E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

Measured Method: July 2026/September 2025 Google Earth and 2025 NAIP Aerial Imagery confirmed the development of 1.0 acres of irrigation within the development period. According to Administrative Application Processing Memo #17 the standard diversion rate/acre for the irrigation of 5 acres or less is 0.03 cfs/acre. I am recommending a 0.03 cfs diversion rate.

(1.0 acres of confirmed irrigation) * (0.03 cfs/acre) = 0.03 cfs

Administrative Application Processing Memo #17 Calculation = 0.03 cfs

Permit Authorization = 0.03 cfs

Total Recommendation = 0.03 cfsComments: N/A

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (1.0 \text{ acres}) \times (3.0 \text{ af/acre}) = 3.0 \text{ af}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = (0.03 \text{ cfs}) \times (246 \text{ days}) \times (1.9835 \text{ af/day}) = 14.6 \text{ af}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 3.0 \text{ af}$$

2. Volume Calculations for Other Uses: N/A

Irrigation Diversion Volume Calculation = 3.0 af

Total Diversion Volume = 3.0 afComments: N/A

H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-office licensing examination. The permit authorized the irrigation of 1.0 acres of irrigation diverting from groundwater. July 2026/September 2025 Google Earth and 2025 NAIP Aerial Imagery confirmed the development of 1.0 acres of irrigation within the development period. There are no other WR's overlapping the permitted POD and POU. The standards set in Administrative Application Processing Memo #17 were utilized to make a diversion rate recommendation. All conditions of permit approval have been met, and development of beneficial use was confirmed within authorization on the permit. Therefore, I am recommending a 0.03 cfs diversion rate and 3.0 af annual diversion volume.

Conditions R66 should remain on the license. Condition 046 should be removed because the permit holder had a well drilled meeting the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department. Condition 004 should be removed because Idaho Tax Parcel Data confirmed there are no legal access concerns to the POD or POU.

Have conditions of permit approval been met? X Yes No

Re: Change in Ownership for Water Right No(s): 95-18771

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at 208-762-2813.

Sincerely,

Natalie Steading
