RE: Change in Ownership for Water Right/Permit No(s): 95-12832, 95-18520

Dear Interested Parties:

The Department of Water Resources (Department) acknowledges receipt of your Notice of Change in Water Right Ownership (Notice).

Our review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

- Evidence of Water Right Ownership: copy of Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question

During our review of the documentation you submitted we found that we will need further documentation to proceed. The Amendment of Foreign Registration form that we received is not adequate evidence for this change. The Department will need a different legal document that reflects the name change from Envirotech Services Inc to Envirotech Services LLC that also provides a property description that we can link to the above water rights.

Because the Department cannot process the Notice without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact me at (208)287-4921.

Sincerely,

Debra Mansfield
