

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1015

RECEIVED

AUG 17 2026

Department of Water Resources

This is to certify that:

GEORGE VANDERVEGT
IRREVOCABLE TRUST
530 WILDROSE LOOP
TWIN FALLS, ID 83301-8247

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
36-16920	8/22/1961	GROUND WATER	0.32	64.8	16.2	0.020	4.00
Rental Totals			0.32	64.8	16.2	0.020	4.00

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2026. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2026, whichever occurs last.

Annual Rental Fee:

2026: \$2,138.40

The full fee for the rental of the above-described right(s) is \$2,138.40 for 2026. The rental fee includes an administrative fee of \$213.84 for 2026.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)
MITIGATION BY NON-USE	0.32	60.4
Combined Total	0.32	60.4

*** The authorized water usage reflects a reduction from the water right elements rented, to account for a Change in Nature of Use from Irrigation to Mitigation by Non-Use.**

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1015

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This rental agreement does not authorize the construction of a well.
10. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No.130.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1015

11. Prior to the diversion and use of water under this agreement, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion, in accordance with Department specifications.
12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
13. This agreement is not an authorization for the rights to be used as mitigation or credit for any purpose. The sufficiency of the water use authorized under this right for mitigation or credit for some other purpose may be determined by the Department upon proper submission of a mitigation plan pursuant to the Department's Rules of Conjunctive Management of Surface and Ground Water Resources, a mitigation plan to offset depletion in association with a water right application, a Management Program pursuant to Idaho Code § 42-1416B, or any other proposal to utilize credit.
14. This agreement authorizes diversion and use of ground water within the Eastern Snake River Plain Area of Common Ground Water Supply (ESPA ACGWS). If the director determines that the ground water supply in the ESPA ACGWS is insufficient to meet the demands of prior water rights, the Director may order the diversion and use of water under this agreement to be reduced or curtailed. Curtailment may not apply if the right holder or renter is participating in an approved mitigation plan.

MAY 16 2025

DEPT. OF WATER RESOURCES

APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: Irene Vandervegt Gibson

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST

Check All Items as Either Attached (Yes) or Not Applicable (N/A)

	Yes	
	☒	Completed <i>Application to Rent Water from the Board's Water Supply Bank</i>
	☒	Confirmation that this form has been printed single sided, per requirement of the Water Supply Bank
Attachment	N/A	Yes
2	☒	A map showing the proposed point(s) of diversion, place(s) of use, and water diversion and distribution systems proposed to be used with your rental request
3A	☐	☒ Detailed information on a proposed use of rental water
3F	☒	☐ Authorization from the owner/operator of the rental point(s) of diversion
3H	☒	☐ Water modeling to account for the impacts of the rental request
3J	☒	☐ Documents justifying a rate of flow greater than 0.02 cfs/acre
3K	☒	☐ Authorization from the owner/operator of the property at the proposed rental place(s) of use
4B	☐	☒ Explanation of how the rental water will sufficiently accomplish your rental purposes
4C	☐	☒ Explanation of consumptive use amounts for water rights experiencing a change in nature of use

Department Use Only – Proposed Water Right(s)

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Irene Vandervegt Gibson

Mailing Address 4098 Hidden Lakes Dr Kimberly, Idaho 83341

Street

City

State

Zip Code

Email Address _____

Phone Number _____

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☒ No ☐

If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Greg Sullivan

Professional Title Engineer

Organization Brockway Engineering

Relationship to Applicant Consultant

Mailing Address 2016 N Washington St Ste 4 Twin Falls, Idaho 83304

Email Address greg.sullivan@brockwayeng.com

Phone Number 208-736-8543

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

This application is for mitigation by non-use and not for irrigation use. The applicant desires the extra water to stay in compliance with the local ground water district.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.32 CFS	64.8 AF	0.32 CFS	64.8 AF	0 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
7/15/2025	10/31/2025	☐ 1	☒ 2	☐ 3	☐ 4	☐ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Existing PODs, mainlines and delivery system

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
T08SR14E Sec 27 SESE	Ground Water	36-7289, 36-4037, 36-7283, 36-2144 and 36-7363B
T08SR14E Sec 26 SENW	Ground Water	36-7289, 36-4037, 36-7283, 36-2144 and 36-7363B
T08SR14E Sec 26 SWSE	Ground Water	36-7289, 36-4037, 36-7283, 36-2144 and 36-7363B
T08SR14E Sec 26 SWSE	Ground Water	36-7289, 36-4037, 36-7283, 36-2144 and 36-7363B

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☒
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☐ N/A ☒
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☐ Irrigation _____ (number of acres) Duration: Subject to IDWR standard seasons of use
- ☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
- ☒ Other: **Mitigation non-use** from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☒ Yes ☐ No ☐
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
36-7289, 36-4037, 36-7283, 36-2144 and 36-7363B

**STATE OF IDAHO
WATER RESOURCE BOARD**

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
36-16920	Irrigation	0.32	64.8	16.2		0.32	64.8	0.0
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.32 CFS	64.8 AF	0.0 AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☒ No ☐

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

Proposed use will be mitigation by non-use.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

- D. Additional Information
None

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NOs. 36-7510, 36-16920 and 36-17152, AGREEMENT 1006 and 1015**

Dear Renter:

Please find enclosed a receipt in the amount of **\$9,398.4** with copies of a fully executed Water Supply Bank Rental Agreements in connection with the total rental of 284.8 acre-feet of water for mitigation during 2026. Upon receipt of these fully executed agreements, you are authorized to divert water in compliance with the conditions of water use described in the agreements.

Pursuant to the Water Supply Bank Rules, 90% or \$8,458.56 of the rental fee will be paid to the lessor(s) and 10% or \$939.84 will be retained by the department to offset administrative costs for 2026.

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Darin Vrem
Water Supply Bank

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 36-16920, AGREEMENT 1015**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$2,138.40 per year was calculated based on the current rental rate of \$33.00 per acre-foot times a diversion volume of 64.8 acre-feet.

Please send a check in the amount of \$2,138.40 for 2026 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

Pursuant to the Water Supply Bank Rules, 90% or \$1,924.56 of the rental fee will be paid to the lessor(s) and 10% or \$213.84 will be retained by the Department to offset administrative costs for **2026**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Aaron Olson

for
Water Supply Bank

MEMORANDUM FOR AGREEMENT #1015

To: Water Right(s) 36-16920

From: Aaron Olson

Date: 5/20/2026

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE:

The Water Supply Bank (WSB) received rental application 3233 on May 16, 2025, on behalf of Irene Vandervegt Gibson and submitted by representative Greg Sullivan of Brockway Engineering. During processing Greg informed the Department that Irene Vandervegt Gibson had passed away and that the rental agreement applicant should be changed to George Vandervegt Irrevocable Trust. Documentation was provided showing that George Vandervegt Irrevocable Trust is the current owner of the appurtenant water rights and that they have authority to take on the rental application. The application requests mitigation by non-use to mitigate for existing irrigation water rights 36-2114, 36-4037, 36-7363B, and 36-7289 which are part of North Snake Ground Water District. The application proposes to rent an equivalent of 16.2 acres of water right 36-16920 with ESPA modeling provided. The application proposes a similar request to rental agreement 617 which began in 2022 and concluded at the end of 2025 but was satisfied with different water rights. Application 3266 was submitted in August of 2025 and also proposes mitigation by non-use to mitigate for the applicant's same existing water rights. Application 3266 proposes use of water rights 36-7510 and 36-17152 instead. The application was originally proposed for 2025-2026 but the application was not processed in time to be applied to 2025.

The proposed rental location is within the Snake River Basin Moratorium Area, the Eastern Snake Plain Aquifer Ground Water Management Area, Water District 130 and The North Snake Ground Water District.

AUTHORITY TO FILE:

The application was signed by applicant Irene Vandervegt Gibson. The application was prepared and filed by representative Greg Sullivan of Brockway Engineering. Gooding County parcel data shows that the owner of the land appurtenant to the proposed place of use and point of diversion is owned by Peak Trust Company-NV.

INJURY TO OTHER WATER RIGHTS:

Both the leased rights and proposed rental location are within the Eastern Snake Plain Aquifer modeling boundary. Modeling using the ESPA transfer tool ETRAN V3.4 was provided as an attachment to the application. Review of the ETRAN V3.4 modeling indicates that mitigation would not be required to offset the impacts of the proposed water use at the rental location. The results of the mitigation checks indicated that no depletions to reaches of the Snake River would occur as a result of the rental. No water will be diverted as a result of this agreement since the use is mitigation by non-use. The existing water rights that this agreement will be mitigating for and the leased water rights are administered by the Watermaster of Water District 130. There are no concerns of injury to other water rights.

ENLARGEMENT OF USE:

The point of diversion of the leased water right is approximately 8 miles northwest of the rental PODs and is also sourced from ESPA ground water. The rental agreement involves a change in the nature of use for the leased water rights from irrigation to mitigation by non-use. To prevent

enlargement the total water use authorized by the agreement will be reduced to reflect the historic consumptive use of the leased right. Data from historical crop records show that alfalfa was last grown at the lease POU in 2016 before the right was placed continuously into the water supply bank. To estimate historic consumptive use ET data can be used from the nearest ET Idaho station located in Hagerman (NWS -- USC00103932), the historic consumptive use for alfalfa-frequent cuttings is 3.73 af per acre which exceeds the average consumptive use volume of the area which is 3.0 af per acre. With 16.2 acres of the water rights being rented the total volume for the rental will be reduced to 60.4 af.

LOCAL PUBLIC INTEREST:

The proposed rental of water is in the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The proposed rental is consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The proposed POD is within the administrative area of IDWR's Southern Region and Water District No. 130. Comments regarding the proposed rental were requested from the regional manager and Watermaster on 5/20/2026. No concerns were received.

Completed ownership change for Vandervegt 2026.pdf;

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Aaron,

See the attached documents to this email.

Because all of the water rights associated with the farm we are renting water too have been updated to the George Vandervegt Irrevocable Trust, the rental agreement should match the same name. Jenis Martens is the acting trustee and recently signed the Notice of Change in Water Right Ownership for the farms water rights.

Can you please update the name on the rental agreement to George Vandervegt Irrevocable Trust, update the address to 530 Wildrose Loop Twin Falls, Idaho 83301 and mail the rental out for signature?

Please call me if you have questions.

Subject: FW: WSB Rentals For Irene Vandervegt Gibson

Aaron,

I was able to talk to Jenis Martens (Irene's daughter) this morning on the phone. The farm property and water rights ownership will be updated to the name of Bird View LLC. I have attached a scanned copy of the annual report for Bird View LLC. The rental agreement needs to be updated to be in the name of Bird View LLC and the address of 530 Wildrose Loop Twin Falls, Idaho 83301.

I believe the southern IDWR office is working on the ownership changes of the water rights associated with this farm.

Subject: WSB Rentals For Irene Vandervegt Gibson

Good Afternoon Greg,

I have a proposed 2026 rental agreement ready for Irene Vandervegt Gibson that I am planning to send out for signature in the mail that I would like to share with you.

I would also like to discuss the rental application that was submitted earlier in May of 2025 and requested 64.8 AF for 2025-2026 (copy of the application attached for reference). I have an agreement prepared but just wanted to confirm if this rental is still desired for 2025 in addition to existing agreement no. 617, and also would it be needed in 2026 in addition to this new agreement no. 1006?

Also is there any information from the Ground Water District that can be provided that shows the extra amount of water needed for the applicant to be in compliance? We may need a demonstration of the need for additional volume if there are multiple rentals for the same use.

Thank you,

RE: APPLICATION(S) 3233 TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water from the Idaho Water Resource Board's Water Supply Bank (Bank) for 64.8 acre-feet of mitigation by non-use. Filing a Bank rental application does not automatically result in approval.

Before a rental application can be approved, the rental request must be reviewed, a rental agreement must be prepared, the agreement must be approved by the applicant and the Department, and the rental fee must be paid. To maximize the number of rental applications processed while managing competing priorities, the Department begins processing rental applications on November 2 for use in the next calendar year, and it processes as many applications as it can before the start of the irrigation season in March or April. Once the irrigation season begins, Department staff members are reassigned to address field work and other duties. Consequently, few rental applications are processed after May 1st.

Because your application was received after May 1st, the Department may not be able to process your application in time for approval in 2025. If your application was for 2025 only and the latest possible start date on your application has passed, the application may be returned to you. If your application requests a rental for more than one year, the rental application may be retained by the Department and evaluated for 2026.

In future years, we encourage you to file your rental applications as close to November 1st as possible to improve the chances that they will be processed prior to the requested start date. Water Supply Bank Processing for application status may be found on the Department's website at <https://idwr.idaho.gov/iwrb/programs/water-supply-bank/reports/>

If you have questions regarding this matter, please contact our office at 287-4800.

Sincerely,

Izzy Orichton

for
Water Supply Bank

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Izzy,

Sorry for the confusion. I was waiting for my client to return the signed rental application to me and then I was going to submit it to IDWR with a cover letter, aerial map and ESPA Model analysis. Apparently, the rental application has been signed and submitted to you.

See the attached aerial map of the rental PODs and the rental POU. Also attached is the ESPA Model analysis.

The intent of the new rental is utilize 64.8 acre feet during 2025 and 2026. This would be additional water to Rental Agreement #617.

This particular farm over pumped the allowed volume limit in 2024, according to the North Snake Ground Water District. This is the reason for the addition non-use volume rental.

Subject: Irene Vandervegt Gibson Rental Application

Good afternoon, Greg,

The Department received Irene Vandervegt Gibson's rental application on May 16, 2025, and listed you as the consultant for the application.

Currently, Irene has an active mitigation by non-use rental at the same Place of Use (see attached) that's set to expire on December 31, 2025. The Department would like to know if the new rental application is for additional mitigation by non-use or if it is supposed to replace Rental Agreement 617 when it expires at the end of 2025.

Additionally, we are missing a map of the rental Point of Diversion(s) and rental Place of Use. Please provide this and clarification on if the new application is for additional mitigation or a repeat application to replace Rental Agreement 617 within seven (7) days, by May 26, 2025, so we may continue processing the rental application in a timely manner.

Thank you,

IDAHO DEPARTMENT OF
