Heart of Idaho Animal Sanctuary Statement of completion for beneficial use form addendum.

Question 3 – Domestic 1 – animal shelter with 2 bathrooms, kitchen, washer/dryer, 2 additional sinks, 2 indoor hose bibs and 4 frost free faucets on the outside of the building.

Stock water – At this time we have 6 pot bellied pigs, a Great Pyrenees and 4 barn cats using the stock water. At other times, we have had goats, horses, rabbits and other pigs using the stock water. We are an animal shelter so animals arrive as the need arises and go as appropriate placement can be found. I am also attaching the bill for the instillation of the animal watering system that was added to make use of the stock water right.

Question 6 – I was advised by Dave Betts of your organization the condition listed were in reference to the irrigation portion of the water right which we have never used and are forfeiting at this time. We are only claiming beneficial use of the domestic and stock water rights. I have attached pictures of the various devices involved in our water use.

1	Walked the HIAS employees through the operation of the troughs and where to turn water and heat tapes on & off. Taped up the floats on the horse trough to seal trough so the wind didn't blow through and freeze the supply. Nancy White did not want water put in the trough. Water is used to seal the trough from the weather conditions. <i>Young 55 Keys Ln</i> <i>208 840-0934</i> Labor / Tony		60.00	60.00
