

MEMORANDUM

Date: July 1, 2026
To: Transfer 90461
From: McKenna Webster
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes changing the point of diversion for a split portion of water right 35-13858, now 35-14956. It will be moved to the applicant's domestic well. Ownership records will be updated as well. Associated water rights were included in the application as water rights 35-13858, 35-2737C, 35-13859, and 35-14773 are limited to 1.66 cfs; This combined rate limit will be decreased to 1.50 cfs as a result of this transfer.

Authority to File:

The applicant is the owner of the split portion of the water right included in this transfer according to the provided deeds. Additionally, Bingham County parcel data shows that the applicant is the owner of the place of use.

Water Right Validity:

The water right was decreed in 2002. Aerial imagery suggests irrigation of the place of use for over a decade. Forfeiture not an issue.

Injury to Other Water Rights:

The current and proposed points of diversion are located in the ESPA; however, they lie within the same model cell. No ESPA analysis is required. The transfer application was advertised, and no protests were received. Watermaster does not oppose the application. No injury identified.

Enlargement of Use:

The proposed changes will not result in enlargement because the authorized diversion rate, volume, and acreage will not increase as a result of the transfer. The place of use is not changing and will remain within the Danskin Ditch Co. service boundary. No water from Danskin Ditch Co. is being used on the applicant's property as they own no shares.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Effect on Economy of the Local Area:

No issues identified.

Effect on Agricultural Base of the Local Area:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
