Mr. Franklin;

On Oct, 19,2012, you received a request from me for water master records for the irrigation year to date, 2012. For reference purposes, I am enclosing a copy of this letter for clarity.

I have not heard any response from you and it has now been twelve (12) days from the time you received my letter of request. Please contact me or send copies of the requested records as soon as possible. I am doing a research project and need these record copies for comparison to information I already have.

Thank you for your prompt co-operation.
