I believe it is just east of the pole barn you can see on google maps. and I believe the domestic well is further north closer to the road but I'm not 100% sure on that. I can find out if you need me to

Yes. I have been working on it. Sorry I haven't responded yet

1. Israel Barlow has already installed a measuring device and a new system is in place with the other water right we transferred no 15-7520
2. Patty will send an email
3. FSA is in the process of releasing the water right. What do you need from them to show that they are processing it? Will an email work?

To: Adam Carter <robincattle@gmail.com>

Subject: Re: Application for Transfer of Water Right

Adam,

During a review of Israel Barlow's transfer, we found a few items that need to be addressed.

- The point of diversion appears to be a domestic well. Is this correct or is a new system going to be put in?
- Has the point of diversion been equipped with Department-approved measuring devices? (This question was left blank on the application)
- Since Patty Carter is listed as an owner of the water right, we need her to either sign the application or send an email saying that she is okay with the transfer.
- USDA Farm Service Agency is listed as a security interest for water right 15-7037. We need a document from them stating that they don't oppose the transfer.

Thank you

On Jan 9, 2026, at 12:50 PM, McKenna Webster <mckenna.webster@idwr.idaho.gov> wrote:

Adam,

In my previous email, I mentioned that, on page 5 of the application, the place of use should be in the SESW of Section 27 and NENW of Section 36. I incorrectly typed section 36 instead of 34. As shown on the map, the place of use should be SESW of Section 27 and NENW of Section 34. I apologize for that mistake.

I've attached a corrected page 5. Let me know if that looks okay to you.

I am fine with that adjustment
Sent from my iPhone

On Jan 7, 2026, at 10:32 AM, McKenna Webster
<mckenna.webster@idwr.idaho.gov> wrote:

Good morning,

On page 5 of the application, I see that you put the proposed place of use in the SWSW of Section 27 and the NWNW of Section 36. On the map that was provided it looks like the place of use should be in the SESW of Section 27 and NENW of Section 36. I've attached a map that shows this more clearly. I've also attached a PDF of page 5 with those changes. Let me know if those corrections on the PDF look accurate. If so, do you mind if I include this new map with the application for clarity?

Additionally, based on the maps, I'm coming up with 6 acres in the SESW of Section 27 and 4 acres in the NENW of Section 36. This was also changed on the PDF. Let me know if that adjustment is ok with you or not.

The 50 was a mistake and We will transfer ownership of the water right after the transfer is complete. I (Adam) can sign the application. Can I come by the office and sign it? I will be in Idaho Falls Thursday. I can bring a check for \$200 and take the other check back.

On Tue, Jan 6, 2026 at 10:58 AM McKenna Webster <mckenna.webster@idwr.idaho.gov> wrote:

Good morning,

I've been reviewing your Application for Transfer of Water Right, and there are a few items that need attention. The water right is under Adam Carter's name, and the proposed place of use is under your name; we either need deeds showing that you are the current owner of the water right or Adam Carter will need to sign the application. Along those same lines, nothing regarding a change in ownership was mentioned in the application. Were you planning on doing that at a later date, or was it meant to be completed with this application? We also received \$250 in payment for the fee; however, the fee for this application was \$200. Was the additional \$50 a mistake?

Best Regards
