OF THE STATE OF IDAHO**

IN THE MATTER OF APPLICATION)
FOR TEMPORARY CHANGE OF A)
WATER RIGHT TC-37-102)
IN THE NAME OF CREG & LETA HANSEN)

**ORDER AUTHORIZING
TEMPORARY CHANGE**

WHEREAS, a drought emergency has been declared for Blaine County to allow administrative actions to lessen the severe impacts of the drought conditions in the County; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the Director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights or temporary exchanges of water, as provided in section 42-240, Idaho Code, when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, on August 3, 2026, Creg & Leta Hansen Limited Family Partnership. ("applicant") submitted the attached Temporary Change Application ("application") to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions; and

WHEREAS, the applicant assumes all risk and is the responsible party if diversion and use of water under the temporary change approval causes injury to other water rights or constitutes an enlargement in use of the original right;

ORDER

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of right 37-2519 bearing a priority of 12/23/1950 is authorized only at the point of diversion described on the application or as otherwise approved in this order.
2. Use of right 37-2519 for the remainder of the irrigation season is limited to 439.0 acres at its authorized place of use.
3. The use of right 37-2519 is limited to the historical use limitations locally imposed by the watermaster and may further be limited to account for additional conveyance loss in deliverance of this temporary change.

4. This temporary change approval does not authorize construction of a new point of diversion on the Little Wood River Irrigation District Canal or construction of a new well.
5. This temporary change approval may only be used to provide a replacement water supply to lands or other uses that normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the Director and the State of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. To prevent injury to other water rights the Watermaster of Water District No. 130 is authorized to administer the temporary change approval.
10. When this right and others appurtenant to the lands identified on the application are combined, no more than 0.02 cfs per acre may be diverted at any one time at the field headgate.
11. This temporary change approval expires on October 31, 2026 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

DATED this 6th day of August, 2026.

Corey,

After talking to the LWRID board of directors, there is no objection to allowing the transfer of the well upstream and delivery of water to the POU in our current delivery system.

Also, as watermaster of WD37N, I have no objections because measuring water will not be a concern as an operational flow meter is already in place to track diversion volume.

Thanks,

Bryan Wood

Subject: Temporary Change for Creg & Lita Hansen Limited Family Partnership

Gentlemen,

Please find attached a copy of a Temporary Change Application filed by Creg & Leta Hansen Limited Family Partnership. The application proposes changing the authorized point of diversion for groundwater right 37-2519 from a well south of Carey to a well north of Carey for the remainder of this irrigation season. We are required to have watermaster comments on these before we can approve them. The wells are in Water District 130, but I am assuming water will have to be conveyed through the WD37N and LWID system, so I would like Bryan's comments also.

Thanks,

Corey
