Subject: Water Claim 11-2181 information request

Fredric W. Price, Water Rights Specialist,

As part of the Bear River Basin Adjudication, I am reviewing BLM claim 11-2181. This claim is based on a license for stockwater from 1960. The claim remarks state that an accomplished transfer of place of use and point of diversion has taken place. Approval of the accomplished transfer must be supported by information or evidence documenting the change.

Until we receive this information or evidence, this claim will be recommended as licensed.

Thank you,

Jose Pacheco
