Combined Rental Totals			1.86	469.0	121.0	0.015	3.9

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2026. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2026, whichever occurs last.

Annual Rental Fee:

2026: \$1,547.70

The full fee for the rental of the above-described right(s) is \$1,547.70 for 2026. The rental fee includes an administrative fee of \$1,547.70 for 2026. Note that the renter is obligated to pay only the administrative fees associated with the water right(s): 35-14820, 35-14442, 35-14443, 35-7632 A, 35-7632A and 35-14907.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Detailed water right conditions are attached.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.

WATER SUPPLY BANK RENTAL AGREEMENT No. 1019

9. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
10. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
11. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
12. Rights 35-7632A, 35-14442 and 35-14443 when combined shall not exceed the irrigation of 50.0 acres.
13. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
14. This rental agreement does not authorize the construction of a well.

APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK

DEPT. OF WATER RESOURCES

Applicant Name: Farmland Reserve Inc.

Is this application being submitted with a lease application as a lease/rental package?

Yes ☒ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below and printed single sided. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

There is no filing fee for submitting a rental application. The annual rental fee due will be calculated based on the volume of water required under an approved rental agreement. **Timing:** Rental application processing is prioritized between November through March. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests cannot provide retroactive approval, and applications will not be accepted once the rental season of use period has concluded. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicant.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit <https://idwr.idaho.gov/iwrb/programs/water-supply-bank/resources/>

2. MAP

Attach a map. Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. The map must include the rental place of use outlined and annotated with legal land descriptions (Township, Range, Section and Quarter- Quarters) or with GPS coordinates. **For irrigation purposes**, mark the number of acres to irrigate **per 40-acre tract** (1/4-1/4). Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

- A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

This rental will allow sufficient time for permanent water to be secured and transferred to this rental location.

- B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
1.86 CFS	469 AF	1.86 CFS	469 AF	121. AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

- C. **This section must be completed in full.** The desired start date must be later than the date received by the Department. The latest possible start is the latest possible date you could begin diverting water to put the rental to beneficial use in the desired start year. **Rentals are not retroactive and are not approved until the annual rental fee payment is received for the year of beneficial use and an approval document is executed by the Department.**

Desired Start Date (month/day/year)	**Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)	**Applicant's preference if rental application cannot be processed prior to the latest possible start?
4/1/2026	10/31/2026	☒ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 Other Term Length (# of years): Prior IWRB approval required	☒ Process application as soon as possible. I understand the rental fee is annual and is not calculated on a pro rata basis. ☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Existing well, mainlines and delivery system.

- E. **Point(s) of diversion.** Locate the point of diversion within each 40-acre tract and/or the U.S. Government Lot of the Public Land Survey System. Spring sources should be described to the nearest 10-acre tract. Identify the county where the point of diversion is located. An existing well must be identified for a request to rent ground water under a short-term rental.

TWP	RGE	SEC	GOVT LOT	1/4	1/4	1/4	County	Source	Local name or tag #
07S	29E	5	2		NW	NE	Power	Ground Water	

- F. If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

Has documented consent from all relevant water delivery entities been obtained?

Yes ☐ N/A ☒

If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling?

Yes ☒ No ☐

Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request?

Yes ☒ N/A ☐

If yes, label modeling Attachment 3 H.

Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

☒ Irrigation 121.0 (number of acres) Duration: Subject to IDWR standard seasons of use

☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)

☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)

☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)

☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre?

N/A ☐ Yes ☐ No ☒

If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)?

Yes ☒ No ☐

If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required: Attach a separate page if space is insufficient and label it **Attachment 3L**

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. *Rental applications that require modeling must also complete the table below for the specific water rights to be rented. If no, continue to Question 4B.*

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers. Include any additional water required to meet area headgate requirements, minimum flow rates when combined with existing water rights at the rental location, or mitigation requirements because of [ESPA Modeling Analysis](#) results. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Active leases and rentals are searchable via the [Lease and Rental Map Search](#) tool. Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.**

						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) requested above?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **\$1,547.70 per year** was calculated based on the current rental rate of \$33.00 per acre-foot times a diversion volume of 469.0 acre-feet. Since you are both the lessor and the renter of the right(s), **you are only obligated to pay the 10% administrative fee or \$1,547.70.** The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check in the amount of \$1,547.70 for 2026 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

Pursuant to the Water Supply Bank Rules, **\$1,547.70** will be retained by the Department to offset administrative costs for **2026**.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

To: Water Right(s) 35-7632A, 35-14442, 35-14443, 35-14820 & 35-14907

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: Companion rental application to rent specific ground water rights for 121 acres of irrigation in the Eastern Snake Plain Aquifer Ground Water Management Area (ESPA GWMA) during 2026 only received on February 17, 2025. Lease application 3451 for rights 35-7632A, 35-14442, 35-14443, 35-14820 and 35-14907 were reviewed under a separate memo.

AUTHORITY TO FILE: Rental application was completed by the applicants' consultant, Greg Sullivan with Brockway Engineering, and signed by Erik Jacobsen. Mr. Jacobsen is a recognized authority to sign on behalf of Farmland Reserve water right applications. Rental POD is associated with Tag Number A0018386 and WMIS Number 1001371. Rental place of use and point of diversion are on parcels owned by Farmland Reserve, Inc., according to 2024 Power County tax lot data. No concerns with authority to file.

WATER RIGHT VALIDITY: Rights 35-7632A, 35-14442 (35-7246M), and 35-14443 (35-13609) were leased into and rented from the Bank previously until 2013 and then put to full use at the current POU and used with rentals from the bank in 2023 and 2025. The current lease of these rights is for 2026, only. Offered right 35-14820 is a child right of 35-2391, which was leased and rented from the Board's bank in 2023 and 2025, and annually each year from 2017-2022. Water right 35-14907 was changed in 2026 by transfer 89549, the Parent Right is 29-10265. The transfer moved the PODs 25 miles from T6S R33E Sec 5 SWNESW and SWNESE to T6S R29E Sec 20 SWNW & Sec 30 NENE.

INJURY TO OTHER WATER RIGHTS: Location of rental POD from ground water is within the ESPA GWMA model boundary. Errored ETRAN modeling and mitigation analysis was provided with the rental application. The TO well and FROM well grid cells were wrong and it only showed 40.3 acres instead of the 121 acres requested on the form. Due to the recent 2026 recent transfer 89549 moving the POD of 35-14907 the old POD of Parent water right 26-10265 was used for the model analysis (ESPA Model Cells R92,C115). Review staff modeled the rental application and found that no mitigation is necessary using correct grid cells and data entry summarized under ESPA Calculations and Mitigation Analysis at end of memo.

ENLARGEMENT OF USE: There are not any water right appurtenant to the proposed POU.

The five requested water rights are additive to each other and have an R64 condition that when combined with other rights, they will not exceed 0.02 CFS per acre and 4.0 acre-feet per acre. A rental of all five water rights will not create an enlargement, since there will not be an increase in the annual diversion rate, diversion volume, or irrigated acres. There are no overlapping water rights at the proposed rental POU so overlap analysis was not needed.

LOCAL PUBLIC INTEREST: This application is consistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental is for a beneficial use of irrigation.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental POD is in the IDWR Eastern Region, within the Trust Area, and is subject to Water District # 120. Re: 121 Acre Lease and Rental Application

Dear Water Supply Bank Specialist:

Farmland Reserve Inc desires to lease 121.0 acres of water from water rights 35-14907, 35-14820, 35-14442, 35-7632A and 35-14443 into the Water Supply Bank for 2026.

Water right 35-14907 will lease 31.0 acres into the Water Supply Bank for 2026.

Water right 35-14820 will lease 40.0 acres into the Water Supply Bank for 2026.

Water right 35-14442, 35-7632A and 35-14443 will lease 50.0 acres into the Water Supply Bank for 2026.

The 121.0 acre rental will be to an existing POD and existing pivot irrigation system for the 2026 irrigation seasons. ESPA model analysis for this rental has been performed and no mitigation is required due to this rental.

Sincerely,

Greg Sullivan, M.S., Engineer
