DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1031

RECEIVED

JUL 01 2026

DEPARTMENT OF
WATER RESOURCES

This is to certify that:

JEFF RAYBOULD

301 N 1500 E

SAINT ANTHONY, ID 83445-5111

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
21-7173	6/11/1979	GROUND WATER	0.18	77.7	63.9	0.003	1.22
Rental Totals			0.18	77.7	63.9	0.003	1.22

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2030. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2026, whichever occurs last.

Annual Rental Fee:

2026 - 2030: \$256.41 annually

The full fee for the rental of the above-described right(s) is \$256.41 per year for years 2026 - 2030. The rental fee includes an administrative fee of \$256.41 per year for years 2026 - 2030. Note that the renter is obligated to pay only the administrative fees associated with the water right(s): 21-7173.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate/Acre (CFS/AC)	Volume/Acre (AF/AC)
IRRIGATION	0.18	31.5	9.0	0.020	3.50
Combined Total	0.18	31.5	9.0	0.020	3.50

* The authorized water usage reflects a reduction from the water right elements rented, to account for irrigation standard diversion quantities.

Detailed water right conditions are attached.

STATE OF IDAHO

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the **specified right** from the bank **does not**, in itself, **confirm the validity** of the right or any elements of the water right, or **improve the status** of the right including the notion of **resumption of use**. It does not preclude the **opportunity** for review of the validity of this water right in any **other department application** process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This rental agreement does not authorize the construction of a well.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
11. The renter shall make full beneficial use of all surface water available to the renter for irrigation of lands within the authorized place of use for this agreement. The renter may divert ground water under this rental agreement to irrigate land with appurtenant surface water rights when the surface water supply is not

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1031

reasonably sufficient to irrigate the place of use for this water right or is not available due to drought, curtailment by priority, or the seasonal startup and shutoff or maintenance schedule for canal company or irrigation district deliveries. The renter shall not divert ground water for irrigation purposes under this right if use of the surface water supply is intentionally discontinued or reduced (for example abandoned, forfeited, sold, disallowed by court decree, or leased to the Water Supply Bank), or is not deliverable due to non-payment of annual assessments, without an approved transfer pursuant to Idaho Code § 42-222 or other Department approval.

12. Use of water under this agreement may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 100.
13. Prior to the diversion and use of water under this rental agreement the renter shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
14. Upon specific notification of the Department, **the renter shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.**

APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK

RECEIVED
NOV 07 2025
DEPARTMENT OF
WATER RESOURCES

Applicant Name: Jeffery Raybould

Is this application being submitted with a lease application as a lease/rental package?

Yes ☒ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Jeff Raybould

Mailing Address 301 North 1500 East St. Anthony Idaho 83445
Street City State Zip Code

Email Address jeff@raybouldbros.com Phone Number _____

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☐ No ☐
 If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Kristin Moore Professional Title Principal Water rights Analyst
 Organization Rocky Mountain Environmental Associates Relationship to Applicant Consultant
 Mailing Address 482 Constitution Way, STE 303, Idaho Falls, Idaho 83402
 Email Address kristin.rmea@gmail.com Phone Number (208) 524-2353

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:
Applicant desires to rent additional ground water rights to cover 9 acres around his house and neighboring field.
The proposed place of use is covered by Egin Bench canal shares.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.18 CFS	31.5 AF	0.18 CFS	31.5 AF	9 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
04/15/2026	06/01/2026	☐ 1	☐ 2	☐ 3	☐ 4	☒ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

**STATE OF IDAHO
WATER RESOURCE BOARD**

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Well sprinkler irrigation system.

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
SESE S16 T7N R39E	Groundwater	Domestic water right

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as Attachment 3F.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☒ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 9 (number of acres) Duration: Subject to IDWR standard seasons of use
- ☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as Attachment 3J. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☒
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it Attachment 3K.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

Egin Bench Canal shares pertain to the proposed POU. In addition, a domestic exempted right covers the domestic use of the home and is diverted from the same well.

**STATE OF IDAHO
WATER RESOURCE BOARD**

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
21-7173	Irrigation	0.18	77.7	63.9		0.18	77.7	63.9
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.18	31.5	9
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

- B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:
 Right 21-7173 has insufficient rate and volume per acre to meet needs. It is proposed to rent the entire 63.9 acres with it's rate and volume and condense onto a 9 acre POU to increase the rate per acre.

- C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒

If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

RA 651, which expires December 31, 2025.

B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒

If yes, describe:

C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒

If yes, describe the date and location of the NOV.

D. Additional Information

Jeff Raybould is a partner of D J & J Farms. Because DJ & J owns 6 of the 9 ac at the proposed rental POU, the current rental rate should be waived and it is anticipated that the applicant will only pay the administrative fee.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Eastern Snake Plain Aquifer Modeling Analysis and Narrative

Application to Rent Water from the Water Supply Bank

The Applicant requires an additional 9 acres at the proposed place of use for irrigation in the 2026-2030 irrigation seasons. This application proposes to rent water right 21-7173 from the Water Supply Bank to cover the additional need.

Data Input Values

The TO Well location is the proposed point of diversion. The model cell is identified as R51 C183. The FROM Well location is identified as R49 C183. Figure 1 shows the locations of the points of diversion used in the modeling scenario.

Figure 1. ESPA Model Grid

The standard consumptive use volume of 2.5 afa/acre was used to determine annual volume for each water right. A total of 7.5 af/trimester was used to represent depletions from the FROM well.

Results

Using ESPAM 2.2/ETRAN 3.4 to simulate the depletions of transferring 9 acres to the proposed place of use, the affects do not exceed the threshold of 2.0 af/trimester. No mitigation is required. Figures 2-4 include excerpts from the model simulation for this application.

TO: IDAHO DEPARTMENT OF WATER RESOURCES
FROM: DJ & J FARMS
RE: Water Right 21-7173 WSB Rental

The applicant, Jeff Raybould, has titled in his name three acres within the proposed rental place of use. The remaining six acres are titled in the name of DJ&J farms. Jeff Raybould, as a general partner of DJ&J Farms, accepts the reduced rental rate through a private lease agreement for the rental of that portion of Water Right 21-7173 that is leased to the Water Supply Bank.

DJ & J Farms grants authorization for Jeff Raybould to rent water rights for the place of use in SESE Section 16, T7N R39E.

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO. 21-7173, AGREEMENT 1031**

Dear Renter:

Please find enclosed a receipt in the amount of **\$256.41** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 31.5 acre-feet of water for irrigation of 9.0 acres during 2026. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

The rental fee will be retained by the Department to offset administrative costs since you are the owner of the rights. The annual rental fee for 2027 is due by December 31, 2026.

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Darin Vrem

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 21-7173, AGREEMENT 1031**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$2,564.10 per year was calculated based on the current rental rate of \$33.00 per acre-foot times a diversion volume of 77.7 acre-feet. Since you have a private agreement with the lessor, you are only obligated to pay the 10% administrative fee or \$256.41. The annual rental fee for 2027 is due by December 31, 2026. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check in the amount of \$256.41 for 2026 made payable to the Idaho Department of Water Resources, together with the signed rental agreement, within 14 days so I can complete processing.

Pursuant to the Water Supply Bank Rules, \$256.41 will be retained by the Department to offset administrative costs for **2026**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Aaron Olson

APPLICATION # 3345 / AGREEMENT # 1031**

To: Water Right(s) 21-7173

From: Aaron Olson

Date: 6/17/2026

Re: Review & Analysis of Companion Package to Lease/Rent Water to/from the State Water Supply Bank

PURPOSE/NARRATIVE:

The Water Supply Bank (WSB) received lease application 3344 in a companion package with rental application 3345 on November 7, 2025, on behalf of DJ & J Farms and Jeffery Reynolds respectively. The applications propose to lease a 63.9-acre portion of water right 21-7173 while the rental proposes to irrigate 9 acres. Water right 21-7173 has a low rate and volume per acre, so the application proposes to rent the entirety of the lease while consolidating the rate and volume to adequately cover the 9 acres of irrigation. The lease application is a repeat proposal of concluded lease contract no. 1290, while the rental application is a repeat proposal of rental contract no. 651.

Water right 21-7173 and the rental location are within the Henrys Fork Ground Water District, the Eastern Snake Plain Aquifer, Water District 100, the Snake River Basin Moratorium Area, and the Trust Water Area.

AUTHORITY TO FILE:

The lease application was signed by Jeff Raybould. The applicant DJ & J Farms is the current owner of the water right and review of Fremont County parcel data shows that they also own the land the water right is appurtenant to. Jeff is a partner of DJ & J Farms and is listed as such on the Statement of Partnership Authority document recorded on the Idaho Secretary of State business search website and therefore has authority to sign on their behalf.

The rental application was signed by Jeffery Raybould. Fremont County parcel data shows that a portion the land at the proposed rental location is owned by Jeffery while the remaining portion is owned by DJ & J Farms. Since Jeffery is a partner of DJ & J there is no concern with authority to file either of the applications.

WATER RIGHT VALIDITY:

Water right 21-7173 was decreed November 3, 2011. The 63.9-acre portion of the right that is proposed for lease has been continuously leased to the Water Supply Bank since 2016 and was released at the end of 2025. The entire leased portion of the right was similarly rented from 2022 through 2025. There are no identified concerns with validity of the water right and the portion offered to the bank.

INJURY TO OTHER WATER RIGHTS:

Both the leased right and proposed rental location are within the Eastern Snake Plain Aquifer modeling boundary. Since they are within the boundary, analysis of hydrologic effects within the aquifer and to the Snake River is required for processing. Modeling using the ESPA transfer tool ETRAN V3.4 was provided as an attachment to the application. Review of the ETRAN V3.4 modeling indicates that mitigation would not be required to offset the impacts of the proposed water use at the rental location. The results of the mitigation check indicated that no depletions

to reaches of the Snake River would occur as a result of the rental. There are no concerns of injury to other water rights.

ENLARGEMENT OF USE:

The lease and proposed rental point of diversion are ground water wells that are approximately 2 miles apart and both within the ESPA. Water right 21-7173 does not share combined limit conditions with any additional rights that would need to be included in a lease contract. Water right 21-7173 does however have a condition stating that use of the right is combined with surface water from Egin Bench Canals Inc. The application states that the rental place of use is also covered by Egin Bench Canals Inc. shares and that surface water will be used for irrigation first when available. A condition will be added to the agreement stating that full beneficial use will be made of available surface water before ground water is to be used.

Both the leased water right and the proposed rental location are within an area with a season of use of 4/1 – 10/31, a headgate requirement of 3.5, and a consumptive use of 2.5. There is no concern of enlargement.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The water right is within the Eastern region and within Water District 100. Comment requests were sent to the Regional Manager and Watermaster on June 17, 2026.

ESPA ANALYSIS RESULTS:

SOU - 4/1 - 10/31

2026-2030

Good Afternoon James,

The Water Supply Bank received applications to lease and rent water right 21-7173. Attached is a copy of the applications, review memo, and maps for your review. Please provide any comments or concerns you have with the proposed rental within the next 7 days. If no comments are received in the next 7 days, I will assume there are no issues with this rental and proceed with processing.

Thanks,

Aaron
