SUBJECT: Bear River Basin Adjudication Claim No. 11-4092

Dear Claimant,

The Idaho Department of Water Resources is reviewing your claim for recommendation. These items need to be addressed before we can proceed:

1. Date of Priority: To confirm the priority date claimed, please provide evidence of historical use of the rate of diversion, source, point of diversion, and place of use going back to this date. The statutory claim filed in 1980 does not suffice as evidence on its own. Verification of when the subdivision application was filed with Bear Lake County is required.
2. Contact phone number: We do not have a phone number on file for you. Please provide this information as another means of informing you about your claim and future water rights matters.
3. Map: The department failed to include a map during the filing of this claim. This is required to continue analysis of your claim. Attached you will find an aerial image to be marked. Please clearly indicate the point of diversion where the well is located, outline the place of use where the water is used, and describe all major water delivery infrastructure.

Please make contact if you would like to discuss this. If we do not hear from you or receive additional evidence, your claim will be recommended with the information currently provided and may be disallowed. It may be beneficial to hire a consultant or attorney to assist you in your research.

Sincerely,

Brian Wunsch
Senior Water Resource Agent
