

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1066

RECEIVED

SEP 14 2026

DEPARTMENT OF
WATER RESOURCES

This is to certify that:

KIRK EGBERT
1410 E 1300 N PO BOX 87
TERRETON, ID 83450

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
37-22168	9/20/1974	GROUND WATER	0.18	35.6	8.9	0.020	4.0
Rental Totals			0.18	35.6	8.9	0.020	4.0

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2028. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2026, whichever occurs last.

Annual Rental Fee:

2026 - 2028: \$1,174.80 annually

The full fee for the rental of the above-described right(s) is \$1,174.80 per year for years 2026 - 2028. The rental fee includes an administrative fee of \$117.48 per year for years 2026 - 2028.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate/Acre (CFS/AC)	Volume/Acre (AF/AC)
IRRIGATION	0.18	31.2	8.9	0.020	3.5
Combined Total	0.18	31.2	8.9	0.020	3.5

** The authorized water usage reflects a reduction from the water right elements rented, to account for a per acre requirement of volume of 3.5 af/ac and a rate of 0.020 cfs at the rental point of diversion.*

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1066

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

Signature of Renter

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.

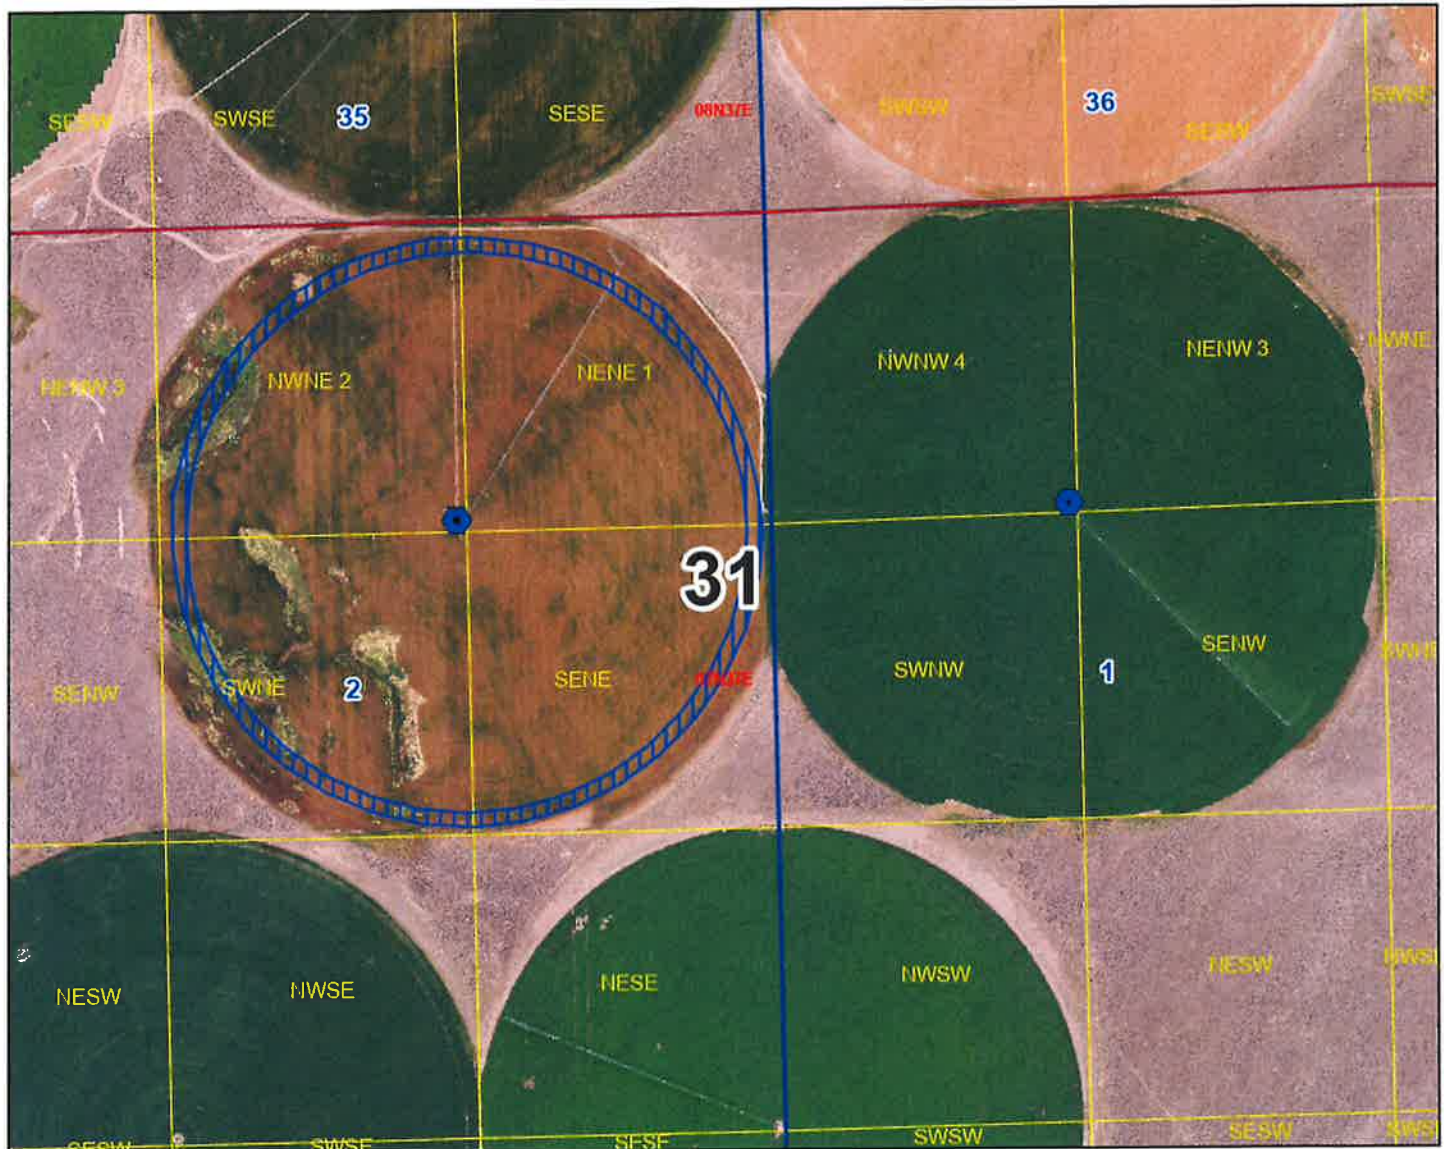

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1066

10. This rental when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
11. Prior to the diversion and use of water under this rental, the renter shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
12. This rental agreement does not authorize the construction of a well.
13. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
14. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.
15. The use of water under this rental agreement may be dependent on participation in an approved mitigation plan. In the event of a delivery call by senior surface water users, the rented rights may be curtailed and use under the rental agreement will not be allowed if mitigation is not provided.

WATER RESOURCE BOARD

APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK

Print Form

RECEIVED

APR 28 2025

Applicant Name: **Kirk S. Egbert**

Department of Water Resources

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below and printed single sided. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

There is no filing fee for submitting a rental application. The annual rental fee due will be calculated based on the volume of water required under an approved rental agreement. **Timing:** Rental application processing is prioritized between November through March. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests cannot provide retroactive approval, and applications will not be accepted once the rental season of use period has concluded. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicant.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit <https://idwr.idaho.gov/iwrb/programs/water-supply-bank/resources/>

MINIMUM REQUIREMENT CHECKLIST

Check All Items as Either Attached (Yes) or Not Applicable (N/A)

Yes

- ☒ Completed *Application to Rent Water from the Board's Water Supply Bank*
☒ Confirmation that this form has been printed single sided, per requirement of the Water Supply Bank

Attachment N/A Yes

- 1B** ☒ ☒ Authorization to represent the applicant, or sign on behalf of the company
2 ☒ A map showing the proposed point(s) of diversion, place(s) of use, and water diversion and distribution systems proposed to be used with your rental request.
3A ☒ ☐ Detailed information on proposed use of rental water
3F ☒ ☐ Authorization from the owner/operator of the rental point(s) of diversion
3H ☐ ☒ Water modeling to analyze impacts of the rental request
3J ☒ ☐ Documents justifying a rate of flow greater than 0.02 cfs/acre
3K ☒ ☐ Authorization from the owner/operator of the property at the proposed rental place(s) of use
4B ☒ ☐ Explanation of how the rental water will sufficiently accomplish your rental purposes
4C ☒ ☐ Explanation of consumptive use amounts for water rights experiencing a change in nature of use

Department Use Only – Proposed Water Right(s)

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Kirk S. Egbert

Mailing Address 1410 E 1300 N, P.O. Box 87 Terreton ID 83450
Street City State Zip Code
 Email Address kkegbert1985@yahoo.com Phone Number 208-663-4505

B. Is this application being completed or signed by an authorized representative on behalf of the applicant? Yes ☒ No ☐
 If yes, representatives (includes company employees, as well as legal counsel or consultants) should provide their information below and include their authority to represent and/or sign the application on behalf of the applicant. Label **Attachment 1B**.

Representative Kristin Moore Professional Title Principal Water Rights Analyst
 Organization Rocky Mountain Environmental Assoc., Inc Relationship to Applicant Consultant
 Mailing Address 482 Constitution Way, Suite 303, Idaho Falls, ID 83402
 Email Address kristin.rmea@gmail.com Phone Number 208-524-2353

2. MAP

Attach a map. Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. The map must include the rental place of use outlined and annotated with legal land descriptions (Township, Range, Section and Quarter- Quarters) or with GPS coordinates. **For irrigation purposes**, mark the number of acres to irrigate **per 40-acre tract** (1/4-1/4). Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Applicant requires an additional 8.9 acres of rental water to cover existing pivots. The mitigation plan of the
appurtenant water rights allows a gradual increase in irrigation until the full rights are available in 2035. Existing rights
allow for irrigation of 245 ac in 2026. RA 918 adds an additional 27.1 acres of irrigation. 8.9 acres more are needed.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.18 CFS	39.6 AF	0.18 CFS	39.6 AF	11.3 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. **This section must be completed in full.** The desired start date must be later than the date received by the Department. The latest possible start is the latest possible date you could begin diverting water to put the rental to beneficial use in the desired start year. **Rentals are not retroactive and are not approved until the annual rental fee payment is received for the year of beneficial use and an approval document is executed by the Department.**

Desired Start Date (month/day/year)	**Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)	**Applicant's preference if rental application cannot be processed prior to the latest possible start?
4/15/2026	6/1/2026	☐ 1 ☐ 2 ☒ 3 ☐ 4 ☐ 5 Other Term Length (# of years): Prior IWRB approval required	☒ Process application as soon as possible. I understand the rental fee is annual and is not calculated on a pro rata basis. ☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Two connected wells that divert to two pivot irrigation systems already installed with 80' endguns.

- E. **Point(s) of diversion.** Locate the point of diversion within each 40-acre tract and/or the U.S. Government Lot of the Public Land Survey System. Spring sources should be described to the nearest 10-acre tract. Identify the county where the point of diversion is located. An existing well must be identified for a request to rent ground water under a short-term rental.

TWP	RGE	SEC	GOVT LOT	¼	¼	¼	County	Source	Local name or tag #
07N	37E	2			NW	NE	Jefferson	Groundwater	D0037982
07N	37E	1			NW	NW	Jefferson	Groundwater	D0035848

- F. If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

Has documented consent from all relevant water delivery entities been obtained?
If yes, include documented consent as **Attachment 3F**.

Yes ☐ N/A ☒

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling?
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

Yes ☒ No ☐

- H. Has water modeling been provided with your rental request?
If yes, label modeling Attachment 3 H.

Yes ☒ N/A ☐

Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☐ Irrigation 8.9 (number of acres) Duration: Subject to IDWR standard seasons of use
- ☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required: Attach a separate page if space is insufficient and label it **Attachment 3L**

Water rights 31-11410, 31-11414, 31-11428, 31-11947, and 31-11954 share the same place of use. Rental water supplements the existing rights to allow additional irrigation.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. *Rental applications that require modeling must also complete the table below for the specific water rights to be rented. If no, continue to Question 4B.*

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers. Include any additional water required to meet area headgate requirements, minimum flow rates when combined with existing water rights at the rental location, or mitigation requirements because of [ESPA Modeling Analysis](#) results. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Active leases and rentals are searchable via the [Lease and Rental Map Search](#) tool. Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.**

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
22-2175B	Groundwater	0.41	90	25.7		0.18	39.6	11.3
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.18 CFS	39.6 AF	11.3 AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

Right 22-2175B has a rate of 0.016 cfs/ac. This application proposes to rent 0.18 cfs to irrigate 8.9 acres, bringing the rate per acre up to 0.02 cfs/ac.

C. Does your rental request propose to change the nature of use for any water right(s) requested above?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

**STATE OF IDAHO
WATER RESOURCE BOARD**

Application to Rent Water (Continued)

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:
Water is also rented under RA No. 918. Additional water is required for this pivot and requested under this application. The mitigation plan for the appurtenant water rights allows gradual increase in irrigation. Rental water will be required until the mitigation obligation is met and/or water rights are identified for purchase.
- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:
- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.
- D. Additional Information
Under the current mitigation of the existing water rights, 245 acres can be irrigated. In addition, RA No. 918 authorizes an additional 27.1 acres. It is proposed to irrigate 281 acres, meaning that an additional 8.9 acres are required for 2026 and less for 2027 and 2028.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Water Supply Bank Rental

Date: 3/11/2026

RMEA #: 14-0152

Drafted by: HP

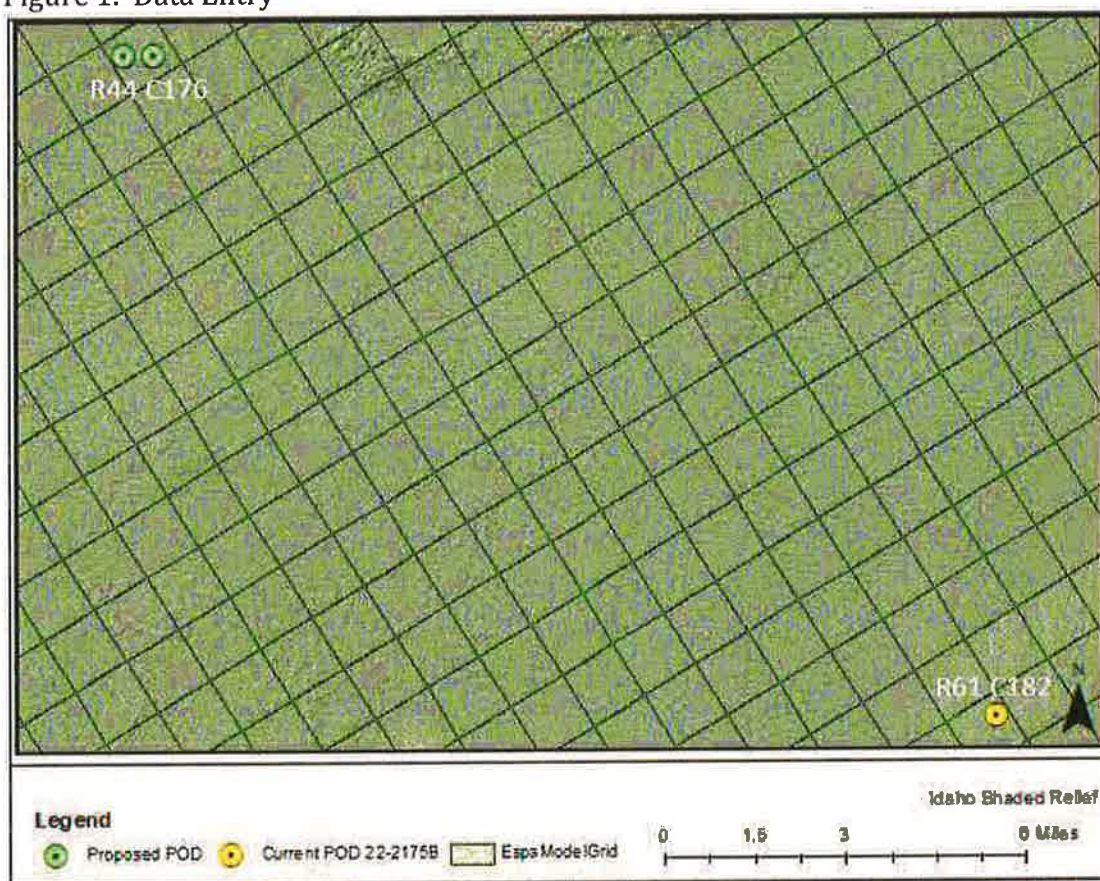

Eastern Snake Plain Aquifer Modeling Analysis

The Applicant requires 8.9 acres at the proposed place of use to irrigate acres under the end gun of a pivot. This application proposes to rent water from water right 22-2175B to cover the required acres. This right is being offered to the Bank under an application currently under review.

Well locations and ESPA Grid Cells used for modeling are shown in Figure 1.

Figure 1. Data Entry

The standard consumptive use volume of 2.5 afa/acre was used to calculate a volume for modeling. Both the TO and the FROM wells share the same standard diversion volume. Even though 11.3 acres are proposed to be rented, only 8.9 acres of volume are used at the FROM well, with a total consumptive volume of 22.25 afa or 7.42 afa/trimester. Since the Net Transfer Effects are well below 2.0 af/trimester, including the volume from the extra acres in the modeling scenario would only improve the results. **No mitigation is required.**

Figures 3-5 include excerpts from the ESPAM 2.2 simulation.

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 37-22168, AGREEMENT 1066**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$1,174.80 per year was calculated based on the current rental rate of \$33.00 per acre-foot times a diversion volume of 35.6 acre-feet. The annual rental fee for 2027 is due by December 31, 2026.

Please send a check in the amount of \$1,174.80 for 2026 made payable to the Idaho Department of Water Resources, together with the signed rental agreement, within 14 days so I can complete processing.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Darin Vrem
Water Supply Bank

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO. 37-22168, AGREEMENT 1066**

Dear Renter:

Please find enclosed a receipt in the amount of **\$1,174.80** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 35.6 acre-feet of water for irrigation of 8.9 acres during 2026. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or \$1,057.32 of the rental fee will be paid to the lessor(s) and 10% or \$117.48 will be retained by the department to offset administrative costs for 2026. The annual rental fee for 2027 is due by December 31, 2026.

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Darin Vrem
Water Supply Bank

MEMORANDUM FOR AGREEMENT 1066

To: Water Right(s) 37-22168
From: Darin Vrem
Date: August 18, 2026
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE:

The Water Supply Bank (Bank) received rental application no. 3520 on April 28, 2026, on behalf of Kirk S. Egbert. The application requests a 3-year rental beginning in 2026 to irrigate 8.9 acres of small grains via ground water within the ESPA. The application is a partial repeat of rental agreement no. 709 which used water right 22-2175B from 2023-2025. Water right 22-2175B is not available to satisfy this rental so water right 37-22168, leased under contract no. 2093, was identified to complete this rental.

The proposed rental point of diversion and place of use are within the Snake River Basin Moratorium Area, Eastern Snake Plain Aquifer Ground Water Management Area, the Trust Area, and Water District 110.

AUTHORITY TO FILE:

The application was signed by the applicant Kirk S. Egbert on April 20, 2026. Jefferson County parcel data shows that the applicant is the owner of the land at the proposed place of use and has the authority to file the application.

INJURY TO OTHER WATER RIGHTS:

Both the leased right and proposed rental location are within the Eastern Snake Plain Aquifer modeling boundary. Since they are within the boundary, analysis of hydrologic effects within the aquifer and to the Snake River is required for processing. Modeling using the ESPA transfer tool ETRAN V3.4 was provided as an attachment to the application. As the water right modeled for the application is not being used for this agreement, review staff ran the model with the water right that will be used for this rental. Consumptive use by trimester for the model was calculated using a consumptive volume of 3.0 af multiplied by acres and divided by 3. Review of the ETRAN V3.4 modeling indicated that river depletions caused by the rental did not require mitigation to offset the impacts of the proposed water use at the rental location. Use of the water under this agreement will be administered by the Watermaster of Water District 110. There are no concerns of injury to other water rights.

ENLARGEMENT OF USE:

Groundwater right 37-22168 is the only irrigation right diverted from the lease POD (tag A0004175) leased under contract no. 2093. Right 37-22168 has an irrigation use limit of 78.0 acres at the POU.

Groundwater rights 31-11410, 31-11414, 31-11428, 31-11947, and 31-11954 are diverted from the rental PODs (WMIS #408555, tag D0037982 & WMIS #399502, tag D0035848). Rights 31-11410, 31-11414, and 31-11428 have a mitigation condition which allows for gradual increase in use until the full amount is allowed in 2039. These rights have the following combined limits in the rental years: 2026, 3.77 cfs, 191 acres, and 580.4 af, which corresponds to 0.02 cfs/acre and 1.5 af/acre; 2027, 3.83 cfs, 194 acres, 589.4 af, 0.02 cfs/acre and 1.5 af/acre; and 2028, 3.89 cfs, 197 acres, 598.4 af, 0.02 cfs/acre and 1.4 af/acre. For 2026, rights 31-11947 and 31-11954 bring the total allowed amount at the rental PODs to 5.04 cfs, 245.0 acres, and 769.5 af

(0.02 cfs/acre, 3.14 af/acre). See table on page 5. Years 2027 and 2028 have the same rate and volume per acre with the addition of rights 31-11947 and 31-11954. The right being rented, 37-22168, and the rights diverted from the rental PODs have a season of use from 4/1 to 11/01.

The headgate requirement for the rental point of diversion is 3.5 af while the leased volume of right 37-22168 is based on a headgate volume of 4.0 af. To maintain the headgate requirement of 3.5 af/ac excess volume of 4.4 af that is rented will not be authorized for use.

	Rate (cfs)	Volume (af)	Acres (ac)	cfs/acre	af/ac
Rental Amounts	0.18	35.6	8.9	0.020	4.0
Authorized for Use	0.18	31.2	8.9	0.020	3.5

There are no concerns with enlargement.

LOCAL PUBLIC INTEREST:

The proposed rental of water is in the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The proposed rental is consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The proposed rental POD is within the administrative area of IDWR's Eastern Region and Water District No. 110. Comments regarding the proposed rental were requested from the regional manager and Watermaster on August 25, 2026. No concerns were received.

ESPA ANALYSIS RESULTS: SOU - 4/1 – 11/01

RE: APPLICATION(S) No. 3519 and 3520 – LATE FILING ACKNOWLEDGEMENT

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water from the Idaho Water Resource Board's Water Supply Bank (Bank). Before a decision is made regarding the application the rental request must be reviewed. Pursuant to Rule 30 of the Water Supply Bank Rules (IDAPA 37.02.03.030.04), the Department begins processing rental applications on November 2 for use in the next calendar year. Additionally, application processing is prioritized among other Water Supply Bank program work between November 2 and the start of the irrigation season in March or April.

Water users are encouraged to file rental applications in October to secure a competitive place in the application queue. The current WSB application queue along with the status of each filing is available on the Department's website at: <https://idwr.idaho.gov/iwrb/programs/water-supply-bank/reports/>.

Because of the existing application backlog and limited supply of water available to rent, rental applications received after April 1st, will likely not be processed in time for water use in 2026.

Application No(s). 3519 and 3520 will be added to the rental application queue until it is either reviewed and a decision is made, or it is returned. Applications that are not processed prior to the latest start date indicated on the application form will be returned and a new application must be submitted for water use beginning next year.

If you have questions regarding this matter, please contact our office at 208-287-4800.

Sincerely,

Kris Margheim
For the Water Supply Bank Program

CC: Kristin Moore @ RMEA (via email)
