Hi Julianna,

Apologies for the miscalculation. Thank you for bringing it to my attention and allowing us to correct it. The reference to storage instead of volume on the form is confusing. We will submit another check for $250 via USPS this week. I'll reference 63-32423 and include a copy of this email. Should I send it to your attention?

Thanks!

The Department received the proof of beneficial use (proof) form submitted for the above referenced permit with a $275.00 license examination fee (Fee). The proof is not acceptable without the correct Fee. A copy of the form is enclosed for your reference.

The Fee is based on the diversion volume acre-feet (af) or the diversion rate cubic feet per second (cfs). For permits that have both diversion volume and rate, the greater of the Fees is required. For a diversion rate of 5.00 cfs the Fee would be $225.00, and for the diversion volume of 1,764 af the Fee would be $525.00. This permit authorizes a diversion rate of 5.00 cfs and 1,764 af and was stated the same on the form requiring a Fee of $525.00.

If the remaining $250.00 of the required Fee has not been received by **March 21, 2025** the Department will process the proof at the diversion volume of 700.1-800.0 for the Fee that was submitted. You can submit the additional Fee at any of the Department's offices.
If the proof is processed with $250.00 Fee and during the field examination, it is deemed the development usage is 1,764 af the additional $250.00 Fee would be require at that time. The permits priority date will advance one day for every day the full required Fee is late.

If you have any questions concerning this matter, please email or call me at (208) 287-4945.

Thank you,
