1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The use of water for irrigation under this right may begin as early as March 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

Subject: RE: Lease Application to lease Water Right 63-33230 to the Water Supply Bank

The application filing fee is \$250 per water right. If you are submitting more than one lease application and the water rights have an overlapping, common place of use, or a common diversion rate or volume, the total fee for all rights is \$500. Water rights 63-3330B and 63-7075B have a common place of use so the filing fee is \$500.

The Department will need an additional fee of \$250 to lease water right 63-33230 to the Bank.

Effective April 8, 2011, Water Supply Bank Rule 25.02 (also known as IDAPA 37.02.03.025.02.f) requires a \$250.00 fee be submitted with all Water Supply Bank (Bank) lease applications. The fee for a set of overlapping rights is a maximum of \$500.00. To clarify, Bank lease applications seek to place water rights into the Bank.

The Department of Water Resources (Department) received your application(s) to lease water right(s) 63-33230 to the Bank on December 8, 2025 without the required fees. **Please submit the \$250.00 lease application fee within 14 days.** Without the lease fee your application(s) is considered incomplete and will not be processed.

Once the application fee is received, your application(s) will be reviewed. If the right(s) is determined to be eligible for acceptance into the Bank, the right will be entered as of the date of receipt of the application. The acceptance date may be adjusted if additional information is required.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right. This and other water right forms are available from the Department's web site, <http://www.idwr.idaho.gov>.

Attached are images of a check for \$500 that I submitted with my Water Bank application and was cashed by IDWR. Rights 63-3330B and 63-7075B irrigate the exact same ground so I thought the fee for those would be \$250 and then another \$250 for right 63-33230. Please let me know if that is incorrect and I still owe another \$250.

Thank you.
