Last week I spoke with Bruce Price, the currently elected watermaster for WD 370 (Muldoon Creek), regarding Guy Peterson's diversions on Muldoon Creek. He indicated that he had informed Peterson, in the past that he needed to repair and maintain his diversion on Muldoon Creek, so that a proper measurement and delivery could be made. He indicated that he would be talking to him again about this matter in order to get it resolved. Mr. Price indicated that he wanted to go on record that he had talked to Mr. Peterson on several occasions regarding this issue.
