NOTICE TO RESUME WATER USE

Re: Water Right No. 2-2172, 63-3142, and 63-7083

Dear Applicant:

On October 25, 2021, the Idaho Department of Water Resources (Department) approved an Application for Extension of Time to Avoid Forfeiture for the above-referenced water rights. As a condition of that approval, beneficial use of the water rights was required to resume on or before July 1, 2026.

The Department has received your Water Supply Bank lease and rental applications for the above-referenced water rights. The applications are currently in the Department's review queue and will be processed in the order received. Participation in the Idaho Water Supply Bank protects a water right from forfeiture while the water right is under an approved lease or rental agreement. However, as a condition of the approved Extension of Time to Avoid Forfeiture, beneficial use of the water rights was required to resume on or before July 1, 2026.

Idaho Code § 42-222(4)(d) requires the Department to provide this notice by certified mail at least sixty (60) days before the date on which beneficial use must resume. This notice was scheduled to be issued in May; however, it is being provided at this time.

If your Water Supply Bank lease and rental applications are not approved, or if the water rights are otherwise not accepted into the Idaho Water Supply Bank, you must resume beneficial use of the water rights in accordance with the conditions of the approved Extension of Time to Avoid Forfeiture to maintain the water rights and avoid forfeiture.

Enclosed is a Resumption of Use form. If beneficial use has resumed, please complete and return the form to the Department to document that the water rights have resumed beneficial use in accordance with the conditions of the approved Extension of Time to Avoid Forfeiture.

If you have any questions regarding this matter, please contact me at (208) 287-4920.

Sincerely,

Catalina Beck

Water Resource Agent
