STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

TRANSFER OF WATER RIGHT
TRANSFER NO. 90365

This is to certify that: CITY OF CALDWELL
PO BOX 1179
CALDWELL, ID 83606-1179

has requested a change to the water right(s) listed below. This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code. A summary of the changes is also listed below. The authorized change for each affected water right, including conditions of approval, is shown on the following pages of this document.

Summary of Water Rights Before the Proposed Changes

Water Right	Origin/Basis	Priority Date	Diversion Rate	Diversion Volume	Acre Limit	Total Acres	Source
63-32665	WR/DECREED	9/13/1948	1.730 cfs	473.9 af	N/A	105.0	GROUND WATER
63-32666	WR/DECREED	9/13/1948	0.030 cfs	7.6 af	N/A	1.7	GROUND WATER

This water right(s) is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. Detailed Water Right Description(s) attached.

Dated this 30th day of April, 2026.

SCOTT STORMS, Water Resources Supervisor

WATER RIGHT NO. 63-32665

As Modified by Transfer No. 90365

In accordance with the approval of Transfer No. 90365, Water Right No. 63-32665 is now described as follows:

Right Holder: CITY OF CALDWELL
PO BOX 1179
CALDWELL, ID 83606-1179

Priority Date: 9/13/1948

Source: GROUND WATER

BENEFICIAL USE	From	To	Diversion Rate	Diversion Volume
IRRIGATION	03/01	to 11/15	1.730 cfs	473.9 af
			1.730 cfs	473.9 af

LOCATION OF POINT(S) OF DIVERSION

GROUND WATER	NWSE	Sec 15 Twp 03N Rge 03W CANYON County
GROUND WATER	NWSE	Sec 15 Twp 03N Rge 03W CANYON County

PLACE OF USE: IRRIGATION

Twp	Rng	Sec	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	Totals
03N	03W	15														38.0	28.0	39.0	105.0

POU Total Acres: 105.0

CONDITIONS OF APPROVAL

1. This right is a split from former right 63-2718 .
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
3. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
4. Transfer 90365 authorizes the following additional well as a point of diversion under this right as of the date of the approval:
   Well is located in T03N R03W S15 NWSE
5. This right does not grant any right-of-way or easement across the land of another.
6. Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.

WATER RIGHT NO. 63-32665

As Modified by Transfer No. 90365

CONDITIONS OF APPROVAL

7. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

8. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

9. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

WATER RIGHT NO. 63-32666

As Modified by Transfer No. 90365

In accordance with the approval of Transfer No. 90365, Water Right No. 63-32666 is now described as follows:

Right Holder: CITY OF CALDWELL
411 E BLAINE ST
CALDWELL, ID 83605

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT

GENERAL INFORMATION AND INSTRUCTIONS

Pursuant to Section 42-222(1), *Idaho Code*, a transfer application may be filed to change the point of diversion, place of use, period of use, or nature of use of all or part of an established water right. Any person proposing to make such a change is required to file a transfer application with the Department. "Such application shall be upon forms furnished by the department and shall describe the [water right] to be changed and the changes which are proposed and shall be accompanied by the statutory filing fee." *Idaho Code* § 42-222(1).

The Department has developed this application form to assist applicants in satisfying the requirements of Section 42-222(1). This application form requests information about the applicant's authority to file (Part 1), information about the current elements of the water right(s) to be changed (Part 2), information about the proposed changes (Part 3), information about the validity of the water right(s) and the effects of the proposed changes (Part 4), and confirmation that the information provided is truthful (Part 5).

The applicant or their representative must provide a response for all applicable questions, any additional information required, and the proper filing fee before this application will be considered complete. If an application is incomplete or more information is required, the Department will notify the applicant or representative and allow time for the application to be completed. An application that remains incomplete will be returned to the applicant and the filing fee will be refunded.

An application for transfer is limited to the changes proposed for a single water distribution system. A proposal to change two or more separate water distribution systems, that will remain separate after the transfer, must be filed as separate applications. Applicants may provide additional pages to supplement their responses to the questions posed on this application form. Supplemental forms for listing additional water rights, points of diversion, or places of use can be found on the Department's website (idwr.idaho.gov). If you need assistance understanding the questions on this form, generating current water right reports, determining legal descriptions, or accessing water measurement records feel free to contact the nearest regional office of the Department.

PART 1 – CONTACT INFORMATION, OWNERSHIP RECORDS, AUTHORITY TO FILE

Name(s) of Applicant(s) City of Caldwell

Mailing Address PO Box 1179 Caldwell ID 83606

Email* _____ **Phone** _____

Name of Representative (if any) Hallie Hart - City Engineer

Mailing Address PO Box 1179 Caldwell ID 83606

Email* hhart@cityofcaldwell.org **Phone** 208-455-4678

*If an email address is provided, Department staff will use email as the primary method for corresponding with the applicant and representative about the application.

A. Representative. If the representative is authorized to sign or amend the application on behalf of the applicant, attach documents confirming that authority. Label documents as Attachment 1A.

B. Current Owner. If the applicant is not the current owner of record for all water rights included in this application, attach documents showing that the applicant has the authority to make the proposed changes. Label documents as Attachment 1B.

C. Updating Ownership Records. Applicants needing to update the ownership records for any of the water rights included in this application must attach documents supporting the ownership change. Such documents must trace ownership of the subject water rights or the current place of use for the subject water rights from the current owner of record for the water rights to the applicant. Label documents as Attachment 1C.

D. Business Entities. If the applicant is a business entity (corporation, LLC, partnership, trust, etc.), is the entity currently registered with the Idaho Secretary of State?

☐ Yes. If this application is signed by someone other than a person listed on the most recent annual report filed with the Idaho Secretary of State, attach documents confirming the authority of the signer to sign on behalf of the business entity. Label documents as Attachment 1D.

☐ No. Attach documents confirming the authority of the signer to sign on behalf of the business entity. Label documents as Attachment 1D.

E. Approval of Irrigation Delivery Entity. Section 42-108, *Idaho Code*, states that a transfer application proposing to change water rights held by an irrigation company or district requires the consent of the irrigation entity. If this application proposes to change water rights held by an irrigation entity, attach a letter of consent from the entity (labeled as Attachment 1E) or have an authorized representative of the entity co-sign the application.

F. Encumbered Properties. If the current place of use for the water rights included in this application is subject to a lien, deed of trust, mortgage, or contract and the application proposes to change the nature of use of the water rights or to move water rights off the current place of use, attach a statement of consent for the change signed by the lien holder, trustee, mortgagor or contract holder. Label documents as Attachment 1F.

G. Legal Access. If the applicant is not the current owner of the proposed point(s) of diversion, conveyance system, or place(s) of use, provide evidence of legal access to the land or infrastructure not owned by the applicant. Label documents as Attachment 1G. For example, an applicant may provide a letter of consent from the owner of the land or conveyance system or may have the owner co-sign the application. For applications proposing to divert water on or convey water across federal land, an applicant is not required to demonstrate legal access to the federal land prior to approval. Instead, if the transfer application is approved, the applicant must obtain access authorization from the relevant federal agency prior to diverting water under the subject water rights.

PART 2 – WATER RIGHTS BEFORE PROPOSED CHANGES

A. Current Water Rights. For each water right proposed to be changed, attach a current water right report obtained from any Department office or from the Department's website (idwr.idaho.gov). Label water right reports as Attachment 2A.

B. Map of Current System. Attach a map of the current point(s) of diversion and place(s) of use for the water rights to be changed. The map should clearly depict the elements of the water rights to be changed. For example, if the application proposes to change the point of diversion for a water right, the map should display the current location of the point of diversion. For irrigation water rights, the map should also identify the location of the irrigated acres to be changed. Label map as Attachment 2B.

C. Current Location of Irrigated Acres. If this application proposes to change the place of use or nature of use for only a portion of an irrigation water right, use the following table to identify the current location of the irrigated acres to be changed. If additional pages are required, label additional pages as Attachment 2C. If this application proposes to change or rearrange the entire place of use for irrigation water right(s), skip to Part 3.

☑ **N/A. This application does not propose to change the place of use or nature or use of an irrigation water right or this application proposes to change the place of use or nature of use for an entire irrigation right.**

Current Location of Irrigated Acres to be Changed

Twp	Rge	Sec	NE ¼				NW ¼				SW ¼				SE ¼				Acre Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

Total Irrigated Acres to be Changed: _____

PART 3 – DESCRIPTION OF PROPOSED CHANGES

A. Purpose of Transfer. Section 42-222(1), *Idaho Code*, states that transfer applications may only be filed to change the point of diversion, place of use, period of use, or nature of use of an established water right. Section 42-248(3), *Idaho Code*, authorizes water right ownership changes to be described on a transfer application. Identify the changes proposed in this application:

- ☐ Change point(s) of diversion
- ☑ Add point(s) of diversion
- ☐ Change nature of use
- ☐ Change place of use
- ☐ Change period of use
- ☐ Update water right ownership records

B. Proposed Changes. Describe the proposed changes in narrative form:

Add an additional groundwater Point of Diversion to the existing Water Right (63-32665 and 63-32666). The proposed well will divert water from the same source aquifer and will be within the same place of use authorized under water Right 63-32665 and 63-32666. No change is proposed to the place of use, period of use, or maximum diversion rate and volume.

C. Summary of Proposed Changes.

1. Water Rights. Use the following table to list all water rights, or portions thereof, that are proposed to be changed as they would appear after the proposed changes. In the Amount column, list the volume in acre-feet (af) for storage uses or the rate in cubic feet per second (cfs) for all other uses.

All	Part	Right Number	Amount (cfs/af)	Nature of Use	Period of Use			Source
☑	☐	63-32665	1.73cfs/473.9afa	Irrigation	3/1	to	11/15	Groundwater
☑	☐	63-32666	0.03cfs/7.60afa	Irrigation	3/1	to	11/15	Groundwater
☐	☐					to		
☐	☐					to		
☐	☐					to		
☐	☐					to		
☐	☐					to		
☐	☐					to		
☐	☐					to		
☐	☐					to		

2. Total Amounts. Calculate the total quantity, in cfs or af, of water rights that are proposed to be changed through this application. For an application proposing to only change the place of use for irrigation rights, the total quantity of water is calculated by comparing the current place of use to the proposed place of use, summing the number of acres increased in each legal subdivision, and quantifying the proportional amount of diversion rate for the increased acres. For an application proposing to change or add points of diversion for irrigation or any other beneficial use, the total amount is the total diversion rate for the changed portion of the right.

Total Amount of Water Rights Proposed to be Changed: ~~N/A~~ 1.76 **cfs and/or** _____ **af.**

3. Point(s) of Diversion. Use the following table to list all the proposed points of diversion for the water rights to be changed, including any current points of diversion that will continue to be used as part of the proposed water distribution system.

The legal description for the proposed point(s) of diversion must be to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System (PLSS). PLSS information is typically available from USGS topo maps, property deeds, tax bills or various mapping tools on the Department's website.

For points of diversion within platted subdivisions, list the lot and block number in the "Diversion Name/Number" column. An application proposing an injection into a stream and a re-diversion from that stream must list the source for the original diversion as the source for the injection and re-diversion points. If this application proposes construction of a new diversion structure (for example, a new ground water well or a new pump station on a creek), please indicate the status in the appropriate column.

☐ **N/A. This application does not propose to add or change any points of diversion.**

Proposed Points of Diversion

New?	Twp	Rge	Sec	Lot	1/4	1/4	1/4	County	Source	Diversion Name/Number
X	03N	03W	15			NW	SE	Canyon	Groundwater	

4. Place of Use. The proposed place of use must be described to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System. Government lot numbers can be noted in parenthesis below the approximate quarter-quarter location of the government lot. For water rights held by irrigation districts, municipal providers or irrigation companies, the proposed place of use may be generally described as authorized by Sections 42-202B, 42-219 and 42-222B, *Idaho Code*.

☑ **N/A. This application does not propose to change the place of use.**

Proposed Place of Use

Twp	Rge	Sec	NE ¼				NW ¼				SW ¼				SE ¼				Acre Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

Total Irrigated Acres: _____

5. Map of Proposed System. Attach a map showing the location of the points of diversion, reservoirs, dams, canals, ditches, pipelines and other works proposed to divert and convey water. Also show the location of the place of use, including any lands to be irrigated. The map should delineate the legal subdivisions including townships, ranges, sections, quarter-quarters and government lots. Label map as Attachment 3C.

PART 4 – ADDITIONAL INFORMATION

Section 42-222(1), *Idaho Code*, establishes the criteria used to evaluate transfer applications. An applicant bears the burden of demonstrating that the water right to be changed is a valid right, that the proposed use is a beneficial use, and that the proposed changes will not injure other water rights, will not enlarge the use of the original rights, are in the local public interest, and are consistent with the conservation of water resources within the state of Idaho. To satisfy this burden, an applicant must provide sufficient data and information for the

Department to evaluate the effects of the proposed change. The Department may deny an application if the applicant fails to provide sufficient data and information to determine whether the criteria from Section 42-222(1) are satisfied. In addition to the information requested in Parts 1-3 of this application, the following information must be provided for an application to be considered complete. Department staff may request additional information or clarification as the application is processed.

A. Validity of Water Rights

1. If one or more of the water rights proposed to be changed is a statutory claim, established pursuant to Section 42-248, *Idaho Code*, attach evidence supporting the priority date claimed. Label documents as Attachment 4A-1. For statutory claims, the Department may conduct a field inspection as part of the application review process to evaluate the water right elements listed on the statutory claim.

2. Has any portion of the water right(s) proposed to be changed undergone a period of five or more consecutive years of non-use?

☐ Yes. Attach a statement describing the portion of the right(s) that were not used and the length of time of the non-use. In addition, identify any exception or defense to forfeiture and provide a detailed description as to why the water rights have not been lost and forfeited for non-use. Label documents as Attachment 4A-2. Statutory exceptions or defenses to forfeiture are set forth in Section 42-223, *Idaho Code.*

☑ No.

B. Injury to Other Water Rights

1. Identify any other water right(s) diverted at the current point(s) of diversion.

N/A

2. Identify any other water right(s) diverted at the proposed point(s) of diversion.

N/A

3. Is the proposed point of diversion within a state water district? ☐ Yes. Water District #_____. ☑ No.

4. If already constructed and in use, are the proposed points of diversion equipped with Department-approved measuring devices? ☐ Yes. ☐ No.

5. If this application proposes to divert a surface water right from a ground water well, attach a technical analysis evaluating the hydraulic connection between the proposed ground water point of diversion and the source of water listed on the right to be changed. Label technical analysis as Attachment 4B-5.

6. If this application proposes changing the point of diversion for a ground water right in the Eastern Snake Plain Aquifer (ESPA), attach a technical analysis of the anticipated depletions to reaches of the Snake River that are hydraulically connected to the ESPA using the Department's current ground water model for the ESPA. The technical analysis must evaluate depletion impacts in a time-series format at transient and steady state time steps. To assist applicants in preparing the required technical analysis, the Department has developed a transfer tool interface for the ESPA model. The transfer tool and user instructions can be downloaded from the Department's website (idwr.idaho.gov). If the proposed and current points of diversion are in the same or adjacent model cells, no technical analysis is required, unless specifically requested by the Department. Label technical analysis as Attachment 4B-6.

C. Enlargement in Use

1. Identify any other water rights used at the current place of use, including the number of shares in a canal company or acres assessed by an irrigation district.

N/A

2. Identify any other water rights used at the proposed place of use, including the number of shares in a canal company or acres assessed by an irrigation district.

N/A

3. If this application proposes changing the place of use or nature of use for irrigation water rights, will the current place of use, for the portion of the right to be changed, continue to be irrigated?

☐ Yes. Identify the water right(s) to be used for the continued irrigation.

☐ No. The place of use for the portion to be changed will no longer be irrigated.

☑ N/A. The application does not propose to change the place of use for irrigation rights.

4. Unstacking Water Rights for Irrigation. If this application proposes to change the place of use for an irrigation water right that is combined with other irrigation rights at the current place of use but does not propose to change the place of use for all the stacked irrigation rights, attach evidence of the historical consumptive use occurring under all water rights at the current place of use. For irrigation rights, this should include at least five years of diversion data and/or crop data and estimates of evapotranspiration. Label the information as Attachment 4C-4. Evapotranspiration data may be available on the Department's website (http://et-idwr.idaho.gov)

5. If the application proposes to change the nature of use for a water right, attach evidence of the historical consumptive use occurring under the portion of the water right to be changed. For irrigation rights, this should include diversion data, crop data and estimates of evapotranspiration. Label the information as Attachment 4C-5. Evapotranspiration data may be available on the Department's website (http://et-idwr.idaho.gov)

6. If the application proposes to change the nature of use of a water right to municipal use for reasonably anticipated future needs, complete the form titled "Municipal Water Right Application Checklist" found on the Department's website (idwr.idaho.gov). Label the form as Attachment 4C-6.

7. To your knowledge, are any portions of the water rights proposed to be changed:

Yes	No	
☐	☑	currently leased to the Water Supply Bank? If yes, complete the form titled "Application for Transfer of Water Right Attachment WSB" found on the Department's website (idwr.idaho.gov). Label the Form as Attachment 4C-7.
☐	☑	currently used in a mitigation plan limiting the use of water under the right?
☐	☑	subject to an agreement not to divert (CREP)?
☐	☑	currently enrolled in a federal set-aside program (CRP)?

D. Local Public Interest

The department must consider whether the proposed changes are in the local public interest as defined in Section 42-202B(3), *Idaho Code*. Some of the local public interest factors that may be considered in conjunction with a transfer application are (1) Recreation, fish, and wildlife impacts, (2) Water quality or contamination concerns, (3) Local and state ordinances, regulations, or policies related to water use, (4) Goals, requirements and limits set forth in the State Water Plan. If you choose to provide information about local public interest factors, label the information as Attachment 4D.

E. Conservation of Water Resources

Describe the diversion works and water delivery system. This may include sizes and dimensions of pumps, pipelines, headgates, ditches, dams, impoundments and irrigation equipment.

12 inch mainline to Cirrus Pointe Irrigation System

PART 5 – FILING FEE AND SIGNATURE

A. Filing Fee. Filing fees for transfer applications are set forth in Section 42-221.O, *Idaho Code*. A table summarizing the filing fees for transfer applications is also found on the Department's website (idwr.idaho.gov). Any application proposing to change the nature of use for one or more rights requires an additional filing fee of $250. Applications proposing to update the ownership records for water rights must also include the appropriate filing fee to update the ownership records. For any application relying on the filing fee set forth in Section 42-221.O.8, *Idaho Code*, attach a statement describing how the application qualifies under Section 42-221.O.8. Label documents as Attachment 5A.

B. Affidavit of Applicant or Representative:

I hereby assert that no one will be injured by the proposed changes and that the proposed changes do not constitute an enlargement in use of the original right(s). The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

[signature]	Hallie Hart, City Engineer	March 9th, 2026
Signature of Applicant or Representative*	Print Name and Title, if applicable	Date
Signature of Applicant or Representative*	Print Name and Title, if applicable	Date

*If water rights included in this application are owned by multiple people or entities, each owner must sign the application form.

Re: Transfer No: 90365
Water Right No(s).: 63-32665, 63-32666

Transfer Approval Notice

Dear Water Right Holder:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change.

Failure to report these changes could result in a $100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190.

Sincerely,

Marina Bozdog

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

The accompanying document is a "**Preliminary Order**" issued by the Idaho Department of Water Resources ("Department") pursuant to Idaho Code § 67-5243. **This preliminary order can and will become a final order without further action of the Department, unless a party petitions for reconsideration, petitions for review, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

(*See* Idaho Code § 67-5243(3))

Any party may file a petition for reconsideration of this preliminary order with the Department within fourteen (14) days of the service date of this order as shown on the certificate of service. **Note: the petition must be received by the Department within this fourteen (14) day period.** The presiding officer will issue a written order disposing of the petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law.

PETITION FOR REVIEW (EXCEPTIONS)

(*See* Idaho Code § 67-5245)

Within fourteen (14) days after: (a) the service date of this preliminary order, (b) the service date of a denial of a petition for reconsideration of this preliminary order, or (c) the failure of the presiding officer to dispose of a petition for reconsideration of this preliminary order within twenty-one (21) days, any party may petition the Director in writing to review any part of this preliminary order by filing exceptions, and any supporting brief, with the Department.[1] Any parties opposing the exceptions shall have fourteen (14) days from the service date of the exceptions to file a brief. If the Director determines that oral argument is necessary, the Director will provide reasonable notice to the parties of the place, date, and hour for the argument.

The Director will issue a final order on exceptions within fifty-six (56) days of receipt of the final written brief or oral argument, whichever is later, unless extended for good cause. The Director may remand the matter for or hold an evidentiary hearing if further factual development of the record is necessary before issuing a final order.

REQUEST FOR HEARING

(*See* Idaho Code § 42-1701A(3))

Unless the right to a hearing before the Director or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order,

[1] The Director may decide to review this preliminary order upon his own motion. Should the Director decide to do so, the Director will provide written notice to the parties within the period the parties are allowed to petition the Director for review of the preliminary order.

or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the Director to contest the action. The person shall file with the Director, within fifteen (15) days after receipt of written notice of the action issued by the Director, or receipt of actual notice, a written petition stating the grounds for contesting the action by the Director and requesting a hearing. **Note: The request must be received by the Department within this fifteen (15) day period.**

CERTIFICATE OF SERVICE

(*See* IDAPA 37.01.01.053, 37.01.01.202)

All documents filed with the Department in connection with a petition for reconsideration, petition for review, or a request for hearing of this preliminary order shall be served on all other parties to the proceeding in accordance with Rules 53 and 202 of the Department's Rules of Procedure.

MEMORANDUM

TO: Transfer No. 90365 and Water Right Files

FROM: Allen Bradbury

RE: Evaluation of Application for Transfer 90365

DATE: April 14, 2026

In Transfer Application 90365, the City of Caldwell proposes to add a new point of diversion to Water Right Nos. 63-32665 and 63-32666 by drilling a new well.

The water-right changes requested in this transfer application do not appear to alter the impact on the original or any hydraulically connected water source, nor do they seem to affect other existing water rights. Based on this review, staff concluded that public notice is not required for this application.

The water will be used within the existing irrigation places of use north of Orchard Avenue between S. Montana Avenue and S. Indiana Avenue in Canyon County.

Summary of Information Submitted

Authority to File: The City is the owner of record for both water rights involved in this transfer. The application was signed by Hallie Hart, City Engineer for the City of Caldwell.

Proposed well will be constructed in Township 03N Range 03W Section15 NWSE. Canyon County tax parcel data lists the current owner as Sky and Horizon at Cirrus Pointe Homeowners Association Inc.

The area is within the City of Caldwell municipal service area. The applicant has the authority to request the changes proposed by the application.

Water Right Validity/Historical Beneficial Use: Water right numbers 63-32665 and 63-32666 were decreed on 2/3/2009. Beneficial use has occurred within the past five years, as confirmed through Department aerial imagery and Google Earth review. The rights are therefore presumed valid.

Injury to Other Water Rights: Legal notice was not required for this transfer. The amount of water used under this right will remain unchanged; therefore, the transfer is not expected to cause injury to other water rights. Based on these facts, no injury or calls from other water users are anticipated.

Enlargement of Use: The transfer does not propose altering the diversion rate, diversion volume, or season of use. Accordingly, no enlargement of use is expected.

Local Public Interest: No adverse effects to recreation, fish, or wildlife are anticipated from this transfer. There is no indication that applicable water-quality or hazardous-substance standards would be violated. The transfer is consistent with the objectives and policies of the State Water Plan. No information suggests the proposed changes conflict with the local public interest.

Beneficial Use/Conservation of Water Resources: The applicant will continue to use the water rights for irrigation within the authorized place of use. The proposed use is consistent with the conservation of Idaho's water resources. No issues were identified.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Additional Information/Analysis

Overlap Analysis: Water rights 63-21375, 63-27145, and 63-26254 are domestic water rights within the same quarter-quarter but outside the designated POU. The place of use falls within the delivery area for municipal use for the City of Caldwell.

Discussion

Conditions: If approved the following changes should be made to the conditions of water rights. Add conditions 046 and 004. Add conditions 01M, T07 and T08 and replace C18 with T19 as per Department standards. Also added the following condition:

Transfer 90365 authorizes the following additional well as a point of diversion under this right as of the date of the approval: Well is located in T03N R03W S15 NWSE

Summary

Assuming no other information contradicts the above analysis, the application can be approved as reflected by the draft approval.
