8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
13. The surface area of the reservoirs established in connection with this right shall not exceed 11.8 acres.
14. Right Nos. 37-2446 and 37-4369 when combined shall not exceed a total diversion rate of 10.0 cfs at the field headgate.

Narrative in Support of 2026 Water Supply Bank Lease Application; 37-4369

Brockway Engineering PLLC

February 5th, 2026

This narrative provides the analysis in support of the volume proposed to be leased to the Water Supply Bank associated with the recreation storage use under water right 37-4369. The Beaver Creek fire that occurred in August of 2013, burned areas of private and public land in the Deer Creek drainage, west of Hailey Idaho. As a result of this large fire and the precipitation that followed as rain and snow, large volumes of sediment were transported down the Deer Creek and its tributary drainages from 2013 through 2017. Recreation storage associated with 37-4369 was impacted and has been reduced as a result of sedimentation.

In 2003, the storage volume limitation of 102.4 acre-feet for recreation storage use under 37-4369 was approved under Idaho Department of Water Resources Transfer No. 68545. The 102.4 acre foot storage associated with the right was derived from a protest resolution agreement entered into between Blaine County and Sun Valley Land & Minerals Inc. and was approved by IDWR in the transfer. The volume associated with 37-4369 was further reduced to the current volume of 99.7 acre feet for recreation storage in association with IDWR's licensing of 37-8205 in 2013.

The average depths of the storage features included in the agreement and subsequent approval of IDWR Transfer No. 68545 are being used to estimate volumes of ponds 1, 2 and 4 under 37-4369 filled in by sediment as a result of the Beaver Creek Fire (Table 1). For Pond 3, FEMA's 2015 LiDAR data was used to compare the LiDAR contours when the pond was dewatered in 2015 with the full pond water elevation before the fire (2011) in order to estimate the partial sedimentation of Pond 3 (this method was not used for Pond 2 as it was full of water when the LiDAR data was collected). Pond 3 hasn't completely filled in but its average depth has been greatly reduced over the entire length of the pond as a result of sedimentation from Deer Creek as seen in the NAIP 2017 and 2023 aerial imagery.

Pond #	Est. Pre-Fire Average Depth (ft)	Est. Post-Fire Average Depth (ft)	Pre Fire Surface Area (ac.)	Post Fire Surface Area (ac.)	Est. Pre Fire Storage Volume (ac-ft)	Est. Post Fire Storage Volume (ac-ft)
1	6.5	0.0	1.8	0	11.7	0.0
2	7.75	7.75	1.8	1.0	14.0	7.8
3	7.75	2.6	4.6	4.4	35.7	9.0
4	9.25	9.25	3.8	3.8	35.2	35.2
Estimated Totals:			12.0	9.7	96.6	52.0

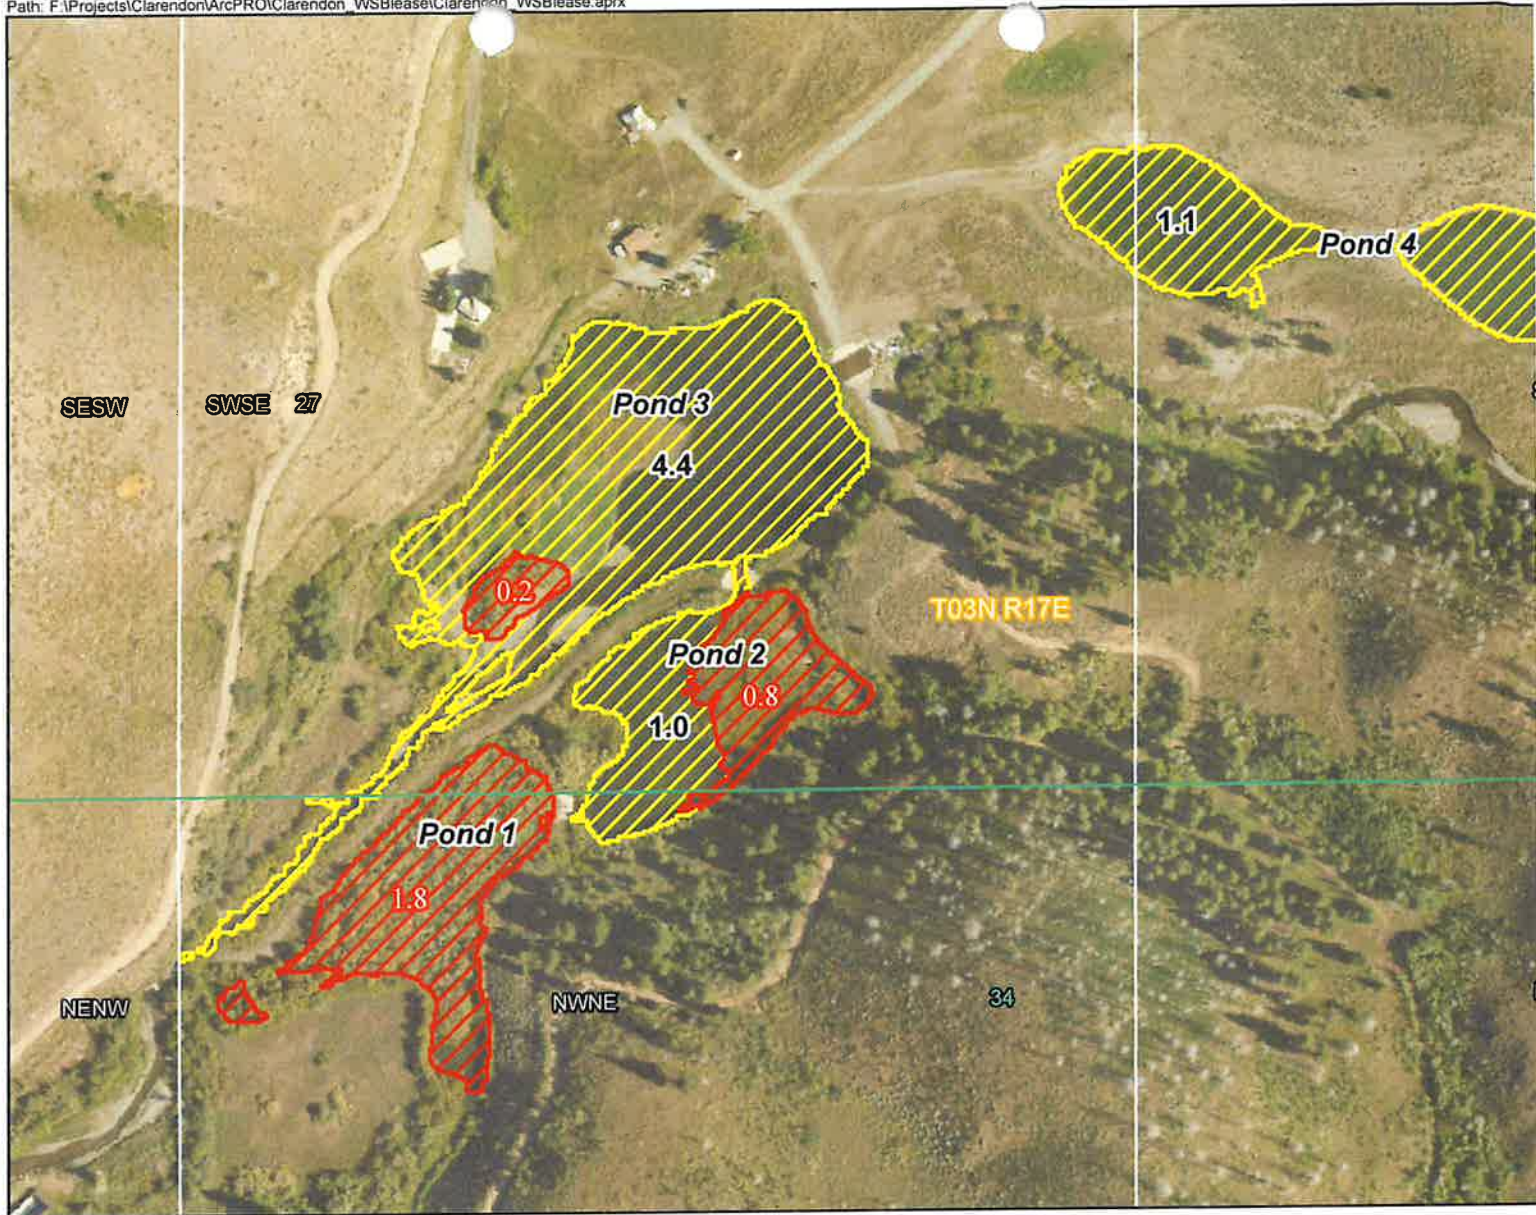

Table 1: Summary Table of Estimated Pond Depths and Surface Areas, Pre and Post Beaver Creek Fire.

Using the LiDAR data, a post fire Pond 3 average depth was calculated by using a weighted-average below the pond's outlet spillway (2.6 ft) and thus a post fire storage volume could be estimate for the pond. The weighted-average was calculated as the difference of the 2015 LiDAR surface and a continuous elevation grid representing the full pool spillway elevation of 5632 feet. The elevation

sampling was done on a 2-meter grid from LiDAR elevations using the Geographic Resources Analysis Support System (GRASS) GIS r.volume module¹.

Based on the estimated current pond volumes, the attached application proposes to lease 47.7 acre-feet of recreation storage under 37-4396 to the water supply bank for 2026.

**RE: REQUEST FOR RETURN OF SIGNED WATER SUPPLY BANK LEASE CONTRACT
2216 FOR WATER RIGHT 37-4369**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant,

The Department of Water Resources (Department) mailed two original Water Supply Bank Lease Contracts for your review and signature on September 8, 2026. The signed contracts have not been returned to the Department.

Please sign both original Lease Contracts and return them to the Department within ten (10) days of this letter to complete processing. The Lease Contract is not considered final until both you and the Department have signed.

If the signed lease contracts are not received by the Department within the 10-day period, the lease application will be returned, and the application fee will not be refunded. You can reapply to lease the water right in the future by submitting new application form along with applicable fees.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov 208-287-4800; or, call me directly at the number below.

Sincerely,

Darin Vrem

**RE: APPLICATION TO LEASE WATER RIGHT 37-4369 TO THE WATER SUPPLY BANK
CONTRACT 2216**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, (2026)** unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:
"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,
