Hi McKenna,

Currently, the water is delivered to the area via an irrigation ditch. A 6" aluminum water line brings the water from the ditch, down the hill to the upper property line. From there, the water is distributed by poly pipe to the areas of use. Presently, on the parcel I purchased, 3/4" water lines feed above ground hand movable sprinklers. We plan to install an above ground K-Line system with 5 sprinkler pods.

The previous owners used the property to pasture several mules and irrigated enough to keep the grass green. We started irrigating in July of this year (photo attached). I attached the 2026 watermaster delivery records for 75-14426. Water was delivered for 75-14426 during the irrigation months of 2025 as well. Water District 75F is relatively new and does not have delivery records any older than 2025.

Please let me know if you need any additional information.

Dave,

I'm working on my final review of your application and need some information. I need information on how often your portion of the property has been irrigated over the last 5 years and what the irrigation system looks like.

Best Regards

Thank you for following up! I didn't mean to apply any pressure just was hoping I didn't forget something else.

Dave

Dave,

I did receive the check and am in the process of getting that to advertising.

Thank you

Hi McKenna,

I'm just following up on the water right transfer for 75-14426. Please let me know if you received the check and if I need to provide any additional information/clarification.

Thank you

Hi McKenna,

I apologize for the incomplete application and lack of payment. Not sure how that happened but I appreciate you following up.

Yes, this water right will have 2 PODs, the existing one in section 29 and a new one in section 30.

I will put a \$300 check in the mail to your attention.

Page 5 looks good.

Page 8, with signatures, is attached.

Thank you.

Good morning,

I am reviewing your Application for Transfer, and I came across a few items that need addressed.

- Just to confirm, you are proposing a total of 2 points of diversion?
- We did not receive a payment for the fee of \$300. This can be paid either in our office or by check, which can be mailed to our Idaho Falls location.
- On page 5, since the place of use is not changing, I corrected question 4 as a result.
- This application is missing signatures from both David and Judy.

I have attached page 5 and 8 of the application for you. Take a look at page 5 and let me know if that looks okay, and page 8 just needs your signatures and date.

Let me know if you have questions.

Best Regards
