative staff and it was agreed that an amendment is not needed.

Re: Change in Ownership for Water Right No(s): 77-7329

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at 208-287-4942.

Sincerely,

Jean Hersley

Dear Interested Parties:

The Department of Water Resources (Department) acknowledges receipt of your Notice of Change in Water Right Ownership (Notice).

Our review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

- Evidence of Water Right Ownership: copy of conveyance document- warranty deed, quitclaim deed, etc. The conveyance document must include a legal description of the property or description of the water right if no property was conveyed. The settlement statement you provided is not a conveyance document.

Because the Department cannot process the Notice without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed. You can provide the documents by responding to this email or send to file@idwr.idaho.gov.

Also, please note that water right holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Forms to update ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact me at 208-287-4942.
