Re: Permit No. 65-23703 – 2023 Q2 Reporting Requirement

Dear Mr. Dobson:

Consistent with the *Agreement in Resolution of Protest* executed between you and the Bogus Basin Recreational Association, Inc. ("Bogus Basin") in resolution of your protest to Application for Permit No. 65-23703, and Condition of Approval No. 7 as to Permit No. 65-23703, Bogus Basin is required to report to you, on a quarterly basis and for the first five years that storage occurs under this right, with copies to the Idaho Department of Water Resources: (1) the monthly volume of water diverted from the pond; and (2) the starting and ending pond elevation for the same period.

For Quarter 2 of 2023, the below table demonstrates compliance with the reporting requirement:

|                                    | Apr. 2023 | May 2023 | June 2023 |
|------------------------------------|-----------|----------|-----------|
| Volume of Water Diverted from Pond | 0.09 AF   | 0 AF     | 0 AF      |
| Starting Pond Elevation for Month  | 5975'     | 5975.5'  | 5975.5'   |
| Ending Pond Elevation for Month    | 5975.5'   | 5975.5'  | 5975.5'   |

The pond is measured at 5976' top elevation and 5930' bottom elevation.

Water was diverted from the pond in late April to fill a small pool of water near the base of the Simplot Lodge for the customers to water ski across on closing day, also known as a "pond skim." Bogus Basin's closing date was pushed back this season because of the abnormal winter.

Sincerely,

Chris M. Bromley
