Thanks Sarah,

I don't believe I ever replied to you, I apologize! We had a great holiday, I hope you did as well. Can I get a copy of the approval or were there any conditions of approval that I should know about and or forward to IDWR?

As for the development, I know they are moving along although I don't know at what pace or with what tasks as we really don't have a roll in the day to day activities out there.

Thanks again and let it snow!

Please see the attached water supply bank lease applications and map which proposes to lease 44.3 acres or 1.74 cfs of 37-510A and the same 44.3 acres or 0.99 of 37-685D for the 2024-2026 irrigation seasons, as well as the diversion to storage use for each right for the same time period (2.16 cfs and 1.23 cfs respectively). The total proposed lease flow rates are 2.16 cfs under 37-510A and 1.23 cfs under 37-685D.

It is my understanding that the portions of 37-510A and 37-685D identified in the leases were un-used and delivery of water under the rights to the property was not taken this year. I am requesting each of your respective boards review the application at your next meeting so that we may submit the applications to IDWR with an authorization statement from each board.

Please don't hesitate to call or email me with comments or questions, thank you and as always, I really appreciate your time.

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. Good Afternoon,

We have started the intake process on your application to lease WRs 37-510A & 37-685D into the Water Supply Bank. You have stated that the Water Rights should be leased into the Bank for 3 years starting in 2024. Unfortunately, we are past the deadline for leasing Rights into the Bank for 2024. Would you like the WRs to be leased from 2025-2026 (2 years) or 2025-2027 (3 years)?

Please respond to this email in two weeks (by March 5th 2025) so we can continue the application process for your lease in a timely manner.

Re: Water Supply Bank Lease Applications; 37-510A and 37-685D.

Dear Mary,

On behalf of Flying Squirrel Productions LLC, enclosed are two water supply bank lease applications that propose to lease 44.3 acres and a portion of the diversion storage associated with 37-510A and 37-685D from 2024 through the end of 2026. Delays with requests for consent to lease from local irrigation districts precluded submission of the applications in 2024, although those consent letters are attached herein and we respectfully request the Bank retroactively approve the lease based on the consent requests.

Also attached is a check in the amount of \$500.00 to cover the cost of the two WSB lease applications. Please copy our office on all correspondence regarding these water supply bank lease applications. Thank you for your assistance on this matter.
