INTRODUCTORY PROVISIONS

Article 1. DEFINITIONS - When used in this contract, the following terms shall have the meanings set forth:

- b. "Project" means all works and facilities proposed to be constructed by the Sponsor as described in Article 2 Project Description.
- c. "System" means the water supply, storage, and delivery facilities owned and operated by the Sponsor.
- d. "Loan commitment" means the maximum sum of money that the Board agrees to loan to the Sponsor under this contract as provided in Article 3.
- e. "Year" means fiscal year beginning July 1 and ending June 30 of the year following.

Article 2. PROJECT DESCRIPTION - The project shall consist of the Sponsor installing seven (7) miles of pipe in the existing main canal and laterals to reduce water loss and erosion. The funds provided under this contract shall not be used for any other purpose without the approval of the Board.

Article 3. TERM OF CONTRACT - This contract shall be effective when executed by both parties and remain in effect until the principal amount of the loan, all interest thereon, and any money owed to the Board under this contract has been paid in full.

LOAN PROVISIONS

Article 4. MAXIMUM LOAN AMOUNT - The Board will loan to the Sponsor in accordance with the provisions of this contract a sum of money not to exceed **ONE MILLION FOUR-HUNDRED TWENTY-NINE THOUSAND SEVEN-HUNDRED SEVENTY-FIVE DOLLARS (\$1,429,775.00)** at the rate of interest specified herein.

Article 5. DISBURSEMENT OF FUNDS

a. Disbursements - The loan commitment shall be disbursed in the following manner:

- (1) Disbursement of the funds will be allowed upon completion of the following items:
 - Sponsor shall provide acceptable security for the loan to the Board including but not limited to the Sponsor's water rights and irrigation facilities
 - Sponsor shall execute the WaterSMART Water and Energy Efficiency Grant financial assistance agreement. Disbursement of funds under this loan is contingent upon that execution.
 - The Sponsor shall establish a reserve account in an amount equal to one annual loan payment for the duration of the loan.

- (2) Disbursement of Board loan funds shall coincide with the schedule of the three-year Grant disbursement plan: 40% of the total loan federal fiscal year (FY) 2015, 30% in FY 2016, and 30% in FY 2017. The Company may request the first disbursement of the Board loan funds no sooner than July 1, 2016. All other disbursements shall be issued after payout of the WaterSMART Grant payments.
 - (3) Disbursements are to be based on construction progress, reflecting actual bills or invoices submitted to the Sponsor. The Sponsor may then submit the bills or invoices to the Board for approval and disbursement. Disbursement shall be made on a pro-rated basis in proportion to the other funding used for this project.
 - (4) Ten percent (10%) of each requested loan disbursement shall be withheld until the final disbursement for the project is made by the Board to the Sponsor.
- b. Construction Payments by Sponsor - Construction progress payments made using these loan funds shall be made by the Sponsor solely on the basis of work in place or materials delivered to the project site, pursuant to the terms of the construction contract or agreement between the Sponsor and the contractor, or for the payment of other costs necessarily incurred for the construction of this project.

Article 6. WITHHOLDING OF DISBURSEMENTS

a. Conditions for Withholding Payment

- (1) If the Board determines that the project is not being constructed substantially in accordance with the provisions of this contract, or that the Sponsor has failed in any other respect to substantially comply with the provisions of this contract, and if the Sponsor does not cause any such failure to comply to be remedied to the Board's satisfaction within fifteen (15) days, or within some greater period allowed by the Board, from the receipt of written notice of such failure from the Board, the Board may withhold from the Sponsor all or any portion of the loan commitment. During the period, which the Sponsor has to remedy such failure, the Board shall not be obligated to disburse to the Sponsor any portion of the loan commitment. The Board shall provide the Sponsor with prompt written notice of any decision to withhold from the Sponsor all or any portion of the loan commitment.
- (2) Ten percent (10%) of the total loan commitment shall be withheld until the final project payment is requested by the Sponsor and approved by the Board.
- (3) Upon the completion of the project, and before the final project disbursement is made, the project shall be inspected by the Board's contracting officer or his designated representative. For the project to be found complete, the entire system must be turned on, if requested by the contracting officer, and be fully operable at the time of the inspection. In the event that construction is not complete when the final project payment is requested, ten percent (10%) of the total funds requested may be withheld until the project is completed.

- b. Withholding Entire Commitment - If the Board notifies the Sponsor that it has decided to withhold from the Sponsor pursuant to subdivision (a) of this article all of the loan commitment, this contract shall terminate upon receipt of such notice by the Sponsor and shall no longer be binding on either party.

Article 7. USE OF FUNDS - Any and all money disbursed to the Sponsor under this contract shall be used solely for the payment of costs necessarily incurred by the Sponsor for the construction of the Project, including, but not limited to, the payment of interest during project construction, engineering expenses, legal expenses, land acquisition, materials purchases, payments to contractors, and the costs of acquiring any maintenance of the project.

Article 8. TIMING AND MANNER OF PROJECT DESIGN AND CONSTRUCTION

- a. Project Completion Date - The Sponsor shall cause the construction of the Project to be completed no later than **December 31, 2017**, provided that said date may be extended upon written approval of the Board.

- b. The sponsor shall provide periodic reports to the Board during project construction documenting progress, and upon request by Board project coordinator.
- c. Inspection of Construction - The Board requires a minimum of one (1) inspection to be performed by the Board's contracting officer or his designated representative. These inspections should coincide with construction of the new pipeline, and at completion of the project. The Sponsor is required to notify the Board's contracting officer, or his designee, prior to these operations so that the officer or his representative can make arrangements to be present. Should the Board's officer or his designated representative not be able to be present, the Sponsor, upon the approval of the Board's officer, will be required to take photos of the installation process at that time and send them to the Board's officer.
- d. Determination of Project Completion - For the purposes of this contract, construction of the project shall be considered to be completed or terminated when so determined by the Board, or its contracting officer. Upon the completion of the project and before the final project disbursement is made the project shall be inspected by the contracting officer identified or his representative. For the project to be found to be complete the entire system must be turned on if requested by the inspector and be fully operable at the time of the inspection. In case the construction is not complete at the time the final project payment is requested, ten percent (10%) of the total funds requested may be withheld until the project is completed.
