Conditions of Approval:

- | | | |
|----|-----|--|
| 1. | 943 | The right holder shall make full beneficial use of all surface water available to the right holder for irrigation of lands within the authorized place of use for this right. The right holder may divert ground water under this right to irrigate land with appurtenant surface water rights when the surface water supply is not reasonably sufficient to irrigate the place of use for this water right or is not available due to drought, curtailment by priority, or the seasonal startup and shutoff or maintenance schedule for canal company or irrigation district deliveries. The right holder shall not divert ground water for irrigation purposes under this right if use of the surface water supply is intentionally discontinued or reduced (for example abandoned, forfeited, sold, disallowed by court decree, or leased to the Water Supply Bank), or is not deliverable due to non-payment of annual assessments, without an approved transfer pursuant to Idaho Code § 42-222 or other Department approval. |
| 2. | R63 | This right when combined with all other rights shall provide no more than 0.02 |

- cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
3. 214 Prior to the diversion and use of water under Transfer approval 85852, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
4. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
5. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Comments:

4 jbailey 7/17/2026 Ownership Change
water right 15-7485 was split into 15-7485 and 15-7541.
