To Whom it May Concern,

Attached please find a Statement of Completion for Submitting Beneficial use for **Water Right Permit #63-35002**, issued to Boise State University. This permit is intended for Aesthetic and Wildlife benefit at Boise State University's Diane Moore Nature Center on the Boise River. At this time, we have met all conditions of the permit. We have successfully established this authorized water use, and the highest recorded flow since license issuance was 115.9 cfs on 6/15/2022. As issued, this water right has resulted in improved fish and wildlife habitat at the Diane Moore Nature Center.

Upon request I can provide the following supporting information:

- as-built plans
- recorded flow measurements
- photographs of channel, diversion structure, flow measurement device, improved fish and wildlife habitat
- calibration of flow meter technical memo
- flow rating curve analysis
- documentation of Boise State University's purchase of 4 shares (0.08 cfs, 4 acres) from South Boise Water Company and dedicated those shares to mitigation through non-diversion

Enclosed please find a check for \$600 as indicated in the License Examination Fee Schedule. I'm happy to lead a field exam of the site to inspect the channel at your convenience. Please contact me if you need any additional information.
