5. Indicate the date the water rights and/or adjudication claims were conveyed to you. This may be the date of closing in the case of a real estate transaction, the date a contract was signed, or the date of a court order.
6. If you own the land identified as the water right place of use, mark the box "Yes". If you do not own the land identified as the water right place of use, mark the box "No". If you are filing a change in water right ownership and you do not own the land identified as the place of use for the water right, Idaho Code § 42-248(6) requires you to provide written notice of the change in water ownership to the landowner of record, as identified in the records of the county recorder. If you have provided the required written notice, attach evidence that you have done so. IDWR will return your Notice of Change in Water Right Ownership if you are required to provide written notice to the water right place of use landowner and no evidence is submitted.
7. **REQUIRED ITEMS:**

IDWR cannot process this change without **documentation of ownership**. The documentation may be in the form of a deed, court decree or other conveyance document. If you are submitting a quitclaim deed and the grantor's name does not match the water right holder of record, you will need to provide a chain of title that goes back to the water right holder/claimant of record. You may obtain this information from the assessor's office in the county where the property is located. Items that are **not** conveyance documents are deeds of trust, mortgages, purchase and sales agreements, and property tax notices.

Submit a **plat map, survey map, or aerial photograph** of the place of use for each water right or claim listed in item #1 (if necessary to clarify division of water rights or complex property descriptions). If your right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency or equivalent aerial photograph with the irrigated acres outlined and point(s) of diversion clearly marked. You also have the option of printing a map using the [map tool](#) on IDWR's website. It is not necessary to obtain a new survey for purposes of this form before contacting IDWR.

The Idaho Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication or the Northern Idaho Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the **filing fee** is \$25 per water right, except for those water rights that will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right.

If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. If you are unsure about the status of your water right in the Water Supply Bank, go to the [Water Supply Bank Lease Search](#), input your water right number, and click "Search.". Water rights with multiple owners must specify a designated lessor, using a completed [Lessor Designation](#) form. Each of the owners must sign the Lessor Designation form. Payment of revenue generated from any rental of a leased water right requires a completed [IRS Form W-9](#) for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s). If your water right is in the Water Supply Bank and you want to release it so you can use it, complete and submit the [Request to Release](#) form. Your water right may not be available for immediate release if rented by another water user.

8. One of the new owner(s) must sign the form in the space(s) provided. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.

When you have completed the Notice of Change in Water Right Ownership, retain a copy and **file the original form, necessary attachments, and filing fee with the IDWR office nearest you. Ownership changes for water rights leased to the Water Supply Bank should be sent to the State Office.**

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at 208-525-7161.

Sincerely,

Misty Pettis
Office Specialist 2
