

MEMORANDUM

Date: June 12, 2019
To: 55-13896
From: Alex Dalgleish
Re: Beneficial Use Exam- Pond Depths and Permit amendments

Small Northern Ponds:

Dennis Fitzpatrick is part owner of the 45 Ranch LLC. On June 10, 2019, I contacted him and left him a voicemail inquiring about the depths of the 5 ponds on the North end of the property. He left a voicemail the evening of June 12 and stated he did not know the depths of the ponds. Additionally, he explained that once the large pond was established on the property, the 5 ponds formed naturally. The ponds are really the accumulation of water in an old historic channel of the South Fork Owyhee River.

Amendments:

I called Mr. Fitzpatrick again on June 12, 2019 to inform him that he needed to amend permit 55-13896 to reflect a change in location of the POD on the South Fork Owyhee River and to add uses onto the license. The uses that need to be added to the license are diversion to storage and wildlife storage. I also informed him he would need to submit a transfer for water right 55-4067 regarding the same POD. A license amendment will be sent to Mr. Fitzpatrick to reflect the additional uses of water on the property.
