RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on March 20, 2026.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2026 to December 31, 2028. This Lease shall bind the parties and take effect when both parties have signed it.

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 161.
13. The unleased portions of Right No. 61-12154 shall not exceed a total diversion rate of 0.02 cfs, a total annual maximum diversion volume of 2.4 af at the field headgate, and the irrigation of 0.6 acre.
14. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than April 12, 2001.
15. All water rights within Basin 61 are from connected sources of water in the Snake River Basin and shall be administered conjunctively.

MEMORANDUM FOR APPLICATION # 3500, CONTRACT # 2232

To: Water Right(s) 61-12154

From: Darin Vrem

Date: July 26, 2026

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

On March 20, 2026, Lease Application 3500 was received by the Idaho Department of Water Resources as part of a lease-rental package with Rental Application 3501. The correct fee amount of \$250.00 (Receipt C125396) was received with the application. The applicant proposes to lease a portion of water right of 61-12154 to the Water Supply Bank (Bank) for the irrigation of 5.0 acres with a proportional rate of 0.08 cfs and volume of 20.0 af for a term of three years, 2026-2028. This water right has not been previously leased to the Bank. On August 12, 2026, the applicant submitted an email regarding Rental Application 3501 requesting that no fee be charged to the owner of water right 61-12154 and only the administrative fee retained by the Board.

The proposed point of diversion (POD) and place of use (POU) are within the Snake River Basin Moratorium Area, Mountain Home Ground Water Management Area, and the Trust Area.

AUTHORITY TO FILE:

Scott Sornson, the owner of record for water right 61-12154, signed the application on March 12, 2026.

WATER RIGHT VALIDITY:

The partial decree for WR 61-12154 allocates a full rate of 0.10 cfs and a volume of 22.4 af for the irrigation of 5.6 acres. This Right has not been previously leased to the Bank. Sentinel satellite imagery from 2022 and Google Earth aerial imagery from 2023 show that the POU received early season irrigation both of those years, see page 2. The water right season of use is 4/01 to 10/31, with potential extensions allowing for a start date as early as 3/15. There are no concerns with the validity of the water right and portion offered to the bank.

ENLARGEMENT OF USE:

The POD, a groundwater well, is shared with three other irrigation water rights. There are no overlapping water rights at POU. The proposed lease water quantity is less than decreed: 0.08 cfs and 20.0 af for the irrigation of 5 acres. This lease will not result in an enlargement of use.

LOCAL PUBLIC INTEREST:

Accepting valid rights into the water supply bank to provide water for new and supplemental uses is in the local public interest.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The location of the water right POD is within IDWR's Western Region and Water District 161. A request for comment regarding the proposed lease was sent on July 8, 2026. No comments were received.
