Good afternoon Sandra,

I will give you a call after I spend time looking over the attachments and re-reviewing the company's claims, probably here in the next week. I appreciate your quick work getting these over to me.

Sincerely,

Christopher Holmes

Subject: Bennington Water System Claim No. 11-4244

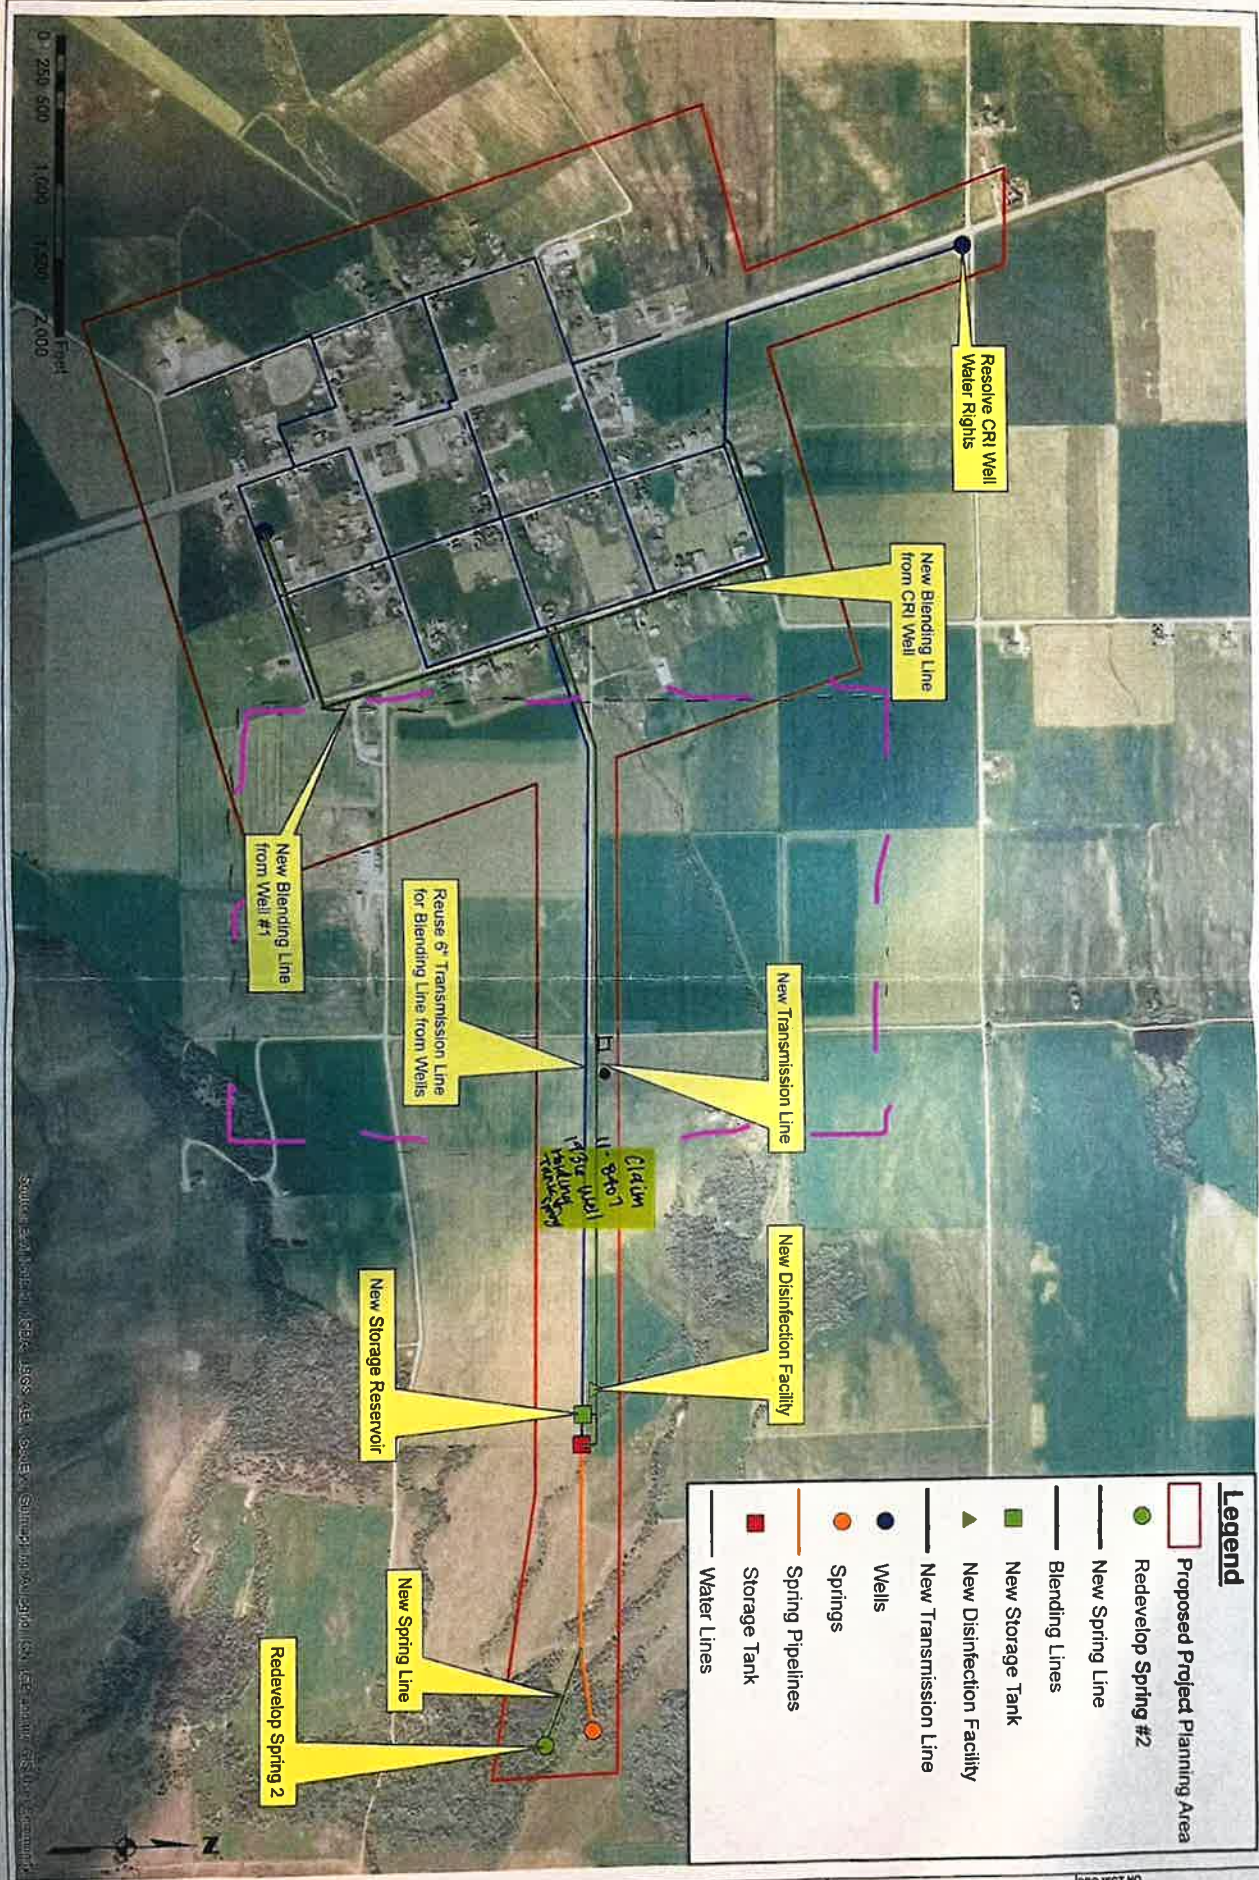

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Chris,

This is Sandra Tarbet, I spoke to you on the phone on Friday. I talked to Morton and Hunter and wanted to email a couple of maps that hopefully will clarify the Well/spring we're talking about. They have the well from 1936 (claim 11-8407) and the water system has, CRI Well, Well #1 and then a "new spring" and "old spring" on the maps.

Once you get a chance to look them over if you would please give me a call back and let me know what other documentation you need and when I can schedule a time to come over to Preston to meet with you, that would be greatly appreciated. Thank you!

Sandra Tarbet
