Hi Chris,

Yes, we do have a map of the irrigated acres. I have attached the map here, along with the shapefiles.

Thank you!

Sincerely,

Tessa Sparrow

Subject: BRBA Claim 11-290 Irrigated Acres Question

Good afternoon Tessa,

I am reviewing BRBA claim 11-290 for Georgetown Irrigation Company. The claim contains a map where the legend describes the point of diversions and service area for the company. The canal company is required to also provide a map of the actual irrigated acres for all lands irrigated by the shareholders.

I am emailing you to see if the map provided is only the service area (there are lands within the boundary shape that is not irrigated by the canal company) or if the map is the service area and service boundary. The total acres of the shape provided are ~4,500, which is 1,000 acres more than the decreed amount. No other claims were filed for the canal company.

Sincerely,

Christopher Holmes
