7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
13. Recreation use is for heating a pond filled initially from another water source.
14. Water used solely for heating purposes and water used for the non-consumptive component of the recreation use shall either be injected into the groundwater or discharged to a natural stream.
15. Return flow discharged to a subsurface system must be authorized by a separate injection well permit and if return flow is discharged to a surface water system shall meet Idaho Water Quality Standards.
16. Heating use is for melting snow and ice on driveways and walkways and for space heating in one home and one bath house. The heating use shall be non-consumptive.
17. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as authorized by the following water rights for the purposes and amounts specified below. MEMORANDUM FOR APPLICATION # 3491, CONTRACT # 2215

To: Water Right(s) 37-8205

From: Darin Vrem

Date: June 15, 2026

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Lease Application 3491 was received by the Idaho Department of Water Resources (IDWR) on March 13, 2026; the correct fee amount of \$250.00 (Receipt C125424) was received on March 23, 2026. The applicant proposes to lease the full water rights of 37-8205 to the Water Supply Bank (WSB) for 1 year, 2026. The proposed points of diversion (POD) and place of use (POU) are within the Big Wood River Moratorium Area, the Big Wood River Ground Water Management Area, and the Trust Area. This application is intended as a renewal of lease contract 2031.

AUTHORITY TO FILE:

Wellsprings Group LLC is the owner of record for water right 37-8205. Devin Mackey signed the application on February 6, 2026. Documentation in the IDWR water right files confirms that Devin Mackey is a managing member and signatory for this LLC.

WATER RIGHT VALIDITY:

The License for Right 37-8205 authorizes a rate of 1.21 cfs and a volume of 276.0 af for beneficial uses of heating and recreation. The heating use is non-consumptive for melting snow and ice on driveways and walkways and for space heating in one home and one bathhouse. Recreation use is for heating a pond filled initially from another water source. This Right was previously leased to the Water Supply Bank in 2025, contract 2031. There are no concerns with the validity of the water right and portion offered to the bank.

ENLARGEMENT OF USE:

Right 37-8205 shares the PODs, three groundwater wells, with domestic use water rights 37-2127 and 37-12160 and heating use Right 37-22128. Re: Water Supply Bank Applications in the Name of Wellsprings Group, LLC

Dear Clerk:

Because I am unclear of the filing fee due to which rights are overlapping, please contact me so I can write a check for the proper amount.

Sincerely,
