RE: Water Right License No. 96.8790 (Dennis Shellhorn)
Clark Fork-Pend Oreille River Basin Adjudication

Good afternoon,

I am writing regarding the adjudication filing for Water Right License No 96.8790 in the name of my father Dennis Shellhorn. I spoke with Sandy from your office earlier this week.

My father Dennis Shellhorn passed away in April of this year and the property was placed into a trust for my sisters and me. We are currently working with our family attorney Tevis Hull to finalize the filing for the adjudication process and to transfer the license into the name of the family trust. My father was ill for some time before his death and due to the upheaval, we learned of this requirement well after the initial notification. Unfortunately, we have not been able to finalize this filing by the deadline which I believe is today. I was not able to download the official form requesting an extension, so am sending this letter in lieu of the form to formally request more time to submit the application. We will work with our attorney to have this completed as soon as possible.

Contact information for both myself and one of my sister's is below who is the Trustee. We will stay in close contact until this process is complete. Please reach out to either of us at any time.
