

MEMORANDUM

Date: April 20, 2026
To: Transfer 90413
From: Christian Stewart
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to add 5 acres to the current permissible place of use for water rights 29-26 and 29-14526 to accommodate a new pivot. Both rights share the same priority date (9/1/1888) and will be limited to a combined 133 acres within the 160-acre permissible place of use.

Authority to File: The owner of record for water right 29-26 is Kimball Lane Limited Partnership. The owner of record for water right 29-14526 is CX Holdings Inc. The application was signed by Reed Crandall, president of CX Holdings Inc., and Craig Crandall, manager of Kimball Lane Limited Partnership.

Water Right Validity: The water rights were decreed in the Snake River Basin Adjudication in August of 2004. The water rights were most recently involved in approved transfer 88743 in February 2024. No forfeiture issues identified.

Injury to Other Water Rights: No change to hydrologic source. The Water District 29 Watermaster was notified of the application but did not provide comments. This application will be processed without advertisement. No injury issues identified.

Enlargement of Use: Rate, acres, and volume are not increasing. No water rights are being unstacked. No enlargement issues identified.

Local Public interest: No issues identified.

Beneficial Use/Conservation of Water Resources: No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
