Hello Chris,

This message is in regard to the City of Montpelier's adjudication claims numbered 11-4351, 11-4352, and 11-4353.

Because the details of these historical uses have never been verified by the Idaho Department of Water Resources in the past, we must make an effort to do so now during the active adjudication.

Particularly, we are requesting supporting evidence of pumping rates for the wells that pertain to these claims. Engineering reports or flow measurements are acceptable. If no records can be found, the department will work with you to schedule a time for us to come out and take flow measurements.

Please reach out with any questions and thank you for your time.

Regards,

Brian Wunsch
