ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources hereby approves the above Application for Amendment for Permit No. 98-8147 with the following:

Conditions of Approval

1. Water stored under this right is subject to fluctuations of the water table caused by changes in the flow of local streams and by diversions under prior ground water rights. This right does not guarantee the maintenance of any particular ground water level.
2. Right 98-8147 authorizes a total annual storage volume of 1.5 acre-feet, 1.1 acre-feet to be used for the initial filling or carryover storage of the two (2) ponds and 0.4 acre-feet for the replacement of losses caused by evaporation.
3. Recreation storage water use is for fishing, swimming, and boating.
4. This right does not grant any right-of-way or easement across the land of another.

This amendment is issued pursuant to the provisions of Idaho Code § 42-211.

Signed this 15 day of April, 2026.

RE: Water Right Permit No. 98-8147

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit(s) referenced above prior to issuing water right license(s). By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit(s) have been developed differently than described on your permit(s). Changes that do not increase the authorized use of water under the permit(s) can be requested and approved in accordance with Idaho Code § 42-211. Before license(s) can be issued, your permit(s) must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit(s):

X Point(s) of Diversion – the Permit authorized development of one (1) POD with legal description: Twp 61N, Rge 01E, Sec 12, NE¼SW¼. This is associated with a storage pond with in-pond Ground Water source.

At time of exam a second, smaller storage pond, was found to be developed in the same legally described PLSS location for the same beneficial use. As a result a second POD is required to be added at time of licensing for the 2nd storage pond which impounds ground water source water from within the high-water mark of the storage pond.

N/A Place(s) of Use – the second storage pond is within the same PLSS legal description as original storage pond.

The enclosed Application for Amendment form(s) depicts the elements of the water right(s) as they will appear on the license(s) when issued. Please review the amendment form(s) carefully. If you concur with the information presented, **please sign and return the form(s) with the filing fee of \$100.00 within fourteen (14) days.**

If you have any questions, please call me at 208-762-2817.

Sincerely,
