## Watermaster Report

I have modified the Watermaster Report format from what has been done in the past.  
This Report reflects:

- 1) Total 24 hour second feet delivered.
- 2) Amount of water used by individual users
- 3) Cost per 24 hour second foot is based on a \$3.10 per unit cost
- 4) The amount billed to each user may differ from the current year cost ,due to  
using a 5 year average, not just the current year

I hope these changes are acceptable in providing critical information to the IDWR.
