WATER RESOURCES**

Dear Ms. Wistisen,

Today I have received the warranty deed to satisfy the Evidence of Water Ownership. We have determined that your property is a part of the Water Right referenced above. The map that was included with the Notice confirms that you own Lot 2. Therefore in order to split the Water Right to your portion, we need an additional fee of \$75.

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership. The fee is \$25 per water right, except for ownership changes resulting in the division of a water right, which is \$100 per water right. All ownership change notices received after June 30, 2000 must include the appropriate filing fees in order to be processed. We have determined that the remaining filing fee for your notice will be \$75.

Once we receive the additional \$75, we will proceed to split the Water Right and issue you a new Water Right number.

Please let me know if you have any questions.

Thank you!

RE: Change in Ownership Water Right No(s): 29-7392B

Dear Interested Parties:

The Department of Water Resources (Department) acknowledges receipt of your Notice of Change in Water Right Ownership and a filing fee of \$25.

Our review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

- Evidence of Water Right Ownership: copy of warranty deed, quitclaim deed, court decree, or other legal document indicating your ownership of the property and/or water rights in question that includes a legal description of the property and/or water rights if no land is conveyed from Stanley & Kathleen Wistisen to Traci Wistisen.

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership. The fee is \$25 per water right, except for ownership changes resulting in the division of a water right, which is \$100 per water right. All ownership change notices received after June 30, 2000 must include the appropriate filing fees in order to be processed. We have determined that the remaining filing fee for your notice will be \$75.

Because the Department cannot process the Notice without proper documentation and fees, we will hold any action on your notice pending receipt of the necessary information and fees. If we do not receive the necessary information and fees within 30 days we will return your notice and all attachments and your notice will not be processed.

Also, please note that water right holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Forms to update ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact me at 208-287-4978.

Sincerely,

Dear Ms. Wistisen,

Regarding your Notice of Ownership Change for 29-7392B, when we receive the additional \$75, I will process the split and issue you a new Water right number for Lot 2, Block 1. Please mail the check with a sticky note or letter or a copy of my letter so it gets routed to me.

Ms. Cunningham mentioned that she lives in Lot 3 Block 1 and asked if she needed to do anything. After I spoke to my colleagues here at the Department, they advised me that Ms. Cunningham can also request a split for her Lot similar to your request. The steps are to send us a Notice of Ownership Change, \$100 fee, warranty deed or other conveyance document, map. Attached is a blank form and the instructions. Otherwise, Ms. Cunningham's Lot is part of the original Water right 29-7392B which is in the name of Stanley & Kathleen Wistisen, see attachment.

Good afternoon,

My mother Joyce Cunnington contacted me with some questions, I had her reach out to you. She later got back to me and mentioned that there is some confusion and you needed to look into it more along with the \$75 I was asked to mail out. Could you please explain what is going on and if I owe the \$75.00?

Thank you

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at 208-287-4978.

Sincerely,

Petula Lee
