RE: Change in Address for Water Right No(s): 65-13786

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing the address for C & S FAMILY LLC for the above referenced water right. The Department has modified its records to reflect this change in address and has enclosed a computer-generated report for your records.

Also, please note that water right/permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact our office at (208) 334-2190.

Sincerely,

Marina Bozdog
Technical Records Specialist I

Conditions of Approval:

1. 077 Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.
2. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
3. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65.
4. When water is not flowing over the dam in Gold Fork Creek, the water right holder shall cease diverting water for storage and shall provide access to the ditch rider of either Center Irrigation District or Gold Fork Irrigating Co. so that the ditch rider can monitor the right holder's non-diversion of water. The water right holder shall construct the water supply line to the storage pond with a valve and mechanism to accept a padlock or other locking device for use by the ditch rider to prevent delivery of water to the pond when water is not flowing over the dam in Gold Fork Creek.
5. 103 When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
