Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2028. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2026, whichever occurs last.

Annual Rental Fee:

2026 - 2028: \$744.15 annually

The full fee for the rental of the above-described right(s) is \$744.15 per year for years 2026 - 2028. The rental fee includes an administrative fee of \$744.15 per year for years 2026 - 2028. Note that the renter is obligated to pay only the administrative fees associated with the water right(s): 2-7059, 2-7275, 57-7022, 2-7279 B, 2-7061.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
10. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
11. The point of diversion for the Bybee Canal shared by the rights listed below is limited to a total diversion rate of 39.16 cfs. Combined Right Nos.: 2-7059, 2-7061, 2-7062, 2-7064, 2-7168A, 2-7168B, 2-7237A, 2-7275,

2-7279A, 2-7279B, 2-7060A, 2-7060B, 2-7157C. The original combined limit of 48.44 cfs was reduced by 9.28 cfs to account for rental agreement 978 which moved water outside the Bybee Canal.

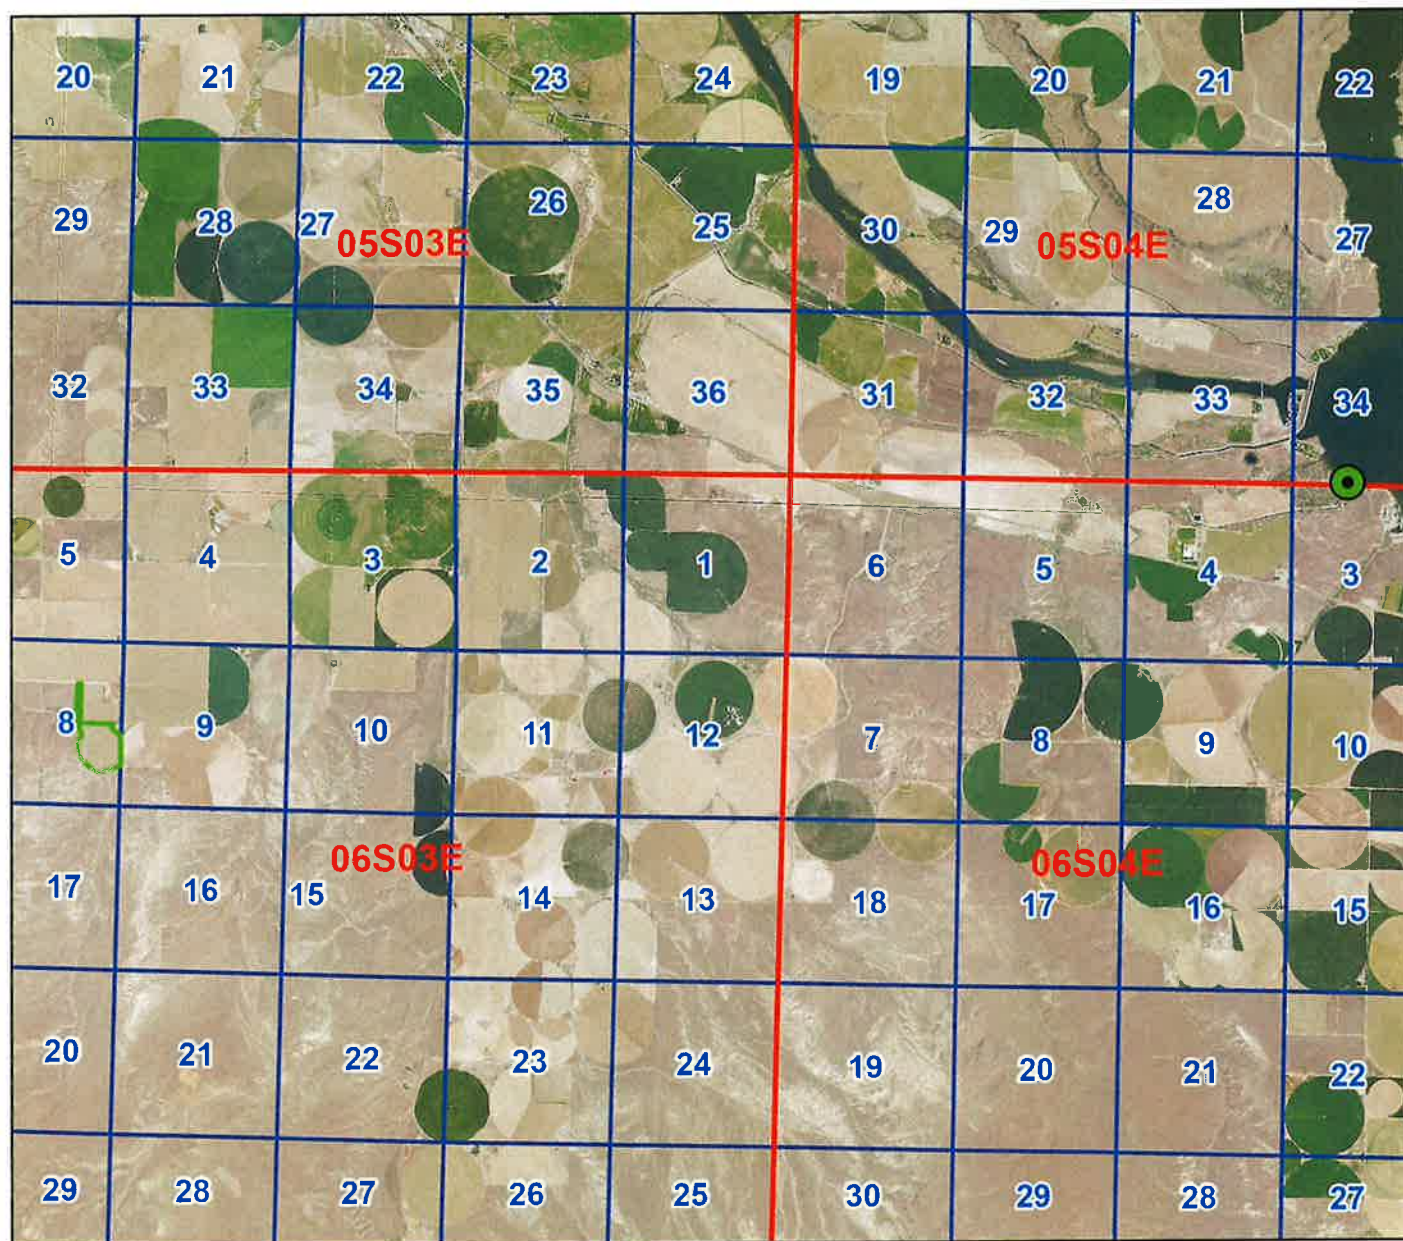

12. Rights 57-7022 and 2-7279B when combined shall not exceed a total diversion rate of 3.08 cfs, a total annual maximum diversion volume of 693 af the field headgate and the irrigation of 154 acres.
13. The use of water for irrigation under this right may begin as early as March 1 under water rights 57-7022, 2-7275 and 2-7059, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than 6/15/2009.
14. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 02.

Applicant Name: _____

Department of Water Resources

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below and printed single sided. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

There is no filing fee for submitting a rental application. The annual rental fee due will be calculated based on the volume of water required under an approved rental agreement. **Timing:** Rental application processing is prioritized between November through March. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests cannot provide retroactive approval, and applications will not be accepted once the rental season of use period has concluded. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicant.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit <https://dwr.idaho.gov/rwb/programs/water-supply-bank/resources/>

2. MAP

Attach a map. Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. The map must include the rental place of use outlined and annotated with legal land descriptions (Township, Range, Section and Quarter- Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres to irrigate per 40-acre tract (1/4-1/4). Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

- A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**.
- Irrigation

- B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
<u>0.80</u> CFS	<u>219.5</u> AF	<u>0.80</u> CFS	<u>219.5</u> AF	<u>45</u> AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

- C. This section must be completed in full. The desired start date must be later than the date received by the Department. The latest possible start is the latest possible date you could begin diverting water to put the rental to beneficial use in the desired start year. Rentals are not retroactive and are not approved until the annual rental fee payment is received for the year of beneficial use and an approval document is executed by the Department.

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Bybee Lateral-water source Snake River

- E. **Point(s) of diversion.** Locate the point of diversion within each 40-acre tract and/or the U.S. Government Lot of the Public Land Survey System. Spring sources should be described to the nearest 10-acre tract. Identify the county where the point of diversion is located. An existing well must be identified for a request to rent ground water under a short-term rental.

IWP	RGE	SEC	GOVT LOT	1/4	1/4	1/4	County	Source	Local name or tag #
<u>20p80</u>									

- F. If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

Has documented consent from all relevant water delivery entities been obtained?

Yes ☒ N/A ☐

If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling?

Yes ☐ No ☒

Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request?

Yes ☐ N/A ☒

If yes, label modeling Attachment 3 H

Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

☐ Irrigation 45 (number of acres) Duration: Subject to IDWR standard seasons of use

☐ Commercial from: _____ (mm dd) to: _____ (mm dd)

☐ Stockwater from: _____ (mm dd) to: _____ (mm dd)

☐ Industrial from: _____ (mm dd) to: _____ (mm dd)

☐ Other: _____ from: _____ (mm dd) to: _____ (mm dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre?

N/A ☐ Yes ☐ No ☒

If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)?

Yes ☐ No ☒

If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required. Attach a separate page if space is insufficient and label it **Attachment 3L**.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. *Rental applications that require modeling must also complete the table below for the specific water rights to be rented. If no, continue to Question 4B.*

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers. Include any additional water required to meet area headgate requirements, minimum flow rates when combined with existing water rights at the rental location, or mitigation requirements because of ESPA Modeling Analysis results. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Active leases and rentals are searchable via the Lease and Rental Map Search tool. Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request

Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.65 CFS	177.5 AF	36.6 AC

*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B:**
Irrigation

C. Does your rental request propose to change the nature of use for any water right(s) requested above?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C:**

WATER RIGHT NO(S). 2-7061, 2-7059, 2-7275, 2-7279B, AND 57-7022 AGREEMENT 1009**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **\$744.15 per year** was calculated based on the current rental rate of \$33.00 per acre-foot times a diversion volume of 225.5 acre-feet. Since you have a private agreement with the lessor of right 2-7061 and you are both the lessor and the renter of the rights 2-7059, 2-7275, 2-7279B, and 57-7022, **you are only obligated to pay the 10% administrative fee or \$744.15.** The annual rental fee for 2027 is due by December 31, 2026. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check in the amount of \$744.15 for 2026 made payable to the Idaho Department of Water Resources, together with the signed rental agreement, within 14 days so I can complete processing.

Pursuant to the Water Supply Bank Rules, \$744.15 will be retained by the Department to offset administrative costs for 2026.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Hello (Regional Manager and/or Watermaster),

I have completed my review of Water Supply Bank Rental Application 3381 with the proposed point of diversion within Administrative Basin 2 and Water District 2. The applicant is Layne Astle. They propose to rent the entirety of lease contracts 1774, 1775, and 1776 and 9.5 acres of Water Right 2-7061 from contract 2119 from the Water Supply Bank from 2026-2028. Attached is a copy of the rental agreement, review memo, and map of the place of use. If you have any comments regarding the applicant's proposal or my review, please let me know within 7 days. If you have any questions or concerns, please let me know.

Best,

Skyler

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 3381 was sent in by Layne H. Astle and received by the Idaho Dept. of Water Resources on December 8th, 2025. The applicant proposes to rent 45 acres of irrigation from the Water Supply Bank from 2026-2030. The applicant indicated they would like to rent the entirety, 36.6 acres of lease contracts 1774 (2-7059), 1775 (2-7275), and 1776 (2-7279B and 57-7022). However, the proposed lease contracts have an end date of December 31st, 2028. Therefore, I recommend the rental term be limited to 2026-2028 (3 years) The requested water rights are also owned by the applicant according to Department records. Therefore, the applicant is only required to pay the administrative fee. This application is intended as a renewal of rental agreement 804. Previously 9.5 acres of Water Right (WR) 2-7061 was rented to fulfill the remaining acres proposed. WR 2-7061 is still available for rental for the recommend rental duration.

The proposed point of diversion (POD) is within the Snake River Basin Moratorium Area, Bruneau-Grandview Groundwater Management Area, and Trust Water Area. This application is intended as a renewal of rental agreement 804 which expired on December 31st, 2025.

AUTHORITY TO FILE:

Layne Astle signed the application. According to Idaho Tax Parcel Data the property containing the proposed place of use (POU) is owned by John Terry Field. Documentation was attached with the application indicating Mr. Astle has a farming agreement with Mr. Field. Therefore, there are no legal access concerns to the proposed POU or access to the POD and Mr. Astle has authority to sign this application. The proposed POD is the starting point of the Bybee Canal. The applicant did not provide canal consent with their application. After an email conversation with the applicant on April 24th, 2026, they provided a letter of consent from the canal co.

INJURY TO OTHER WATER RIGHTS:

The proposed rental POD is the same as the lease POD, the starting point of the Bybee Canal. Therefore, it's unlikely there will be any impacts to other canal users during the duration of the rental. There are no other injury concerns.

ENLARGEMENT OF USE:

The applicant proposes to utilize 0.80 cfs and 219.5 af for the irrigation of 45 acres or a duty of water equivalent to 0.017 cfs/acre and 4.8 af/acre as proposed in previous rental applications. WR 2-7062 overlaps the proposed POU and authorizes 0.02 cfs/acre and 5.0 af/acre. To prevent an enlargement of 2-7062 the applicant will rent an additional 1.1 acres of WR 2-7061. The total authorized acres would be reduced to achieve 0.02 cfs/acre and 5.0 af/acre.

WR's 2-7059, 2-7275, 2-7279B, and 2-7061 are limited when combined with 9 other WR's (2-7060A, 2-7060B, 2-7062, 2-7157C, 2-7279A, 2-7168B, 2-7064, 2-7237A, and 2-7168A) to 48.44 cfs. During the previous review it was determined 5.36 cfs of 2-7157C was leased and rented outside of the Bybee Canal System. Therefore, a condition was placed on the agreement

reducing the combined limit to 43.08 cfs to prevent an enlargement of the remaining WR's since the rental would not be administered by the Bybee Canal. After reviewing WSB records it was determined only WR's 2-7061 (3.23 cfs), 2-7062 (4.10 cfs), and 2-7157C (7.37 cfs) are leased into the WSB. 1.91 cfs of 2-7062 and the entirety of 2-7157C is rented outside of the Bybee Canal system. Therefore, a combined limit will be placed on the agreement reducing the total limit for all 13 WR's from 48.44 cfs to 39.16 cfs to prevent an enlargement of the remaining WR's within the combined limit. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

The proposed rental of water is in the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The proposed rental is consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The proposed POD is within Administrative Basin 2 and Water District 2. A request for comment was sent to the Watermaster and Western Regional Manager on April 28th, 2026. No concerns were received.
