E. FLOW CALCULATIONS

 Additional Computation Sheets Attached

Measured Method: Currently there are no diversion rate standards for mixed livestock. I recommend the standards for range cattle be used as a substitute. According to Administrative Application Processing Memo #3 the standard diversion rate for 50 mixed livestock is 0.02 cfs. I am recommending a 0.02 cfs diversion rate.

Administrative Application Processing Memo #3 Standard = 0.02 cfs

Permit allowed = 0.02 cfs

Total Recommendation = 0.02 cfs

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

V = (Acres Irrigated) x (Irrigation Requirement) = (N/A)

I.R.

V = [Diversion Rate (cfs)] x (Days in Irrigation season) x 1.9835 = (N/A)

D.R.

V = Smaller of V_{I.R.} and V_{D.R.} = (N/A)

2. Volume Calculations for Other Uses: Currently there are no diversion volume standards for mixed livestock. I recommend the standards for range cattle be used as a substitute. According to Administrative Application Processing Memo #3 the standard diversion volume for 50 mixed livestock is 0.7 af. I am recommending a 0.7 af diversion volume.

H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-office licensing examination. The permit authorized stockwater for 50 mixed livestock diverting from a spring, tributary to sinks. 2025 NAIP Aerial Imagery, and photographs included with the permit holders Proof Statement confirmed stockwater for 50 mixed livestock was developed within the development period. The standards set in Administrative Application Processing Memo #3 were utilized to make a diversion rate and volume recommendation. All conditions of permit approval have been met, and development of beneficial use was confirmed within authorization on the permit. Therefore, I am recommending a 0.02 cfs diversion rate and 0.7 af diversion volume.

No conditions on the permit will remain on the license. Condition 121 should be changed to 103 as is standard with licensing. Condition X02 should be removed as is standard with licensing.

Have conditions of permit approval been met? ☒ Yes ☐ No
