If you find any information that is inaccurate, please cross it out with a single line and write the correct information beside it. Once all corrections have been made and verified, please sign the amended claim and return it to us so we can continue processing your claim in a timely manner.

Corrections Needed:

1. Item #4: The legal description of the point of diversion does not match the claimant's parcel, place of use, or the recorded point of diversion documented during the in-office appointment.

Additional items needed:

1. On the map, please mark the Point of Diversion location with an "X" and the Place of Use by circling the area the water is used at (trough locations).
