DEPARTMENT OF
WATER RESOURCESSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

AMENDED WATER SUPPLY BANK RENTAL AGREEMENT No. 1016

This is to certify that:

TETON ISLAND FEEDER CANAL CO
386 N 2400 E
ST ANTHONY, ID 83445

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
22-288	5/15/1883	TETON RIVER	0.13	1,354.9	387.1	0.0003	3.50
22-571	6/1/1888	TETON RIVER	0.14	1,354.9	387.1	0.0004	3.50
22-589B	6/1/1884	TETON RIVER	1.04	1,354.9	387.1	0.0027	3.50
22-12694	3/1/1883	TETON RIVER	0.49	1,354.9	387.1	0.0013	3.50
22-12695	5/22/1884	TETON RIVER	3.15	1,354.9	387.1	0.0081	3.50
22-12696	6/1/1885	TETON RIVER	10.00	1,354.9	387.1	0.0258	3.50
22-12697	4/1/1898	TETON RIVER	9.56	1,354.9	387.1	0.0247	3.50
Combined Limit Totals			24.52	1,354.9	387.1	0.0633	3.50

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2030. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2026, whichever occurs last.

Annual Rental Fee:

2026 - 2030: \$4,471.17 annually

The full fee for the rental of the above-described right(s) is \$4,471.17 per year for years 2026 - 2030. The rental fee includes an administrative fee of \$4,471.17 per year for years 2026 - 2030. Note that the renter is obligated to pay only the administrative fees associated with the water right(s): 22-12694, 22-288, 22-12695, 22-589 B, 22-12696, 22-571, 22-12697.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)
GROUND WATER RECHARGE	24.52	1,200.0
Combined Total	24.52	1,200.0

* The authorized water usage reflects a reduction from the water right elements rented, to account for a change in nature of use.

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

AMENDED WATER SUPPLY BANK RENTAL AGREEMENT No. 1016

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. The right holder shall notify the watermaster when diversion of water under this rental is required for beneficial use. They shall also notify the watermaster when diversion of water for beneficial use is no longer required.
10. Water is delivered through Teton Island Feeder Canal.
11. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

AMENDED WATER SUPPLY BANK RENTAL AGREEMENT No. 1016

12. The right holder shall record the daily quantity of water diverted for ground water recharge and shall report the diversion data for the prior calendar year to the Department by February 1 each year. Reporting shall occur in the manner specified by the Department, consistent with Idaho Code § 42-701. To facilitate this reporting requirement, the right holder shall install and maintain a totalizing measuring device approved by the Department at each point of diversion and at each point where water is delivered from the conveyance system into a designated recharge site.
13. Renter is authorized to deliver water to the rental places of use for ground water recharge only when water is not being delivered to the rental places of use for other, non-recharge related activities. It is anticipated that water for recharge will be delivered to the rental places of use only after active irrigation related deliveries of water to the rental places of use concluded, in spring or early summer.
14. Renter will account for and discount for recharge deliveries, water delivered to the rental places of use for irrigation related activities, which is anticipated to occur one day per week, each week, mid-May and mid-August, annually.
15. This rental is not an authorization for the described recharge effort to be used as mitigation or credit for any other purpose. The sufficiency of the recharge effort authorized under this right for mitigation or credit for some other purpose may be determined by the Department upon proper submission of a mitigation plan pursuant to the Department's Rules of Conjunctive Management of Surface and Ground Water Resources, a mitigation plan to offset depletion in association with a water right application, a Management Program pursuant to Idaho Code § 42-1416B, or any other proposal to utilize credit for the recharge effort.
16. The water rights rented under this agreement are appurtenant to the irrigation of 173 acres.
17. Pursuant to Idaho Code § 42-234(4), to ensure that other water rights are not injured by the operations of the recharge project authorized by this right, the Director has authority to approve, disapprove, or require alterations in the methods employed to achieve ground water recharge.
18. Pursuant to Idaho Code § 42-234(3), the Director may reduce the amount of water that may be diverted for recharge purposes under this right even though there is sufficient water to supply the entire amount authorized for appropriation under this right.
19. Consistent with Idaho Code § 42-234(5), seepage from canals incidental to or coincident with delivery of water pursuant to water rights for any other beneficial use shall not be considered ground water recharge under this right. Canal seepage will be considered to be ground water recharge only when the canals are not conveying water for irrigation or other beneficial use.
20. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
21. This right does not grant any right-of-way or easement across the land of another.

4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. The right holder shall notify the watermaster when diversion of water under this rental is required for beneficial use. They shall also notify the watermaster when diversion of water for beneficial use is no longer required.
10. Water is delivered through Teton Island Feeder Canal.
11. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 1016

12. The right holder shall record the daily quantity of water diverted for ground water recharge and shall report the diversion data for the prior calendar year to the Department by February 1 each year. Reporting shall occur in the manner specified by the Department, consistent with Idaho Code § 42-701. To facilitate this reporting requirement, the right holder shall install and maintain a totalizing measuring device approved by the Department at each point of diversion and at each point where water is delivered from the conveyance system into a designated recharge site.
13. Renter is authorized to deliver water to the rental places of use for ground water recharge only when water is not being delivered to the rental places of use for other, non-recharge related activities. It is anticipated that water for recharge will be delivered to the rental places of use only after active irrigation related deliveries of water to the rental places of use concluded, in spring or early summer.
14. Renter will account for and discount for recharge deliveries, water delivered to the rental places of use for irrigation related activities, which is anticipated to occur one day per week, each week, mid-May and mid-August, annually.
15. This rental is not an authorization for the described recharge effort to be used as mitigation or credit for any other purpose. The sufficiency of the recharge effort authorized under this right for mitigation or credit for some other purpose may be determined by the Department upon proper submission of a mitigation plan pursuant to the Department's Rules of Conjunctive Management of Surface and Ground Water Resources, a mitigation plan to offset depletion in association with a water right application, a Management Program pursuant to Idaho Code § 42-1416B, or any other proposal to utilize credit for the recharge effort.
16. The water rights rented under this agreement are appurtenant to the irrigation of 173 acres.
17. Pursuant to Idaho Code § 42-234(4), to ensure that other water rights are not injured by the operations of the recharge project authorized by this right, the Director has authority to approve, disapprove, or require alterations in the methods employed to achieve ground water recharge.
18. Pursuant to Idaho Code § 42-234(3), the Director may reduce the amount of water that may be diverted for recharge purposes under this right even though there is sufficient water to supply the entire amount authorized for appropriation under this right.
19. Consistent with Idaho Code § 42-234(5), seepage from canals incidental to or coincident with delivery of water pursuant to water rights for any other beneficial use shall not be considered ground water recharge under this right. Canal seepage will be considered to be ground water recharge only when the canals are not conveying water for irrigation or other beneficial use.
20. The right holder agrees not to exercise this right unless there has been a determination made by the USBR in consultation with Water District 01 and the Committee of Nine, as outline in Pub. L. No. 115-244 § 203, 132 Stat. 2897, 2906 (2018), that there is water available in excess of that needed to ensure operational flexibility and to satisfy existing Minidoka Project storage water rights 01-219, 01-2064, 01-4055, 01-10042, 01-10044, 01-10045, 01-10621B, 21-2156, 21-4155, 21-10560, and Minidoka hydropower rights 01-217 and 01-218.
21. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
22. This right does not grant any right-of-way or easement across the land of another.

STATE OF IDAHO
WATER RESOURCE BOARDAPPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK

RECEIVED

JAN 20 2023

DEPARTMENT OF
WATER RESOURCES

Applicant Name: Teton Island Feeder Canal Company

Is this application being submitted with a lease application as a lease/rental package?

Yes ☒ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Teton Island Feeder Canal Company

Mailing Address 386 North 2400 East St. Anthony Idaho 83445
Street City State Zip Code
Email Address aaron.fmid@myidahomail.com Phone Number 208-624-3381

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☒ No ☐
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Aaron Dalling Professional Title 208-624-3381
Organization FMID Relationship to Applicant _____
Mailing Address PO BOX 15 St. Anthony, Idaho 83445
Email Address aaron.fmid@myidahomail.com Phone Number 208-624-3381

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

We propose to rent our own natural flow water associated with acres that are not currently being irrigated back from the Water Supply Bank and recharge the water into the aquifer. We would like to recharge the water associated with 160 acres in our irrigated place of use that are not currently being irrigated in 2025.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
10.1 CFS	1680 AF	CFS	AF	AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
4/1/2026	10/31/2030	☐ 1	☐ 2	☐ 3	☐ 4	☒ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

The water will be diverted at the Teton Island Feeder Canal diversion and will be delivered to Sunset Lake and Cornelison Pond (See attachment 2)

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
TIFCC Headgate	North Fork Teton River	None

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☒
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☐ N/A ☒
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

☐ Irrigation _____ (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☒ Other: **Aquifer Recharge** from: **04/01** (mm/dd) to: **10/31** (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☒ Yes ☐ No ☐
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☐ No ☒
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

None

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
22-288	Irrigation	.46	76.1	7.2		.06	8	1
22-571	Irrigation	.48	79.9	7.6		.06	10	1
22-589	Irrigation	3.63	601.8	57.2		.45	77	9
22-12694	Irrigation	1.73	286.6	27.2		.22	37	3
22-12695	Irrigation	11.03	1830.1	174		1.4	232	23
22-12696	Irrigation	35.01	5811.9	552.5		4.45	737	68
22-12697	Irrigation	33.47	5556.0	528.2		3.26	705	68
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	10.9	1806	172
						CFS	AF	AC

*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☒ No ☐

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

It is proposed the nature of use for the water associated with this lease be changed from irrigation to aquifer recharge for the 5 year term of the lease

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

- D. Additional Information

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Water Modeling Requirement Information Sheet

Information on water modeling requirements for rental requests within special administrative areas

Important information on requesting rental water within special administrative areas: Refer to the information below to determine whether the modeling of potential impacts from your rental request is necessary. Use Section 4 of the rental application to identify selected water rights. **If you submit an application to rent water from within a special administrative area and water modeling is required, your rental request will be returned if water modeling is not provided.**

Water modeling may be required when an application to rent water involves one of two scenarios:

Scenario 1: The rental request proposes to divert water from a regulated water source and/or within a special administrative area AND the distance between the rental point(s) of diversion (POD) and the POD(s) for the leased water right(s) is greater than the administratively established, acceptable distance.

Regulated water sources may areas include:

- A. Ground water resources within the modeled area of the Eastern Snake Plain Aquifer (ESPA) and tributary aquifers;
- B. Ground water within Ground Water Management Areas (GWMAs) or Critical Ground Water Areas (CGWAs);
- C. Water resources within other specified administrative areas, as established by the Idaho Water Resource Board (IWRB) or the Idaho Department of Water Resources.

The distance between any rental POD(s) and the POD(s) for a leased water right to be rented is important. On the ESPA, distance is measured in terms of model cells that cover an area of one square mile. Ground water modeling is not required if lease POD(s) and rental POD(s) are located within the same model cell or within adjacent model cells. If the lease and rental PODs are separated by more than one model cell groundwater modeling must be completed using the IDWR ESPA Transfer Tool and modeling results must be submitted with the rental application. ESPA modeling tools can be accessed and freely downloaded from IDWR's website by visiting: www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.

Ground water modeling may be required within GWMAs, CGWAs or other regulated administrative areas. Applicants who desire to rent water within an established GWMA, CGWA or other regulated administrative area should consult IDWR's website before submitting their application to review the current status of administrative orders related to regulated administrative areas. Consult www.idwr.idaho.gov/WaterInformation/GroundWaterManagement/designated_areas.htm for information on GWMAs or CGWAs, visit <https://idwr.maps.arcgis.com/home/> to use mapping tools to find other regulated areas.

Applicants interested in renting water within a GWMA, CGWA or other regulated administrative areas should request water rights that have been leased into the Bank from within the same administrative area. Generally, the Bank will not permit a rental of water within a regulated administrative area if the leased water rights are not located within that same administrative area.

Scenario 2: A rental request proposes to divert water from a different but hydraulically connected water source.

Modeling situations may include:

- A. Rental requests that propose to divert surface water rights via ground water POD(s) (wells); and
- B. Rental requests that propose to divert ground water from one aquifer when the right being rented authorizes the diversion of ground water from a hydraulically connected, tributary aquifer.

Rental requests that propose to divert surface water rights from ground water points of diversion may be considered if ground water modeling establishes that the surface and ground water resources are directly and immediately hydraulically connected. An acceptable hydraulic connection occurs when at least 50 percent of the total depletions from a well are detectable from the original water source within a 24 hour period. The existing (leased) POD and proposed (rental) POD must be proximate such that diversion and use of water from the proposed POD would have substantially the same effect on the hydraulically-connected source as diversion and use of water from the original POD.

Requests to rent ground water across tributary aquifer sources may be considered if ground water modeling is provided to demonstrate that two aquifers are hydraulically connected and the anticipated impacts of diverting ground water from one source through the other is modeled accordingly.

For more information about rental application requirements, contact IDWR at (208) 287-4800.

22-12697,, AMENDED AGREEMENT 1016**

Dear Renter:

Please find enclosed a copy of a fully executed Water Supply Bank Rental Amended Agreement in connection with the rental of 1,354.90 acre-feet of water for irrigation of 387.1 acres during 2026. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

The rental fee will be retained by the Department to offset administrative costs since you are the owner of the rights. The annual rental fee for 2027 is due by December 31, 2026.

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Darin Vrem

MEMORANDUM

DATE: 08/31/26
TO: Rental Agreement No. 1016
FROM: Phill Hummer
RE: Condition Modification Request

On July 20, 2026 Aaron Dalling (representing Teton Island Feeder Canal Company) sent an email requesting that condition no. 20 be removed from the agreement because it “essentially makes this rental unusable.” Condition no. 20 on rental agreement no. 1016 says:

“The right holder agrees not to exercise this right unless there has been a determination made by the USBR in consultation with Water District 01 and the Committee of Nine, as outline in Pub. L. No. 115-244 § 203, 132 Stat. 2897, 2906 (2018), that there is water available in excess of that needed to ensure operational flexibility and to satisfy existing Minidoka Project storage water rights 01-219, 01-2064, 01-4055, 01-10042, 01-10044, 01-10045, 01-10621B, 21-2156, 21-4155, 21-10560, and Minidoka hydropower rights 01-217 and 01-218.”

The condition has been used on other rental agreements to address concerns that changing the nature of use from irrigation to ground water recharge might negatively impacting other water users. See rental agreement no. 989 for watermaster comments, discussion, and example rental agreement of the use of the condition. However, the concerns raised regarding authorization of idled and leased portions of water rights for recharge and the impacts that may occur are not the same as legal injury to water rights, if the rights involved in the rental agreement are administered in accordance with the elements of the agreement and the priority date of the rented rights. See rental agreement no. 1017 and the review memo for analysis regarding the language of the condition and discussion of injury.

Because of the difference between impactful water use and legal injury and the concern raised by the Teton Island Feeder Canal Company, an amended agreement should be issued with condition no. 20 removed.

Hi Skyler,

I didn't catch it at first, but Condition#20 essentially makes this rental unusable. We had the same condition on a rental for Egin Bench Canals and our attorney Jerry Rigby contacted IDWR and that condition was dropped last week. I need to request the same thing on this one. What do I need to do to facilitate dropping condition number 20?

Thanks,

Aaron

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NOS. 22-288, 22-571, 22-589B, 22-12694, 22-12695, 22-12696, AND 22-12697, AGREEMENT 1016**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **\$4,471.17 per year** was calculated based on the current rental rate of \$33.00 per acre-foot times a diversion volume of 1,354.9 acre-feet. Since you are both the lessor and the renter of the rights, **you are only obligated to pay the 10% administrative fee or \$4,471.17.** The annual rental fee for 2027 is due by December 31, 2026. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check in the amount of \$4,471.17 for 2026 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

Pursuant to the Water Supply Bank Rules, \$4,471.17 will be retained by the Department to offset administrative costs for **2026**.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

Skyler Cheever

Hello James and Craig,

I have completed my review of Water Supply Bank Lease 3433 and Rental 3430 Application package with the proposed points of diversion within Administrative Basin 22 and Water District 1. The applicant for both applications is the Teton Island Feeder Canal Company. The applicant proposes to lease portions of WR's 22-288, 22-571, 22-589B, 22-12694, 22-12695, 22-12696, 22-12697 into the WSB from 2026-2030. They propose to rent a portion of the same lease contract 2198 from the Water Supply Bank from 2026-2030. They propose to change the nature of use from irrigation to groundwater recharge. Attached is a copy of the rental agreement, review memos, and maps of the place of use. If you have any comments regarding the applicant's proposals or my reviews, please let me know within 7 days. If you have any questions or concerns, please let me know.

Best,

Skyler

MEMORANDUM FOR LEASE APPLICATION # 3433

To: Water Right No(s). 22-288, 22-571, 22-589B, 22-12694, 22-12695, 22-12696, and 22-12697

From: Skyler Cheever – Water Resource Agent , Sr – State Office

Date: 5/18/2026

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 3433 was sent in by the Teton Island Feeder Canal Co. and received by the Idaho Dept. of Water Resources on January 1st, 2026, with the correct fee payment received the same date. This application is part of a lease/rental application package with rental application 3430. The applicant proposes to lease a part of the irrigation portions of Water Rights 22-288, 22-571, 22-589B, 22-12694, 22-12695, 22-12696, and 22-12697 into the Water Supply Bank (WSB) from 2026-2030. The proposed portions are depicted in the table below. WR's 22-288, 22-12694, and 22-12695 include stockwater use and WR's 22-571, 22-589B, 22-12695, 22-12696, and 22-12697 include subirrigation. The applicant indicated they do not propose to lease stockwater or subirrigation portions. The proposed points of diversion (POD) are within the Snake River Basin Moratorium Area and Trust Water Area. This application is intended as a renewal of lease contract 1364 which expired on December 31st, 2025.

Table 1. Breakdown of lease proposal based on previous Lease Contract 1364, calculated acres based on the proposed diversion rate and volume based on the standard headgate of 3.5 af/acre.

Water Right No.	Rate (CFS)	Volume (AF)	Acres
22-288	0.43	4,416.0	1,261.7
22-571	0.45	4,416.0	1,261.7
22-589B	3.38	4,416.0	1,261.7
22-12694	1.61	4,416.0	1,261.7
22-12695	10.28	4,416.0	1,261.7
22-12696	32.60	4,416.0	1,261.7
22-12697	31.17	4,416.0	1,261.7
Combined Limit Total	79.92	4416.0	1,261.7

AUTHORITY TO FILE:

Rodney Dalling signed the application. Mr. Dalling has the authority to sign because he has signed on behalf of the Teton Island Feeder Canal Company for the previous lease application and a transfer application approved in 2021. Aaron Dalling signed the application as the authorized representative. An additional document attached to the application designated Aaron Dalling as the authorized representative and was signed by Rodney Dalling. The Teton Feeder Canal Co. is the current owner of the proposed WR's according to Department Records.

WATER RIGHT VALIDITY:

The proposed WR's were decreed by the SRBA court in 2010. The proposed WR portions were leased into the WSB from 2019 – December 31st, 2025. According to Idaho Code §42-1764 if a WR is leased into the WSB the forfeiture clock resets once the lease expires. Therefore, enough information available to the bank to conclude the proposed WR's are likely not lost to forfeiture and can be leased into the WSB.

ENLARGEMENT OF USE:

The previous review of this lease proposal in 2021 determined some acres proposed appeared irrigated but were subsequently removed from the proposal by request from the applicant. 2025 NAIP Aerial Imagery confirmed all acres leased previously were not irrigated. Therefore, there are no additional enlargement concerns regarding irrigation during the previous lease contract period.

The applicant proposed to only lease the irrigation portions with both stockwater and subirrigation components of the proposed WR's remaining unleased. However, total diversion rate for each proposed WR is equal to the total irrigation diversion rate. Therefore, to prevent an enlargement of the unleased portions the stockwater and subirrigation were reduced to the remaining unleased irrigation diversion rate. The table below depicts the remaining unleased portions. A condition will be added to the agreement limiting the proposed WR's when combined to 518.83 cfs during the irrigation season, 498.60 cfs during the non-irrigation season, and the irrigation of 8186.5 acres. There are no other enlargement concerns.

Table 2. A breakdown of the remaining unleased portions of the proposed WR's.

WR #/Use	Rate (CFS)	Volume (AF)	Acres
22-288			
Irrigation	2.77		
Stockwater	2.77		
Total	2.77		
22-571			
Irrigation	2.91		
Subirrigation	2.91		
Total	2.91		
22-589B			
Irrigation	21.92		
Subirrigation	21.92		
Total	21.92		
22-12694			
Irrigation	10.44		
Stockwater	10.44		
Total	10.44		
22-12695			
Irrigation	66.68		
Stockwater	30.11		
Subirrigation	36.57		
Total	66.68		
22-12696			
Irrigation	211.72		
Subirrigation	211.72		
Total	211.72		
22-12697			
Irrigation	202.39		
Subirrigation	182.16		
Total	202.39		
Combined Limit Total	518.83		8186.5

LOCAL PUBLIC INTEREST:

Accepting valid rights into the water supply bank to provide water for new and supplemental uses is in the local public interest.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The proposed POD is located within Administrative Basin 22 and Water District 01. A request for comment was sent to the Watermaster and IDWR Eastern Regional Manager on May 22nd, 2026. No concerns were received.

January 15, 2026

Dear Mary,

Please find our applications to lease water and application to rent water enclosed. We are submitting the lease applications and rental application as a package in order to lease back our own water. The purpose of the applications is to change the nature of use for the leased water from irrigation to aquifer recharge for the period of the lease.

We did not submit a W-9 form because we will not be receiving a payment from the Water Supply Bank.

This application mirrors the previous lease which expired at the end of 2025. We think we can use the same maps/shapefiles.

Please contact me with questions.

Sincerely,

Aaron Dalling,

Enclosures:

3430 + 3433
