RE: Point of Diversion and Place of Use locations for CFPRBA Water Right Claim 96-8228

Dear Claimants,

The Department of Water Resources has received your Clark Fork-Pend Oreille River Basin Adjudication (CFPRBA) water right claim. We are unable to recommend your adjudication claim at this time for the following reason.

The Notice of Claim to a Water Right identified with the number shown above has been filed for the use of water from a spring and an unnamed stream for domestic and irrigation purposes based on a previously issued license. The location of the area you actively irrigate is not clear in aerial photos. Also, the precise location of the two point of diversions (spring and stream) is unknown.

We will move forward with the recommendation of your CFPRBA Water Right claim once provided sufficient evidence to verify the area of your property actively irrigated, in addition to the locations of the spring diversion and stream diversion from which then feed water into the storage tank. I have enclosed a map of the claimed place of use area (your property), which can be marked with the locations of your irrigated areas, and also a map of the general area where the diversion points were originally licensed. **Please mark the maps with your diversion locations and all irrigated areas, and return them to our office at the address shown above within 30 days, referencing all documents with the corresponding claim number (96-8228).**

If you have any questions or concerns, do not hesitate to contact our office and we will be happy to help. We can be reached by phone during business hours at 208-762-2800.

Best Regards,

Evan W. Roda
Water Resources Supervisor
Northern Region
